

Hiroshima: A “Military Base” according to President Harry Truman

By [Prof Michel Chossudovsky](#)

Global Research, August 05, 2017

The dangers of nuclear war are not an object of debate and analysis by the mainstream media.

Public opinion is carefully misled. “ All options on the table”. Nuclear weapons are portrayed as peace-making bombs.

*Did you know that tactical nuclear weapons or so-called mininukes with an explosive capacity between one third and six times a Hiroshima bomb are considered, according to scientific opinion, on contract to the Pentagon as **“harmless to the surrounding civilian population because the explosion is underground”**.*

It’s a lie.

The US has a vast nuclear arsenal capable of blowing up the planet several times.

The World commemorates the 72nd anniversary of Hiroshima and Nagasaki (August 6, 9, 1945)

Did you know that Hiroshima was a “military base”, and that when the first atomic bomb was dropped on two of Japan’s heavily populated area in August 1945, the objective was, according to president Truman was to save the lives of innocent civilians.

“The World will note that the first atomic bomb was dropped on Hiroshima a military base. That was because we wished in this first attack to avoid, insofar as possible, the killing of civilians..”(President Harry S. Truman in a radio speech to the Nation, August 9, 1945).

[Note: the first atomic bomb was dropped on Hiroshima on August 6, 1945; the Second on Nagasaki, on August 9, on the same day as Truman’s radio speech to the Nation]

[\(Listen to Audio of Truman’s speech, Hiroshima audio video\)](#)

Unpunished crimes against humanity, “collateral damage”.

In the words of President Harry Truman:

“We have discovered the most terrible bomb in the history of the world. It may be the fire destruction prophesied in the Euphrates Valley Era, after Noah and his fabulous Ark.... This weapon is to be used against Japan ... [We] will use it so that military objectives and soldiers and sailors are the target and not women and children. Even if the Japs are savages, ruthless, merciless and fanatic, we as the leader of the world for the

common welfare cannot drop that terrible bomb on the old capital or the new. ...

The target will be a purely military one... It seems to be the most terrible thing ever discovered, but it can be made the most useful."

July 25 1945

We met at 11 A.M. today. That is Stalia, Churchill and the U.S. President. But I had a most important session with Lord Mountbatten + General Marshall before that. We have discovered the most terrible bomb in the history of the world. It may be the fire destruction prophesied in the Euphrates Valley Era, after Noah and his fabulous Ark.

Anyway we think we have found the way to cause a disintegration of the atom. An experiment in the New Mexican desert was startling - to put it mildly. Thirteen pounds of the explosive caused the complete disintegration of a steel tower 60 feet high, created a crater 6 feet deep and 1200 feet in diameter, knocked over a steel tower 1/2 mile away and knocked men down 10,000 yards away. The explosion was visible for more than 200 miles and audible for 40 miles and more.

This weapon is to be used against Japan between now and August 10th. Those told the Sec. of War, Mr. Stimson to use it so that military objectives and soldiers and sailors are the target and not women and children. Even if the Japs are savages, ruthless, merciless and fanatic, we as the leader of the world for the common welfare cannot drop this terrible bomb on the old Capital or the new.

He + I are in accord. The target will be a purely military one and we will issue a warning statement asking the Japs to surrender and save lives. I'm sure they will not do that, but we will have given them the chance. It is certainly a good thing for the world that Hitler's crowd or Stalia's did not discover this atomic bomb. It seems to be the most terrible thing ever discovered, but it can be made the most useful

([President Harry S. Truman, Diary, July 25, 1945](#))

To this date, the US government has not apologized to the people of Japan, nor has the mainstream media acknowledged that Harry Truman was a liar and a criminal.

Truman's [July 25 diary entry](#) (see above), suggests that he was not aware that Hiroshima was a city. Had he been misled by his advisers that Hiroshima was a military base and that it was ok to bomb, or was he lying to himself? Was he stupid and uneducated? Everybody in the high ranks of the military knew that Hiroshima was a populated urban area with

approximately 350,000 inhabitants (1945).

The complete text of the radio address entitled [Radio Report to the American People on the Potsdam Conference](#) is contained in the Harry Truman Library and Museum [Public Papers of Harry S. Truman](#), University of Missouri.

Date	Title	Record(s) found: 8
August 6, 1945	93. Statement by the President Announcing the Use of the A-Bomb at Hiroshima	
August 9, 1945	97. Radio Report to the American People on the Potsdam Conference	

It should be noted that the reference to Hiroshima and the atomic bomb was mentioned by Truman at the very end of a long radio address largely focussing on Germany and the Potsdam Conference. It is worth noting that the US chose to drop the atomic bomb on Hiroshima at the height of peace negotiations in Berlin. The second atomic bomb was dropped on Nagasaki upon Truman's return to Washington.

[\(Listen to Audio of Truman's speech, Hiroshima audio video\)](#)

Here is the full excerpt of Truman's radio address pertaining to the atomic bomb (emphasis added):

The world will note that the first atomic bomb was dropped on Hiroshima, a military base. That was because we wished in this first attack to avoid, insofar as possible, the killing of civilians. But that attack is only a warning of things to come. If Japan does not surrender, bombs will have to be dropped on her war industries and, **unfortunately, thousands of civilian lives will be lost. I urge Japanese civilians to leave industrial cities immediately, and save themselves from destruction.**

I realize the tragic significance of the atomic bomb.

Its production and its use were not lightly undertaken by this Government. But we knew that our enemies were on the search for it. We know now how close they were to

finding it. And we knew the disaster which would come to this Nation, and to all peace-loving nations, to all civilization, if they had found it first.

That is why we felt compelled to undertake the long and uncertain and costly labor of discovery and production.

We won the race of discovery against the Germans.

Having found the bomb we have used it. We have used it against those who attacked us without warning at Pearl Harbor, against those who have starved and beaten and executed American prisoners of war, against those who have abandoned all pretense of obeying international laws of warfare. We have used it in order to shorten the agony of war, in order to save the lives of thousands and thousands of young Americans.

We shall continue to use it until we completely destroy Japan's power to make war. Only a Japanese surrender will stop us.

The atomic bomb is too dangerous to be loose in a lawless world. That is why Great Britain, Canada, and the United States, who have the secret of its production, do not intend to reveal that secret until means have been found to control the bomb so as to protect ourselves and the rest of the world from the danger of total destruction.

As far back as last May, Secretary of War Stimson, at my suggestion, appointed a committee upon which Secretary of State Byrnes served as my personal representative, **to prepare plans for the future control of this bomb.** I shall ask the Congress to cooperate to the end that its production and use be controlled, and that its power be made an overwhelming influence towards world peace.

We must constitute ourselves trustees of this new force-to prevent its misuse, and to turn it into the channels of service to mankind.

It is an awful responsibility which has come to us.

We thank God that it has come to us, instead of to our enemies; and we pray that He may guide us to use it in His ways and for His purposes.
