*The **Great Reset** is basically aimed to “transform organization design and work design” as spelled out in section 1.1 of the White Paper **Resetting the Future of Work Agenda: Disruption and Renewal in a Post-COVID World** issued in October 2020 by the World Economic Forum (WEF) in collaboration with Mercer.*

As a precondition to realize the **Great Reset**, a terror plan had to be set in motion and the people behind it came up with the notion that a pandemic was the most effective alternative. They capitalized on the idea of HYPING a common and seasonal infirmity – the flu – to control people by way of scaremongering or launching a worldwide fear campaign using the mainstream media all over the world. To heighten the terror to the level of paranoia, massive deaths numbering hundreds of thousands had to occur. To realize this, patients (or perhaps, victims is the better term) – most were elderly – had to be hospitalized where they would be administered with heavy doses of killer drugs (anti-malaria, anti-Ebola, anti-HIV) and be subjected to a killer procedure called intubation. Afterward, they invented a new jargon to describe the present circumstances: the new normal.

Now that we are already standing before the portal of the **New Normal** the **Great Reset** button is about to be pushed to inaugurate the **New World Order**. And it is no surprise that the people behind the **Great Reset** are the very ones in control of the post-industrial **Information Technology systems** because the **New World Order** will be organized, administered, managed, run, supervised, and controlled by these InfoTech helmsmen.

What we have been experiencing as we continue to be enslaved by the conditions that define the deceptive structure of this false pandemic called Covid-19 — which in reality is nothing but pure and simple hyped flu, i.e., HF-20 — is in reality, a necessary stage to inaugurate the realization of the **New World Order** in the mold of Aldous Huxley’s **Brave New World** though not exactly according to the latter’s fictive algorithms.

The **Great Reset** is one heck of a deception. The “great resetters” are global economic programmers motivated by greed as they have determined once and for all that, their total economic and financial domination over the globe will only be achieved through the consolidation of their enormous wealth. To be more specific, these programmers are operating within the confines of the World Economic Forum (WEF). The radical change they have been dealing with and propagating around is against the interest of humanity. This **Great Reset** is therefore a large-scale project aimed to dehumanize humanity.

What we witness at this point in time is the omnipotence of the enormous power players behind this so-called pandemic: the World Economic Forum (WEF) and the global industrial titans that constitute it who have already issued even some four years back the blueprint of the **New World Order** called **The Fourth Industrial Revolution** (2016) which was later followed up in 2018 by **Shaping the Future of the Fourth Industrial Revolution** and capped this year with the issuance of another document called **Covid-19: The Great Reset**.

At the moment, they are on top of the game they have created and no strategy has yet been conceived on how to convince the victimized people of the world whom their minions have already brainwashed that we are in the present predicament because of the criminal acts of these controllers. For those who know the truth about the dynamics and mechanics of all these tragic circumstances that have engulfed the world, the mental trajectory leads only towards one direction and that is to make these criminals liable for their heinous deeds.

Now, the possibility of actually putting them on trial is another thing because such a matter is yet inconceivable considering the magnitude of power they hold. It doesn't however change the reality that they are the culprits in starting and sustaining the catastrophe the world has been suffering from and they have to be prosecuted. When? We don't know the answer as yet.
