Doctor and nurse deaths from COVID-19 vaccines were always going to be the focus of cover-ups. The reason is practical: the state needs doctors and nurses to enthusiastically push COVID-19 vaccines on their patients, and it needs these same doctors and nurses to stay silent about COVID-19 vaccine injuries and deaths.

Doctors and nurses mustn't know that their colleagues are dying suddenly from the same COVID-19 mRNA vaccines that they are pushing daily on their own patients.

31 year old NZ nurse died 4 days after booster shot

Divya Simon, 31, a rest home nurse, had her **third COVID-19 booster vaccination four days before suffering a massive heart attack**, according to a decision from coroner Luella Dunn released today. ([click here](#))

"She had the booster on January 25 last year, and took the next day off work because **she felt unwell**. She complained of **pain in the left side of her neck and shoulder**.

Simon, who had two children aged 4 and 2, worked a night shift on January 28 returning home early the next morning and went to sleep at 10am. After she woke mid-afternoon **she went to have a shower and told her husband she felt dizzy and had chest pains. That evening she had a cardiac arrest.**

Ambulance arrived and Simon was given adrenalin, shocked and taken to Waikato Hospital. There she was intubated and taken to ICU but was not responsive and continued to deteriorate, **dying the next day at 11am.**

Dunn said an angiogram was unable to determine the cause of the cardiac arrest and there were no medical records to indicate why Simon would suffer a heart attack.

The pathologist who conducted her autopsy told the coroner Simon's death was most likely related to an underlying weakness in her coronary arteries.

The pathologist found no evidence to suggest Simon's vaccination contributed in any way to her death and the Centre for Adverse Reaction Monitoring came to the same conclusion."

NEW ZEALAND

Covid booster not cause of mother's fatal heart attack, but St John apologises for 111 delay

Case Closed!

That's it. Case closed. A healthy 31 year old nurse had a massive heart attack 4 days after her COVID-19 booster shot and it was definitely not the booster shot, although the pathologist had no idea why she died.

But the pathologist is lying. And I can prove it.

New Zealand does not perform autopsies with immunohistochemical staining of tissue samples for the COVID-19 vaccine spike protein.

So when the pathologist said he "**didn't find evidence**" of COVID-19 vaccine damage, that was a lie. He "didn't find evidence" because **he didn't look for it** - he did not conduct the proper staining of the pathology samples, because no one in New Zealand does.

"There is no current test (in New Zealand) that will show the Covid-19 vaccine in the heart tissue" as reported by One News New Zealand ([click here](#))

26 year old NZ man died of myocarditis due to Pfizer COVID-19 Vaccination

Let's look at a different case where the pathologist linked a sudden death to the Pfizer COVID-19 mRNA vaccine - the case of 26 year old NZ man Rory Nairn ([click here](#))

Rory Nairn died of myocarditis after 1st dose of Pfizer COVID-19 vaccine.

Coroner Sue Johnson opened an inquiry into his death. After hearing evidence from

pathologist Dr Noelyn Hung, Johnson said she is satisfied that the **COVID-19 vaccine caused the myocarditis from which Nairn died.**

Hung carried out an intensive pathological examination of the heart. She stated that the cause of the myocarditis came down to a **diagnosis by exclusion.**

There is no current test that will show the Covid-19 vaccine in the heart tissue, but Hung was able to exclude other causes of myocarditis. Hung also excluded all other known potential causes including certain medicines..

There was no sign of any infection or any other reason for Nairn's death except in the myocardium (the middle muscular layer of the heart). Johnson accepted Hung's medical opinion that the direct cause of Nairn's death was acute myocarditis - consistent with **vaccine-related myocarditis.**

What this means

If there is no test available to check for COVID-19 vaccine injury to body tissues, you cannot exclude the vaccine as the cause of death. In the case of the 31 year old nurse Divya Simon, the pathologist cannot conclude "the COVID-19 vaccine didn't do this" or "there is no evidence the COVID-19 vaccine did this". **It is not possible to come to this conclusion, because the pathologist had no way of proving this.**

In the case of 26 year old Rory Nairn, COVID-19 vaccine myocarditis was declared the cause of death because every other possibility was excluded. It was the diagnosis of exclusion.

Notice the difference?

The 31 year old nurse death was a cover-up. The pathologist lied. New Zealand's Centre for Adverse Reaction Monitoring lied. They covered-up her death. Almost certainly because she was a nurse.

My Take...

It should not surprise anyone by this point, that deaths of doctors and nurses will be treated very differently and will be covered up at all costs.

When 3 Canadian doctors died within days of each other in the same Trillium Health Hospital in Mississauga, Ontario, days after the rollout of the 4th COVID-19 vaccine (2nd booster shot), mainstream media called it a coincidence ([click here](#)) ([click here](#))

That's why my reporting on 132 Canadian doctor sudden deaths since the rollout of the COVID-19 vaccines has been so "controversial".

The fiercest attacks I have faced from mainstream media so far, were about me exposing the sudden deaths of fully COVID-19 vaccinated Canadian doctors.

I was attacked by Global news ([click here](#)), Toronto Star ([click here](#)), Reuters ([click here](#)), AAP ([click here](#)), Politifact ([click here](#)), Logically ([click here](#)), Lead Stories ([click here](#)).

So whenever you see a case like this where a coroner or pathologist declares that

“COVID-19 vaccine didn’t cause this death”, you will know they are lying, and you will be able to explain exactly why they are lying.

They can allow the occasional citizen’s death to be linked to the COVID-19 vaccine. But they cannot and will not allow a doctor or nurse’s death to be linked to the vaccine.

The Worldwide Corona Crisis, Global Coup d’Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”***ISBN:** 978-0-9879389-3-0, **Year:** 2022, PDF Ebook, **Pages:** 164, 15 Chapters
