The War Room/DailyClout Pfizer Documents Analysis Project Post-Marketing Group (Team 1) – Barbara Gehrett, MD; Joseph Gehrett, MD; Chris Flowers, MD; and Loree Britt – produced a shocking review of the paediatric data found in

[Confidential][Pfizer document [released under FOI in October 2021] entitled:

[5.3.6 Cumulative Analysis of Post-Authorization Adverse Event Reports of PF-07302048 \(BNT162B2\) Received Through 28-FEB-2021](#) (a.k.a., “5.3.6”).

It is important to note

1) that the adverse events (AEs) in the 5.3.6 document were reported to Pfizer for only a 90-day period starting on December 1, 2020, the date of the United Kingdom’s public rollout of Pfizer’s COVID-19 experimental mRNA “vaccine” product and

2) no pediatric dose of the Pfizer product was approved for use during that time frame.

What dose(s) of Pfizer’s mRNA “vaccine” was given to these children since no approved dose existed?

Important points from this report include:

- **A seven-year-old experienced a stroke.**
- **One child and one infant suffered facial paralysis.**

- **One infant had a kidney adverse event, either kidney injury or failure.**
- **Of the 34 cases, 24 (71%) were classified as serious.**
- **Predominantly female patients were affected** — at least 25 of 34 (73.5%) patients.
- Table 6 reports **34 cases of use in pediatric individuals.** However, **28 additional cases were excluded** because details such as height and weight were “not consistent with pediatric subjects.”
- Ages ranged from **two months to nine years**, with **median 4.0 years**, which means **half the children were under four years of age.**
- 132 adverse events were reported in the 34 children – i.e., **an average of 3.88 AEs per child.**

Shockingly, Pfizer concluded:

“No new significant safety information was identified based on a review of these cases compared with the non-paediatric population.”

Please read the disturbing, two-page report by the Post-Marketing Group (Team 1) [here](#).

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects

humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument."
