

Independent Media Reveals the Criminal Nature of US Foreign Policy

By [Prof Michel Chossudovsky](#)

Global Research, November 30, 2017

The World is at a dangerous crossroads. I think everybody who reads the independent media knows that. But those who are strung to CNN and Time Magazine might have understood otherwise. Lies by omission: The danger of nuclear annihilation is not front-page news, nor is America's "Killing Fields" in Yemen where children are dying as a result of a US enforced blockade on food and medicine.

America's wars are portrayed by the media as humanitarian endeavors. "The Responsibility to Protect" (R2P) doctrine provides a framework which justifies military action.

Dear Readers: when war is upheld as peacemaking, conceptualization is no longer possible. Once the Lie Becomes the Truth, there is No Moving Backwards. Insanity prevails. The world is turned upside down.

The Western media and politicians, in chorus, have obfuscated the unspoken truth, namely that the US-NATO led war destroys humanity.

Facts are being erased.

Our thanks to our contributors who are scattered across the globe. To the best of our abilities, Global Research seeks to report with accuracy, insight and commitment to social justice and a World without war.
