Seven High School Football have Died Already in August

At least 7 teen football players have died in August

Fans across the country are excited for a new football season, but in some places, the Friday night lights for **high school football** have been overshadowed by tragedy. At least seven teenage football players have died just this month. Yes, you are reading that right, in the first month of high school football seven student-athletes have already died.

In August 2024, at least seven middle and high school football players tragically died during or after practices and games across several states, including Alabama, Florida, Kansas, Maryland, Virginia, and West Virginia. These incidents have involved head injuries, suspected heatstroke, and other health emergencies related to the intense conditions of football practices in high temperatures.

One notable case involved Cohen Craddock, a 13-year-old from Madison Middle School in West Virginia, who suffered a severe head injury during practice and passed away after experiencing brain bleeding and swelling. Another player, Caden Tellier, a 16-year-old quarterback at John T. Morgan Academy in Alabama, died following a severe head injury during a game.

Other reported deaths include Javion Taylor, a 15-year-old from Hopewell High School in Virginia, who collapsed during a drill and could not be revived despite immediate CPR efforts. These tragedies have underscored ongoing concerns about player safety, particularly regarding head protection and the management of heat-related risks during practices.

Please say a prayer for the young men playing football this year.

HOPEWELL - While waiting for emergency medical personnel to arrive, Hopewell High School's coaching staff doused an overheated football player with ice and water to try to bring his body temperature down, according to a 911 call recording from that day.

That recording also indicated that it took seven minutes for the EMS crew to get to him.

Two calls were made Aug. 5, the day Jayvion Taylor collapsed during practice. The initial call included background sounds of coaches trying to revive Taylor while also yelling at his fellow football players to "don't come down here."

That caller indicated that Taylor was sweating profusely and "not responsive" but appeared to be breathing. One of the coaches indicated he could feel a pulse.

HCPS Statement - Update on Tragic Death of Student at Football Practice August 6, 2024 1pm

Our Hopewell High School staff, coaches, and the entire community continue to mourn the loss of one of our 10th grade JV football players during practice yesterday. Our focus today has been to provide a space for our staff and students to grieve.

We respect the privacy of the family during this time, but do want to share that this 15-year-old young man was considered one of the most genuine and remarkable students our staff have ever worked with. He was considered a "light" to all who met him and left a lasting impact.

What occurred yesterday was that our team was at practice about 40 minutes into light drills, following standard safety protocols. After returning from a water break, the student collapsed about 10 feet from a coach. Two coaches were in the vicinity and immediately performed CPR and called 911. An AED was on grounds, but the paramedics arrived promptly and prior to the AED being used. The paramedics provided additional medical support and transported the student to the hospital right away.

We have been asked about the status of athletic training. We completed the procurement process for securing athletic training services over the summer. The existing contract identifies August 12, 2024 as the starting date.

School will resume tomorrow (Wednesday). The air conditioning issues that caused the closure this morning have now been resolved, with the average temperature in the school now in the low 70s. Grief counseling will be available for all of our students when they return.

Our coaches and team are about much more than just football and are devastated. We respectfully ask that the entire school community be allowed time to grieve the overwhelming loss of this remarkable young man.

School officials previously described the 10th grader who played JV football as a "genuine and remarkable student."

Classmates remembered the 15-year-old as funny, sweet and kind.

"It didn't matter who you were," Chase Stith said. "If you were one of the most known people of the school, or if you were somebody who wasn't talkative, he would try to get to know you and understand you."

Aug. 13, 2024 - Palatka, FL - 15-year-old Robert James Gillon III died suddenly at home from a suspected cardiac arrest

It was a high school gathering no one wanted to see: a memorial for 15-year-old Robert Gillon, a Florida teen who died earlier this month from possible cardiac arrest the morning after he complained of chest pain before going to football practice.

Robert J. Gillon, III

January 10, 2009 - August 13, 2024

Robert James "RJ" Gillon, III, 15, of Palatka, entered the sunset of life unexpectedly on Tuesday, August 13, 2024 at his residence. The son of Dedra (William, Jr.) McCormick and Robert (Crystal) Gillon, Jr., he was born on Saturday, January 10, 2009 in Albany, Georgia. He was educated in the Putnam County School District. While in 7th and 8th grade, he participated in Putnam Arts and Sciences (PAAS) Band and Drumline, and Pop Warner Football as a player and volunteer. RJ was the 2020 Spelling Bee School Champion at Moseley Elementary School. He was a sophomore student and avid athlete at Palatka High School. **He participated in Football, Track and Field, Wrestling, and Soccer.** He was a member of Mt. Tabor First Baptist Church, Palatka where he participated in the Youth and Drama Ministries. He enjoyed reading, writing, dancing, playing sports and video games, swimming, taking trips to the beach, playing the trumpet and quad drums, spending time with his family, friends and teammates, helping others, and sharpening his videography and photography skills. RJ also enjoyed traveling, attending high school and collegiate sporting events and drag racing (Gator Nationals).

Aug. 13, 2024 New Brockton, AL - 14-year-old football player Semaj Wilkins, suffered a medical emergency early in football practice and died on Aug. 13, 2024.

Football player, 14, dies after collapsing during practice in Alabama

By The Associated Press

Posted Aug 15, 2024 01:36:37 PM. Last Updated Aug 15, 2024 05:18:52 PM.

NEW BROCKTON, Ala. (AP) —

A 14-year-old football player in Alabama died Tuesday after collapsing during afternoon practice.

Semaj Wilkins, a freshman at New Brockton High School, suffered a medical emergency early in practice Tuesday afternoon, Coffee County Coroner Arnold Woodham said.

Wilkins was given CPR on the field and taken to a hospital.

The cause of the teenager's death was not immediately known. The Alabama Department of Forensic Sciences will conduct an autopsy and it will likely take several weeks to receive those findings, Woodham said.

"Semaj was a young man who brought joy and inspiration to his peers, teammates, coaches, and faculty members. His loss will be deeply felt by everyone who knew him," Coffee County Schools Superintendent Kelly Cobb wrote in a statement on Facebook.

New Brockton is a town of about 1,400 people located about 80 miles (130 kilometers) south of Montgomery.

A vigil will be held Friday night at the New Brockton High School's football stadium to remember Wilkins and honor his mother.

Aug. 14, 2024 - Baltimore - 16-year-old Leslie Noble, football player, collapsed and died on August 14 after a medical emergency on the football field in Reisterstown.

HOUSTON — A grieving Houston father's fight for answers about his [son's sudden death](#) after collapsing at Marshall Middle School this week continued on Friday.

[Landon Payton](#), 14, collapsed in the school gym on Wednesday and had multiple seizures while EMS and police officers tried to revive him. Landon was later pronounced dead at the hospital.

Alexis Payton said he spent two hours with Houston ISD leaders Friday but it was a waste of time because they wouldn't answer his questions about what happened leading up to Landon's death. He said the district showed him police body camera footage but it only showed the end of the incident.

Aug. 16, 2024 - Shawnee, KS - 15-year-old Ovet Gomez Regalado had a medical emergency after an off-season conditioning session on Wed and died on Friday Aug. 16, 2024.

SMNW Football Booster Club @SMNWFootballBC · Aug 16

Football Families:

Our football family has suffered the tragic loss of one of our own. We were informed this morning of the passing of Ovet Gomez Regalado. Our thoughts and prayers go out to the family, teammates, and coaches. We know many of you will want to find a way to support the family and honor his memory. We will work with the school district to support their efforts and share with you any opportunities that arise.

Please keep the family in your thoughts and prayers

"KMBC reported that a football player from Shawnee Mission Northwest High School had an unspecified medical emergency after an off-season conditioning session on Wednesday and then died on Friday.

"According to an email sent out to the student body and families on Friday, the deceased football player was revealed to be sophomore Ovet Gomez Regalado.

"KSHB reported he was 15 years old."

Aug. 24, 2024 - Hewett, WV - 13-year-old football player Cohen Craddock died after a collision during football practice Friday.

A West Virginia boy died after a collision during football practice. It's the third student football player death this month

By Holly Yan and Nadia Kounang, CNN

🕒 5 minute read · Updated 11:41 AM EDT, Wed August 28, 2024

🗲 Video Ad Feedback

(CNN) — Cohen Craddock was the baby of his family, a gregarious 13-year-old who “cared more about others than he did himself,” his father Ryan Craddock said.

“He was very compassionate, very bighearted and all the time wanted to try to make you laugh, make you feel better and bring people’s spirits up,” Craddock told CNN.

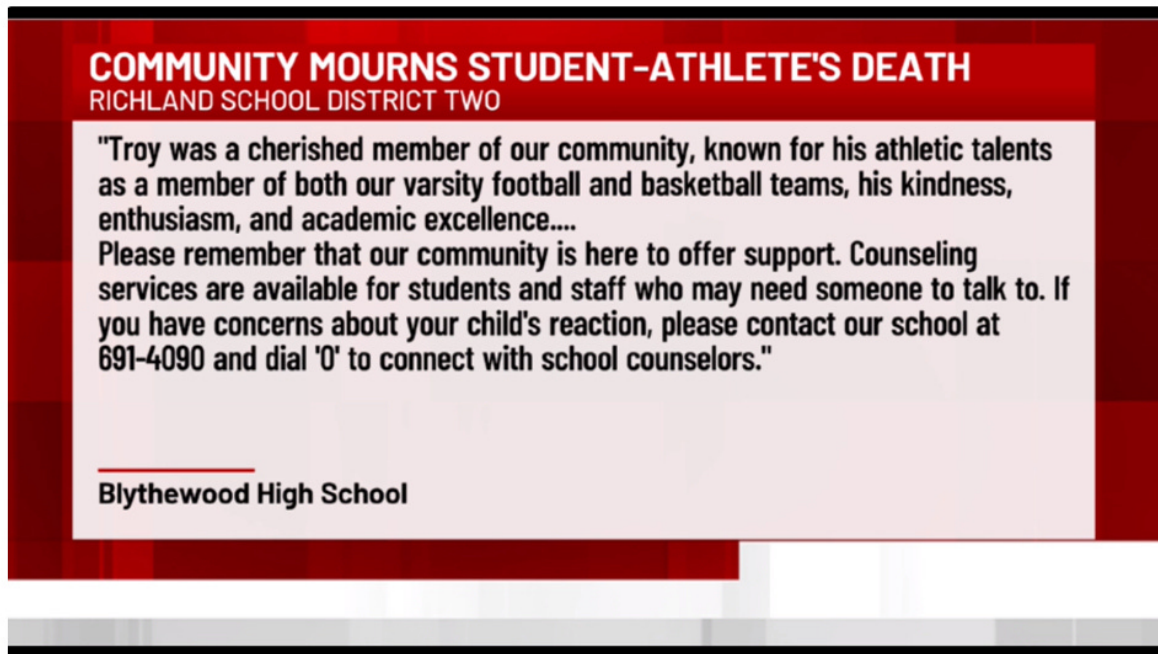

But Cohen’s West Virginia family is now left agonizing without him. The teen died Saturday after a collision during football practice Friday – marking at least the third student football player to die within the first few weeks of this school year.

Their deaths highlight the risks of the America’s most popular sport as the country enters Labor Day weekend and football season.

Cohen’s fatal injury happened the same day a 16-year-old football player from Alabama was fatally injured during his school’s season opener. Caden Tellier, the quarterback for John T. Morgan Academy in Selma, suffered a brain injury Friday night, Alabama Independent School Association Executive Director Michael McLendon told CNN in a statement. His death was announced Saturday.

Aug. 31, 2024 – Columbia, SC – High School football player Troy Moore died suddenly on Aug.31, 2024.

Blythewood High School community mourns death of student-athlete

A student-athlete from Blythewood High School has passed away, the school announced Saturday.

By WIS News 10 Staff

COLUMBIA, S.C. (WIS) - A student-athlete from Blythewood High School has passed away, the school announced Saturday.

The school announced on Saturday the passing of junior Troy Allen Moore, a varsity athlete for both football and basketball.

"Troy was a cherished member of our community, known for his athletic talents as a member of both our varsity football and basketball teams, his kindness, enthusiasm, and academic excellence," said Blythewood High principal Matt Sherman in a statement released by the school.

My Take...

9 High school football players dropped dead in August 2024.

Are we still supposed to pretend to be baffled?

Even after thousands of kids have died after taking Pfizer or Moderna COVID-19 mRNA Vaccines? Really?

Notice in the reporting that no one even mentions the possibility of COVID-19 mRNA Vaccine Injury - which is the top suspect in each of these cases.

This is still happening in 2024 because parents are allowing it to happen.

There will be no investigations.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a

relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.
—**Peter Koenig**

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –**David Skripac**

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –**Edward Curtin**
