Germany (Hollfeld, Bavaria) - 15 year old girl had 2nd Pfizer mRNA on Nov.1, 2021, suffered a massive heart attack on Nov. 4, 2021 and died on Nov. 17, 2021

Brazil (Rondonia) - 13 year old boy Weverton Silva Had Pfizer mRNA on Aug. 25, 2021, died from heart attack on Oct. 8, 2021 ([VIDEO click here](#))

Guyana (Kamwatta, Moruca) – 13 year old boy Joshua Henry died 2 hours after getting 2nd dose of Pfizer mRNA on Oct. 4, 2021 ([click here](#))

Child Dies Reportedly After Taking Vaccine In Guyana

By **Mikey Live** - October 5, 2021

(CMC) – The Ministry of Health of Guyana has asked the public not to speculate regarding the death of a 13-year old boy, who died on Monday, two hours after he received the second dose of the Pfizer vaccine.

The ministry said that the cause of death is not immediately known and that the boy from Kamwatta, Moruca, North West District, was observed for 20 minutes after taking the jab and there were no adverse events.

But the Ministry of Health said that **two hours later after returning home, he felt faint and was taken to the Kumaka Hospital where he was pronounced dead on arrival.**

The ministry said that a senior team from the Ministry of Health, including Senior Pathologist, Dr Nehaul Singh is scheduled to travel to Moruca to determine the cause of death.

It said a post mortem will be conducted by the team, and the circumstances leading to the child’s death will be determined.

“We urge citizens not indulge in speculation and await the results of the post-mortem and other investigations,” the Ministry of Health said, as it extended sympathy to the family of the young boy.

UK – 17 year old student Adam Ali died suddenly after Pfizer mRNA, autopsy results were “inconclusive”, CT showed blood in the lungs, died Sep. 19, 2021 ([click here](#))

Volodymyr Salo: 19-year-old Ukrainian Students Get Pfizer mRNA Injection and Died After Seven Hours Later

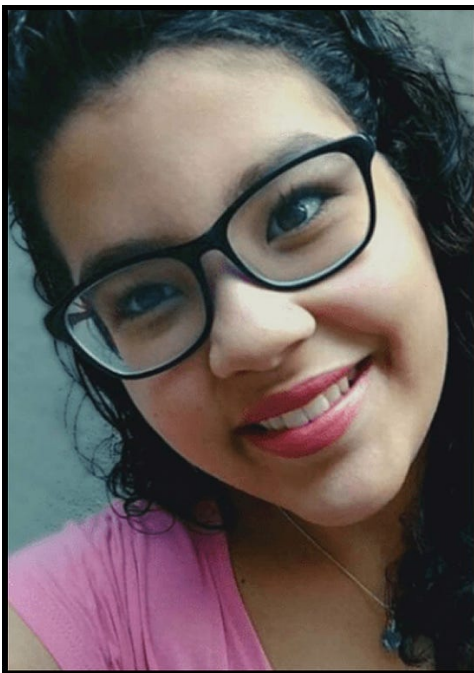

LIVIV, UKRAINE — A 19-year-old philology student is dead after defying his family's philosophical and religious objections.

Mr. Volodymyr Salo, also spelled "Vladimir" in some accounts, received his first Pfizer mRNA injection on September 13 at about 2:30 p.m. local time, according to the Ukrainian Humanities Institute. Mr. Salo was a student there. His day continued as normal thereafter. He ate dinner in the student cafeteria at 6:30 p.m., then played board games with other students in the commons area. The situation quickly deteriorated from there.

A high fever and general malaise kicked in around 8 p.m. Mr. Salo collapsed and had a seizure at 8:15 p.m. and went into violent convulsions. University medical staff performed CPR as they waited for the ambulance to arrive. When paramedics arrived at 8:45 p.m., they applied a portable ventilator for an hour in an attempt to save Mr. Salo's life. But he had no pulse by 9 p.m.

Mr. Salo was pronounced dead shortly thereafter.

Brazil - 16 year old Isabelli Borges Valentim, student at a private Christian school had 1st Pfizer mRNA on Aug. 25, 2021, developed blood clots and died 8 days later on Sep. 2, 2021 ([click here](#))([click here](#))

Surgeon who operated on young Italian vaccine victim: 'You have never seen anything like this'

The surgeon who operated on an Italian girl, Camilla Canepa, who died at the age of 18 from the effects of the vaccine, said he has never seen anything like this. "It's not normal," he added.

Published: June 27, 2021, 1:09 pm

Camilla Canepa was operated on by Gianluigi Zona, director of the neurosurgical and neuro-traumatological clinic of the San Martino hospital: "I had never seen a brain that was affected by such an extensive and severe thrombosis."

The neurosurgeon on duty in San Martino that night was Alessandro d'Andrea, who also called the chief physician to his side at the operating table. "We

Singapore

- 18 year old boy died on Oct.13, 2021, 75 days after his COVID-19 vaccine ([click here](#))

My take...

What you find in 2021 is that there were many deaths very soon after COVID-19 vaccination with Pfizer or Moderna.

Most of these deaths cannot be found using Google and usual search terms.

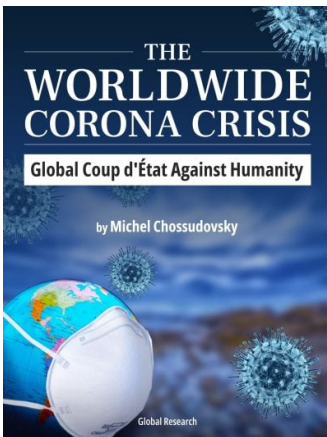

Google has censored almost all COVID-19 vaccine related deaths from its search engine.

And some of the websites that reported these deaths are now offline.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow

human beings and our children worldwide. Truth is a powerful instrument."
