Republican lawmakers from Idaho have introduced a bill that will make it a crime to administer mRNA vaccines in the state, citing safety concerns, which would apply to COVID-19 vaccines manufactured by companies like Pfizer and Moderna.

"Notwithstanding any other provision of law, a person may not provide or administer a vaccine developed using messenger ribonucleic acid (mRNA) technology for use in an individual or any other mammal in this state. A person who violates this section is guilty of a misdemeanor," according to House Bill 154 ([pdf](#)) presented to the state's House Health and Welfare Committee on Feb. 15. The bill was introduced by state **Sen. Tammy Nichols and Rep. Judy Boyle**.

While promoting the bill before the committee, Nichols pointed out that there have been "more and more concerns rising" about the mRNA vaccines.

"We have issues that this was fast-tracked, there's no liability, there's no access to data, risk-benefit analysis has not been done, there's no informed consent," she said.

Nichols insisted that mRNA vaccines be treated in a "similar manner" to harmful drugs. She pointed out that there are "concerns of blood clots and heart issues" related to using COVID-19 mRNA vaccines which need to be addressed.

COVID-19 mRNA Approvals

At present, three types of COVID-19 vaccines exist—protein subunit, viral vector, and mRNA. Vaccines produced by Moderna and Pfizer, which have been widely distributed, come under mRNA categorization.

Around 400 million Pfizer COVID-19 vaccines and over 250 million Moderna vaccines have been administered in the United States.

According to the CDC, mRNA vaccines use mRNA developed in a laboratory to teach cells in a human body to produce a protein or part of a protein triggering an immune response. It is this immune response that then creates antibodies to fight the SARS-Cov-2 virus.

State **Rep. Ilana Rubel**, a Democrat, questioned Nichols about fast-track approvals granted to the COVID-19 mRNA vaccines by the Food and Drug Administration (FDA).

Rubel asked about the vaccines being initially approved under the “ordinary approval process” and subsequently passing the scrutiny of “normal tests.”

Nichols responded,

“I’m seeing conflicting reports in regard to that. So I’m actually having more information being sent to me to address that particular issue, because I’m finding that it may not have been done like we thought it should have been done or that it would have normally been done for an approval process, as an FDA-approved vaccine.”

Harms of mRNA COVID-19 Vaccines

According to data from the U.S. Centers for Disease Control and Prevention (CDC) till November, 25 percent of individuals who were injected with mRNA COVID-19 vaccines were incapacitated the next day, with 8 percent ending up in hospitals or emergency rooms.

In an [interview](#) with EpochTV’s “American Thought Leaders,” Cardiologist **Dr. Peter McCullough** called it “the most toxic vaccine by the CDC data that we’ve ever seen in clinical medicine.”

Cardiologist **Dr. Aseem Malhotra** added,

“I think all cardiovascular conditions have got worse because of the vaccine, and anything and everything that can go wrong with the heart has gone wrong with the heart as a result of this mRNA vaccine.”

Both doctors dismissed the claim of there being a higher risk of myocarditis—an inflammation of the heart muscle myocardium—from COVID-19 infection rather than mRNA vaccines. McCullough pointed out that other vaccines like those for smallpox are also known to cause myocarditis.

In a Jan. 30 video [statement](#) on Twitter, **Retsef Levi**, a professor at the Massachusetts Institute of Technology, presented his analysis of data from Israel which suggested that there was a 25 percent increase in the cause of “cardiac arrest diagnosis” among youths during the first half of 2021. During this time, the government launched a massive vaccine campaign in Israel.

Analysis of data from Australia, Scotland, and the UK, also “replicate the data from Israel,” the professor pointed out. “At this point in time, all COVID mRNA vaccination programs should stop immediately,” Levi said in the video.

“By now, I believe that the cumulative evidence is conclusive and confirms our concern that the mRNA vaccines indeed cause sudden cardiac arrest as a sequel of vaccine-induced myocarditis. And this is potentially only one mechanism by which they cause harm.”

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
