Married my best friend January 21, 2023 💜💙 married less than one year...

Every person who has been married will agree with the following:

Marriage is terrific; however, it isn't for the faint of heart; it's not always pretty. That part about richer or poorer, in sickness and in health, is in the vows for a reason!

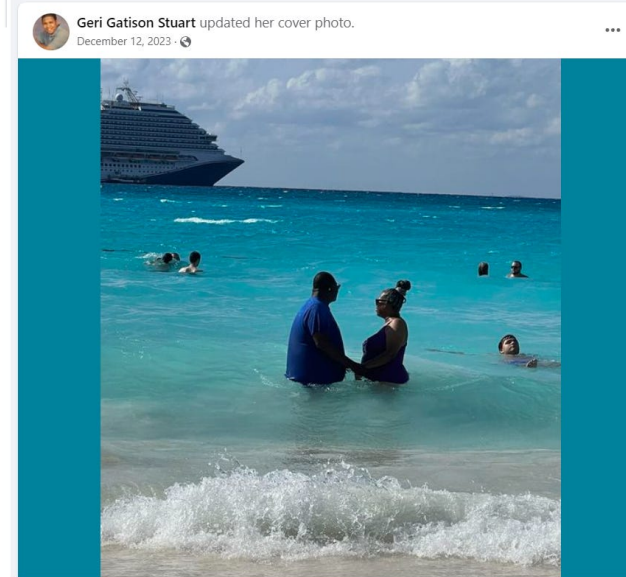

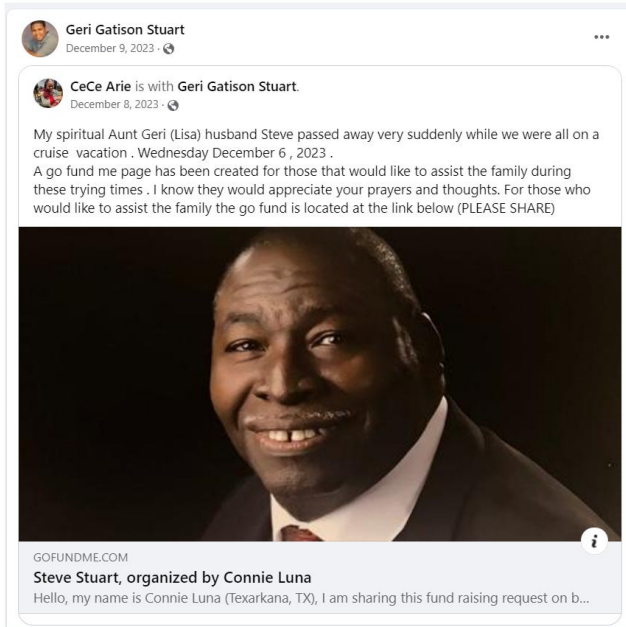

L... [See more](#)

Dec. 6, 2023 – Geri’s husband Steve Stuart, passed away of a “cardiac event” while on vacation in the Bahamas (on a cruise) on December 6, 2023. “Geri and Steve were married in January of this year and were enjoying an early first anniversary cruise which was spoiled by his death.”

Friends and family are sharing this fund raising request on behalf of Geri Elisa Gatison Stuart (Lisa). Her husband Steve Stuart, passed away of a cardiac event while on vacation in the Bahamas (on a cruise) on December 6, 2023. Geri and Steve are from Texarkana, AR. Geri and Steve were married in January of this year and were enjoying an early first anniversary cruise which was spoiled by his death. If anyone would like to contribute to the funeral or additional expenses, the family would greatly appreciate it. Please use this link to do so. All funds raised will go directly into Geri Stuart's account. On behalf of Geri and the Stuart family, they wish to express the deepest gratitude in advance for your prayers, your kind thoughts, and any assistance received.

Jan. 10, 2024 - Geri's oldest son, 31 year old Lee Maxfield died suddenly. "It was a brief (one week) sudden illness. Within one month nurse Geri lost both her husband and her son.

Well FB Fam....most of y'all know we lost my wonderful Steven. He passed away on December 6th. While still reeling from that traumatic loss, we have experienced yet another. It is with a tremendously heavy heart that I have to tell y'all, we have also lost our oldest son **Lee Maxfield**. He too was struck suddenly. It was a brief (one week) sudden illness. He fought really hard, but passed away on Wednesday, January 10th. I have difficulty forming the words to say....he is gone. He was 31 years old. I'm not sure it has fully hit me. This has been our greatest, hardest loss, as parents. Please continue to pray for his father **Harvey Maxfield Sr.** and the entire Maxfield family.

Dec. 2, 2023 - Cherrybrook, NSW, Australia - 36 year old neonatal ICU nurse Amy Barker and her unborn boy Marcus both died suddenly and unexpectedly. Family has no answers.

Pregnant Aussie nurse, 36, and unborn son die 'unexpectedly'

Amy Barker and her unborn son suddenly died on Saturday.

Brianne Tolj · Associate News Editor

Updated Sat, 9 December 2023 at 3:51 pm GMT-7 · 3-min read

A beloved mum [who died suddenly](#) while 36 weeks pregnant with her second son has been remembered as a “beautiful and compassionate soul” and a “brilliant nurse”.

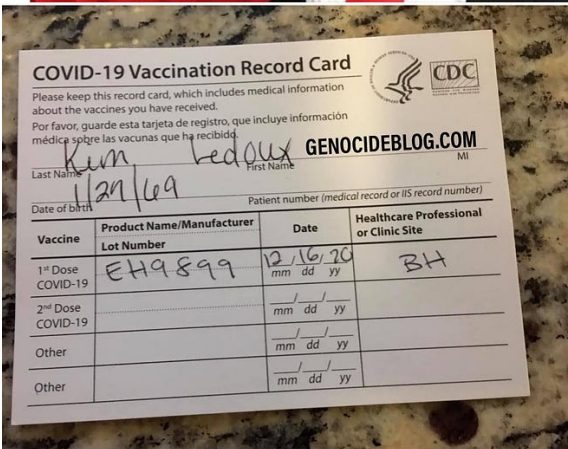

Amy Barker, from [Sydney](#), and her “beautiful unborn baby boy Marcus unexpectedly and tragically” passed away on Saturday, leaving behind her treasured two-year-old son Nicholas and “partner in life” Clint.

The 36-year-old “brought such love and joy to everyone who met her”, especially those she helped during her 15-year career as a nurse in the Grace NICU at Westmead Children’s Hospital, her heartbroken family said. [“The family is awaiting answers as to what caused this tragedy,”](#) grieving relatives told Yahoo News Australia. “Our hearts are broken, having lost Amy and baby Marcus — two lives taken far too soon.”

Oct. 25, 2023 – Brockton, MA – US Navy Veteran Richard Ledoux died unexpectedly on Oct. 25, 2023. His wife is a nurse who rushed to get COVID-19 mRNA Vaccinated.

So this happened yesterday, only one day after the vaccine became available!!

4/8/1961 - 10/25/2023

Richard Ledoux of Brockton, MA, passed away unexpectedly on Wednesday, October 25th, 2023.

Rich was born in Framingham, MA and grew up in Northborough, MA. Shortly after graduating from Algonquin Regional High School in 1979, he enlisted in the US Navy, where he proudly served for 8 years, working as an electronic warfare technician.

During his time in the Navy, he met the love of his life. They married in 1987 and decided to start a family soon after.

Rich became an electrical engineer at Russelectric-Siemens, where he built an impressive career, working there for over 36 years. He was a respected mentor to his co-workers, and built many life-long friendships during his time there.

Oct. 12, 2023 - Waxahachie, TX - 16 year old Hayden Jones died unexpectedly on Oct. 12, 2023. His mom is a nurse and dad is a firefighter.

Meal Train® for The Jones Family

5 Adults, 1 Kid Waxahachie, TX Drop-Off: 4:30 PM

Family and friends,

It is with a heavy heart that I inform you of the Jones' family's recent loss. Zach and Leslie's son, Hayden Jones, passed away unexpectedly on October 12th, 2023. We are asking that you help by surrounding them with your love and prayers as they go through this time. Zach Jones serves as a Firefighter/Paramedic here in the DFW Metroplex, and his wife, Leslie Jones, serves as a Nurse in their community. They are close to those who know them. Please help us show them love at this time and support them in their time of mourning.

Forgotten Centrist @CentristAllWay
16yo Hayden Jones passed away unexpectedly on October-12th. His dad's a firefighter and his mom was a nurse at Baylor Scott, largest Healthcare network in Texas.
We're losing our young and our best. RIP 🙏

Update on grandson from my daughter, Sarah Hilty Stevens
Just now ·

As many of you know, our oldest son Ty is in the ICU. He had a cardiac arrest at home this morning, the EMS/firefighters brought him back. He is at Sparrow with a breathing tube and constant monitoring by my amazing coworkers. We don't know the cause, the tests they have done so far have been negative (a good thing), but we have more tests to go over the next little while. He is improving, nodding his head and following commands. They want to keep the breathing tube in overnight because his lungs look like they were damaged a bit when they brought him back to life.

This has been the most humbling experience. I am so very thankful for everyone who helped save him, all of you who have reached out, or said a prayer, or send positive thoughts and energy our way. Please continue! Love to you all ❤️

Ruth Dahl Baliles
October 5 at 3:03 PM · 🌐

Update #5.5 - His MRI didn't show any issues with his heart. While we will continue to look for the cause of Ty's cardiac arrest, we might not ever find the reason. However, to prevent it in the future, he had a defibrillator implanted today. It is similar to a pacemaker, but in a different spot and has a lower infection risk. If his heart ever goes back into a "bad rhythm", it will shock him. This is a huge peace of mind for us. We just got back to his room. He is very sleepy still. The dr's say if everything looks good tomorrow, we should be able to go home!! Praise God for answered prayers!

June 2023 – Swift Current SK – Ashlyn Paul is a nurse who runs COVID-19 vaccine clinics. Her 5 year old daughter Rustyn was just diagnosed with an aggressive T-cell Acute Lymphoblastic Leukemia with a “large tumor in her mediastinum.”

Scrubcetera Medical Apparel and Accessories is at Swift Current Professional Building
 May 23 · Swift Current, SK · 🌐

It's me, hi 🙋

There's so many new faces here I thought I'd reintroduce myself!

My name is Ashlyn Paul, I am the proud owner of Scrubcetera Medical Apparel & Accessories. I'm also a mom to my 3 human children: Rustyn (6 almost), Ryatt (3), and the newest edition, Romy (9 months), plus my canine child and first born, Gunner (7).

My husband Kevin and I live on a ranch southwest of Swift where we run our beef cattle operation. My husband also works as an oilfield operator and I am an LPN. My position is in home care (wellness), but I have worked all over: Acute care, ambulatory care, vaccine clinics, long term care, etc. I love being a nurse and when I'm not on maternity leave I continue to practice. It is important to me to maintain my skills and never let that part of me slip away.

I started Scrubcetera in 2021 with the goal of providing quality, stylish and affordable scrubs and accessories to the hardworking healthcare workers in our little corner of the province and to anyone that finds me online or on social media. I have customers all over Sask and even Canada! (I just shipped out to Ottawa last week!)

Hi there friends. I've been a little radio silent this last week and I am very sorry for the drop off with no explanation.

If you know me personally you're probably up to speed but I wanted to tell everyone else the reason behind the abrupt change.

Without sugar coating it, I am in the process of living through a parents worst nightmare.

On Monday evening my oldest child was air lifted to the Jim Pattison Children's Hospital in Saskatoon following the discovery of a large tumour in her mediastinum. A lot has gone on this week but in short we are dealing with a very scary diagnosis of T Cell Acute Lymphoblastic Leukaemia.

Treatment is underway and so far she is responding very well but it is still very early. So give my girl all the good vibes ya got right now.

This month for sure I will be working remotely pending how my little love is feeling. I'll respond as I am able to messages but if something is urgent or you need to get ahold of the store please message @mamasandmayhem

Scrubcetera Medical Apparel and Accessories is at Ronald McDonald House Saskatchewan.

Thought it might be time for a little update on my little Queen 🙋

Rustyn is still her rockstar self crushing these chemo treatments. She gets 4 different kinds and today was the first day she received 3 at once but she handled it like a champ. We were discharged over to Ronald McDonald House on Monday (her birthday) and we will stay here until the end of this block of treatment and hopefully get to come home after that.

March 12, 2023 – Raleigh, NC – 17 year old cheerleader Keianna Joe, had a cardiac arrest & died briefly during a competition warm-up. She was saved by her nurse mother with CPR & a defibrillator.

'This is my baby... I have to save her': Heroic mother saves her 17-year-old daughter's life with CPR after the teen suffered a **CARDIAC ARREST** during a cheerleading competition

- Keianna Joe, 17, had been preparing for a cheerleading competition in Raleigh
- She collapsed and became unresponsive before mother Andrea began CPR
- The mother-of-three was eventually able to restart her daughter's heart

By RAVEN SAUNT FOR DAILYMAIL.COM
UPDATED: 14:44 EDT, 16 March 2023

A mother-of-three has recalled her terrifying ordeal after she saved the life of her 17-year-old daughter when the teen went into cardiac arrest during a warm-up for a cheerleading competition.

Keianna Joe had been preparing for the event in Raleigh, **North Carolina**, earlier this month when she suddenly collapsed and became unresponsive.

Her mother Andrea, a certified medical assistant who works in a gynecology practice, leapt into action and began performing CPR for almost 10 minutes after not being able to find her daughter's pulse.

She was eventually able to restart Keianna's heart with doctors claiming that her quick thinking saved the teenager's life.

Keianna Joe (pictured in hospital) had been preparing for a cheerleading competition earlier this month when she collapsed and became unresponsive

Feb. 10, 2023 - Hamburg, NY - Kelly Englert is a nurse who was diagnosed with Stage IV Lung Cancer 3 years ago that has recently spread to her brain. Her daughter Kaitland was just diagnosed with recurrence of her brain tumor which has "mutated into an aggressive form and is a Grade 4 Glioma". Both have simultaneous **CANCER RECURRENCES** into more aggressive forms! ([Click here](#))

Kelly Englert Flak created a fundraiser for Roswell Park Alliance Foundation.

February 8 · Facebook fundraisers · 🌐

2022 was not a well celebrated year for our family. My Stage IV Lung Cancer has metastasized to the brain. In November Kaitland had a reoccurrence of her brain tumor, which now has mutated into an aggressive form and is a Grade 4 Glioma. With continued research and advancements I am receiving targeted therapy, which stabilized the disease process at the moment. Kaitland has had a second craniotomy and will be entering into a phase 1 clinical trial in the next few days. The last few months have been challenging to say the least. Kaity has had some very serious complications this time around and requires a lot more time to heal from this last surgery before she prepares to start her Immunotherapy regimen. Without everyone's love, support, and prayers we would have not made it this far. We will both fight to continue to kick cancers a\$\$.

I fight for me, I fight for my daughter, I fight for those family we have already lost to this terrible disease, and I fight for all of my patients every day, as I am also fortunate enough to be an employee of this amazing hospital. The day I give up the fight is the day I let cancer win.

This is my third time participating in the Ride for Roswell as a rider. Previous years I was fortunate enough to be volunteer and assist with medical needs. My

Let's help Kelly crush Cancer!

Cheryl Taddio is organizing this fundraiser on behalf of Kelly Englert.

Covid booster side effects were worse than the second shot for me. Bad headache, 101 temp, bad body aches. They were really bad for about 6-8 hours. I'm mostly better now but still have a slight temp and headache. Even with the side effects the vaccine is worth it. On a good note. My girls had no side effects from the second shot besides a sore arm.

Found out this morning that Anna is still having tiny seizures that last less than 5 seconds even with upping her medicine. Waiting on her current levels to come back then we will see if we up meds again or add in another one. Not the news we wanted but she is still doing great.

Covid update. The girls are back to normal. They never got fevers, just a little cough and some stuffiness. Andrew is doing good, had a cough but sounds better. I still feel like crap. I was feeling pretty good yesterday but today I woke up with a worse cough and back to being stuffy.

  7

 **Jessica Day-Weaver** is with Darrell Day and Andrew Weaver. 1h · 🌐

This is the hardest post I've ever had to make. This morning at 6am Anastasia passed away. Andrew came home and checked on her and she wasn't breathing. I did cpr until the ambulance came then we went to childrens. She was pronounced 15 min after getting there. We aren't sure what happened. We are in shock and devastated. As soon as we have any updates we will post them.

My Take...

In the past, it was considered to be a benefit, to have a nurse or a doctor in the household.

That changed during the COVID-19 pandemic.

Vast majority of COVID-19 mRNA vaccinated doctors and nurses pushed the jabs on their own family members, to their detriment.

I have reported 100s of vaxxed nurses dying suddenly or developing late stage Turbo Cancers.

This article gives an unprecedented look at how some of their family members are doing.

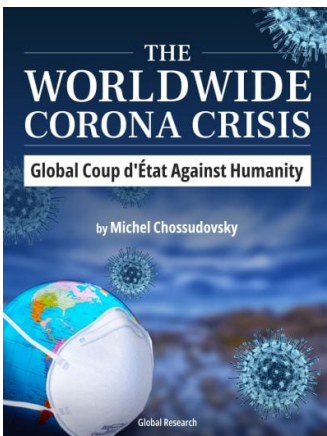

The children who have a COVID-19 mRNA Vaccinated nurse parent, are NOT doing well.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects

humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument."

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
