Senator Scott Jensen represents Minnesota. He’s also a doctor. He appeared on Fox News with **Laura Ingraham** where he revealed a very disturbing piece of information.

Dr. Scott Jensen says the American Medical Association is now “encouraging” doctors to overcount coronavirus deaths across the country.

Jensen received a 7-page document that showed him how to fill out a death certificate as a “COVID-19 diagnosis” even when there isn’t a lab test confirming the diagnosis.

“Right now Medicare is determining that if you have a COVID-19 admission to the hospital you get \$13,000. If that COVID-19 patient goes on a ventilator you get \$39,000, three times as much. Nobody can tell me after 35 years in the world of medicine that sometimes those kinds of things impact on what we do.” (Dr. Sen. Scott Jensen, from Fox Interview)

This is absolutely bone-chilling.
