In Court Documents, Federal Attorney Admits CIA Targeted Innocent Texas Citizen Who Is Also Being Targeted With Deadly Electronic Weapons

Jesus Mendoza, 52, recently filed his third lawsuit trying to get the U.S. government to cease and desist from using electronic weaponry on innocent citizens.

Leslie Oliver is being “cooked alive” and Jesus Mendoza is dying a slow “electronic death,” as two more stories surface about torture and abuse at the hands of a totalitarian U.S. government using high-grade military weaponry against its own people.

Their stories of gang stalking and electronic harassment, by a U.S. government grown mad with power, add to a growing list of thousands of Americans who are desperately trying to alert the public about what they call “the perfect crime.”

And it’s called the perfect crime since electronic weapons are invisible while causing severe mental and physical damage on its target.

In response to the accusations, government officials claim to use electronic weaponry against only foreign enemies, but Mendoza, 52, of Mission TX, has uncovered shocking evidence in a lawsuit he recently filed that the CIA and NSA are authorizing the use of this weaponry against innocent Americans, including Mendoza.

“I have an admission from the federal attorney in the lawsuit I filed against the U.S. government that the CIA has targeted me and these weapons are being used against me and my family,” said Mendoza,, in an extensive interview on Greg Szymanski’s radio show, The Investigative Journal.

Mendoza has filed three lawsuits against the federal government to cease and desist with the use of such weapons, two of the cases being dismissed while the third is still pending.

“I also have included in my lawsuit a sworn statement from an FBI agent who verified that he was ordered to use electronic weaponry on innocent citizens as a part of a government program,” added Mendoza.

Further he claims he has been under heavy electronic and stalking attacks since 1997 after he originally filed a lawsuit against the law school he attended for fraudulent activities regarding admissions policies.

Since filing the case against influential people in the community he has been the target of

electronic harassment, particularly when he is at home and especially when he is in the company of his children. Mendoza's case is also somewhat unique since he has been able to videotape both non-ionizing EM and ionizing x-rays, gamma rays, radioactivity radiation readings on his several meters.

"I have received death threats after putting before and after pictures of my family members on a web site in 2005," said Mendoza. "My incoming and outgoing emails are read and sabotaged, especially when they are from persons offering help or relevant information which pertains to my slow electro magnetic murder.

"My telephone calls too are under heavy surveillance and are being controlled. All members of my family including my children, wife and in-laws are literally being electronically cooked to death. And now, I find myself at times almost unable to breathe, and with barely enough energy to function, I am bedridden much of the time and the blood in my eyes indicate broken blood vessels."

Regarding the type of torture Mendoza and his family endures on a daily basis, scientist Tim Rifat had this to say:

"As a scientist researching into microwave weapons used on the general public, evidence that the GM900 microwave network is a major health hazard, has come to my attention. Microwave frequencies similar to those of the cellular phones can cause health problems in the following areas: Blood. Cardiovascular System. Cells. Central Nervous System. Digestive System. Glands. Metabolism. Reproduction. Visual System. Internal Sound Perception.

"The GM1800 system used by Orange uses higher frequency microwaves. Australian scientists found this caused cancer in mice exposed to radiation of this type. The documents in my possession show that microwaves pass deeply into the body and can have a negative effect on the brain and body.

"The DIA research dates from 1976 and shows the dangers were known about over twenty years ago. The Soviets used the frequencies and intensities used by mobile phones, 1800 MHz and 900 MHz, as weapons. It is a rule of the intelligence community that you hide things in plain view, getting the public to accept microwave mind control weapons which affect their behavior under the guise of mobile phones was a stroke of genius. Getting the public to pay for these microwave mind control devices, so their brains and behavior can be damaged, to make them more docile and easy to control, was pure diabolical genius."

Regarding the case of Oliver, who is also a targeted individual, she recently wrote the following account of her story, saying she has unsuccessfully moved to India to try and get away from the electronic harassment.

"Electro Magnetic Weapons can and will wipe out mankind, that is, after they covertly assassinate individual dissidents by sudden heart failure, "mysterious" airplane and automobile crashes, choking, suicides and a myriad of other types of "natural" deaths all of which are occurring right now.

"The following report is an accurate account of the illegal, violent atrocities and numerous attempts to murder me by what is now known to be the black ops of the corrupt U.S. Gestapo Government or organized crime unit. This new American mafia is condoned, supported and protected by local police, federal law enforcement agencies and all levels of

government, including the very highest offices.

“The Black Ops/U.S. Gestapo Government now has the capability of literally closingUP a person’s windpipe or plunging a person into unconscious us A distance to incapacitate and kill them. They then set the murder scene up to look like an accident.

“They also internally cook and radiate a person to death from a distance and there is no doubt they have every intention of using these EM weapons on us.

“With the use of Microwave/Scalar EM Weapons aimed directly at us, guns and conventional arsenals are virtually obsolete? Since my last post, the long murdering arm of black ops in the U.S. has reached across the globe to Dharamsala, India and began systematic ‘electric shocks’ to my chest, along with their infamous microwaving. This is done to induce a natural-looking completely unnatural heart attack as many prominent figures who oppose the new Fascist governments have suffered.

“In fact, they have now ‘pumped up’ the microwave radiation to my chest and stomach area to make certain the tissue weakens quickly. There is a burning sensation of heat inside my body all during the day and night. Based on research reports, this is how they Cook the organs so people will develop serious diseases or simply die of organ failure, naturally of course. The blood vessels in my eyes are showing blood... a sign that the microwave heat is not being let out of the body properly which will eventually lead to blinding cataracts or eye cancer.”
