

How Facebook Removed “True Content” for Pfizer and the White House

They all made a lot of money while making us sicker

I am very pleased that I have not used Facebook since 2021.

It turns out that Facebook enthusiastically [removed](#) (H/t [Paul Thacker](#)) and suppressed truthful content and groups devoted to discussions of such at the behest of Pfizer and/or the White House.

Subject: [EXTERNAL] Follow up - Friday call w [REDACTED]

Andy,

Thanks for taking the time to connect on Friday. Per our discussion, I wanted to follow up with next steps:

1. **Consistent Product Team POC:** As discussed, we will make [REDACTED] who has been coordinating the product work that matters most to your teams, available on a regular basis. If it makes sense, we can schedule some time for [REDACTED] to connect with you and/or Rob (and whomever else makes sense) early this week.
2. **Sharing Additional Data:** [REDACTED] mentioned the new internal analytics that we are developing to help us understand and monitor the most viral COVID vaccine-related content. This is a top priority for us, and we will keep you updated on our progress and when we expect to be able to share the data with you.
3. **Levers for Tackling Vaccine Hesitancy Content:** You also asked us about our levers for reducing virality of vaccine hesitancy content. In addition to policies previously discussed, these include the additional changes that were approved late last week and that we'll be implementing over the coming weeks. As you know, in addition to removing vaccine misinformation, we have been focused on reducing the virality of content discouraging vaccines that does not contain actionable misinformation. This is often-true content, which we allow at the post level because experts have advised us that it is important for people to be able to discuss both their personal experiences and concerns about the vaccine, but it can be framed as sensation, alarmist, or shocking. We'll remove these Groups, Pages, and Accounts when they are disproportionately promoting this sensationalized content. More on this front as we proceed to implement.
4. **WhatsApp:** Finally—[REDACTED] mentioned the policies that apply to WhatsApp. WhatsApp's approach to misinformation focuses on limiting the virality of messages, preventing coordinated abuse, and empowering users to seek out reliable sources of information both in and out of the product. Our product includes features to limit the spread of viral content, such as forward limits and labels, privacy settings to help users decide who can add them to groups, and simple ways for users to block accounts and make reports to WhatsApp if they encounter problematic messages. Additional limitations we placed in April 2020 on forwarding of messages that have been forwarded many times reduced these kinds of messages by over 70%.

Along with these commitments, we'll continue to provide updated data from our COVID-19 Symptom Survey, and would be happy to walk through this data with our research director, if helpful.

Thanks again--and please let me know if there's anything I'm missing or can follow up to clarify.

In addition to removing vaccine misinformation, we have been focused on reducing virality of content discouraging vaccines that **does not contain actionable misinformation**. This is **often-true content ... but it can be framed as sensation, alarmist, or shocking**.

We'll remove these Groups, Pages, and Accounts when they are disproportionately promoting this sensationalized content.

Facebook willingly and enthusiastically participated in a cruel, dishonest, manipulative scheme that ended up with millions affected by Covid vaccines.

Was it done "for the good of humanity"? Was it an honest mistake?

It was NOT an honest mistake.

Watch this Zuckerberg/Fauci discussion where Fauci, in 2020, shows full awareness of the dangers of unproven, poorly tested vaccines and informs Zuckerberg. Fauci mentions the failed HIV vaccine trials, with the outcome of making people *less resistant to the infection after vaccination, the same thing that happened with Covid vaccines*.

Video: Fauci explained to Mark Zuckerberg that it's possible for "a vaccine that looked good in initial safety [tests] actually made people worse."

Totally unrelated, many countries/US states at 60-70 percent C19 vaccination have now same/worse case counts than pre-vaccines. pic.twitter.com/sLLSnEgwQn

So both Zuckerberg, and Fauci, were fully aware of the risks of unproven and rushed vaccines. And yet, both *disregarded* these risks and *suppressed truthful discussion of them*. This cannot be explained away as a well-intentioned mistake caused by ignorance.

Beware of Facebook, fact-checkers, and the White House asking for a “pandemic amnesty” and pretending that they “did not know.” They did. We have receipts.

As I wrote in September, both Google and Facebook are responsible for what happens to the health of billions of people worldwide. **They recklessly breached their duty to allow potential victims to be informed of risks.**

Google and Facebook will have to compensate their victims.

Would such compensation from businesses that made trillions while suppressing us be fair? Is asking for justice, investigations, and fair sanctions extremist?

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
