*On April 1<sup>st</sup> when as Israeli airstrike took out half the Iran embassy compound in Damascus, Syria along with Iran's top ranking generals and 5 other officers, Israel clearly violated international law (both UN Charter Article 51 and 1961's [Vienna Convention](#)) that protects foreign nations' embassies, consulates and staff around the world. The targeted slain victims were all invited military advisors stationed in Syria, unlike the illegal US military occupiers refusing to leave both Syria and Iraq.*

Iranian **Supreme Leader Khamenei** responded by informing Israel and the world that **it will deliver a payback "slap in the face" to Israel for its escalated aggression** that is clearly a Netanyahu provocation, deliberately attempting to ignite the larger war in the Middle East in order to drag the US into World War III. Though Biden made the usual claim that US support for Israel is "ironclad," sending US aircraft and [destroyers](#) into the area with missile ballistic defense systems to protect Israel, he also made an agreement with Iran not to intervene against Iran's response after Iran warned the US to stay out of Tehran's retribution in answer to Israel's latest aggression.

The stage was already set when on April 13<sup>th</sup> last Saturday around noon local time Iranian special forces [seized](#) an Israeli operated container ship in the Strait of Hormuz, forcing it into Iran port. Then late Saturday night began Iran's intense barrage reportedly launching [over 300](#) Kamikaze drones, rockets and cruise and ballistic missiles, simultaneously fired directly into Israel from not only directly from Iran, but Hezbollah in southern Lebanon, Houthis in Yemen, and Iran proxy groups in both Iraq and Syria. With Iran launching the world's largest [drone strike](#) in history and Iran's biggest missile launch in its history, the world stands at the abyss of global disaster.

The next day on Sunday April 14<sup>th</sup> Israel and Netanyahu were boasting that [99%](#) of the incoming drones and missiles were effectively intercepted. IDF spokesman **Admiral Daniel Hagari** said that most of the drones and missiles were destroyed even prior to entering Israeli airspace, neutralized by Israel's Iron Dome defense system, with assistance from the US and allied coalition member UK, France and even Muslim monarchies [Jordan](#) and [Saudi Arabia](#) apparently shot down Iran drones. Apparently historical oil-rich Gulf States are still siding with the US/West and Islamic world isn't so unified as recent appearances indicated. An anonymous source for the Saud family just told the Israeli public broadcaster Kan that the Saudi government blames Iran for financing terrorism responsible for the Hamas October 7<sup>th</sup> assault on Israel, sabotaging the burgeoning normalized relations between Riyadh and West Jerusalem.

The tally of Iran weapons launched against Israel included about [170 drones](#), over 30 cruise missiles and more than 120 ballistic missiles. Israel's estimated cost was over [\\$1 billion](#) defending itself from the Iran missile and drone attack. Iran stated that its limited objective was to hit an Israeli intelligence base apparently located in the occupied Golan Heights, according to former intelligence operative [Hal Turner](#). That secret base played a key role in the IDF airstrike attack that killed the Islamic Revolutionary Guard Corps (IRGC) officers in Damascus on April 1<sup>st</sup>. Also, two IDF airbases were targeted by Iran in Israel's Negev Desert. Iran announced its limited campaign hitting only military targets as an appropriate, proportionally measured response was successful exercising Iran's right to self-defense and that it will suffice for now. Israel admitted only minor damage sustained at one airbase and that a 10-year old Bedouin Israeli girl was slightly injured from falling shrapnel with no deaths or other injuries reported in Israel.

According to an unnamed US defense official, **[Biden](#) told Netanyahu late Saturday night that the US will not support Israel if it retaliates further against Iran, reportedly telling Bibi:**

You got a win. Take the win.

According to a Sunday April 14<sup>th</sup> [Axios](#) exclusive:

The official said that when Biden told Netanyahu that the U.S. will not participate in any offensive operations against Iran and will not support such operations, Netanyahu said he understood.

According to a White House statement, Biden revealed:

I told Prime Minister Netanyahu that Israel demonstrated a remarkable capacity to defend against and defeat even unprecedented attacks — sending a clear message to its foes that they cannot effectively threaten the security of Israel.

This drone and missile attack was Iran's first military intervention launched from Iran soil against Israel ever. It's limited strategic objective purposely spared the Israeli population and primarily was intended to send a message of deterrence to Israel, warning that if Israel retaliates, Iran's response will be much "more extensive" and devastating. Days in advance of Iran's weekend drone/missile launch, many Islamic nations in the Middle East warned the US of their refusal to allow US to use their land, sea and airspace to help Israel. An early

Sunday April 14<sup>th</sup> [CNN](#) article claimed:

American forces intercepted 70 drones and at least three ballistic missiles.

The Biden team held a conference call on Sunday with its G7 counterparts “to coordinate a united diplomatic response to Iran’s brazen attack,” collectively condemning Iran and demanding restraint.

**My impression is that last weekend’s events were all pure theater, carefully plotted and choreographed to make Biden appear more presidential as commander-in-chief during his election year, showing he isn’t so weak and feeble after all, stepping up to save humanity from end of the world Armageddon with his decisive intervention warning Bibi the Butcher no help from US if he retaliates.**

**It’s a staged shitshow to project the optics that Biden is capable of finally putting his foot down and setting limits** with the defiant Israeli dictator who previously has gone out of his way to humiliate Biden by flagrantly refusing all his requests and pressure. It seems to be a high profile image enhancement exercise, an impression management charade spectacle serving as humanity’s projected temporary reprieve from World War III gone kinetic, for the time being at least until the November election.

Incisive geopolitical journalist [Brian Berletic](#) wrote a very recent article just ahead of this weekend’s Iranian drone/missile attack on Israel tracing today’s events back to a think tank policy paper from 15 years ago. It crystalizes my own impression and conclusion that this last weeks’ events were all scripted years in advance, as is so often the case. Brian’s *New Eastern Outlook* piece dated April 15<sup>th</sup> entitled “2009 US Policy Paper Planned Current Israeli/Iranian Tensions opens with the following sentence:

In reality, almost verbatim, US-Israeli diplomacy (or lack thereof) and military operations are following a carefully laid out policy described in the pages of the Brookings Institution’s 2009 [paper](#), “Which Path to Persia? Options for a new American Strategy Toward Iran.”

It immediately becomes apparent that this government-military-corporate funded behemoth think tank institution’s policy paper has literally been the US-Israel Middle East policy playbook for unfolding regional developments covertly manipulating tensions and hostilities against Iran by hegemonic power interests for the last decade and a half.

The Brookings paper constantly calls for using the press to project Iran the initiator of destabilizing tensions and conflict. Thus, in the immediate aftermath of Iran defending its own sovereignty, controlled puppet politicians in US and Israel in conjunction with the controlled corporate media predictably spin the narrative framing Iran as the belligerent aggressor and Israel the victim. Right on cue, on Sunday April 14<sup>th</sup> Israel’s **Foreign Minister [Israel Katz](#)** went on the warpath against Iran, accusing:

Iran launched a large-scale and unprecedented attack against the state of Israel, which included hundreds of drones, cruise missiles and ballistic missiles. This attack once again proves what Israel has been saying for years: Iran is behind terrorist attacks in the region and is also the greatest threat to regional stability and world order, which is

why Iran should never acquire nuclear weapons. Iran must pay the price for its aggression, and the first step in this direction must be immediate recognition of the Iranian IRGC – which carried out this large-scale terrorist attack against Israel – as a terrorist organization. The entire free world must stand with Israel against the axis of Iranian evil.

This is all too obvious that if Braindead Biden actually did convince Bibi the Butcher to forego his military retaliation against Iran, which still remains very questionable, FM Katz is attempting to rally the world currying favor for Israel, especially from the West and UN, into collectively delivering painful economic sanctions against Iran, seeking worldwide Israeli support intent on both distracting global attention away from its genocide against the Palestinians and absolving the Jewish Rogue State pariah of its over-the-top international crime on April Fool's Day, bombing the Iran consulate in Syria, which is the real terrorist act here and of course Israel is actually the real "greatest threat to regional stability and world order." And clearly all along, the real terrorist pariahs inflicting by far the most death and destruction on the planet are the US/Israel following orders from their kingpin City of London controllers.

Of course, perennial neocon blowhard [John Bolton](#), former US national security adviser and ambassador to the UN had to rally for more warmongering rhetoric with the following statements to *CNN*:

Passivity at this point for Israel would be a big mistake. This is not time to play academic games and message and signal. This is a question of power. If they came from a different location containing nuclear warheads, Israel might not be so lucky.

Members of both the [Senate and House](#) are hardline AIPAC **controlled Israeli firsters that demand Biden slam Iran with a new round of economic sanctions against Iran, totally ignoring Israel's flagrant international breach of law taking out the Iran Consulate in Damascus.**

Again, it's okay if you violate international law as long as you line up on the US/West's side. Total double standard arbitrarily applied with US rules-based exceptionalism, still trying to impose on nations deemed a threat to Washington's waning unipolar order. On Monday Congress will vote to impose sanctions barring Iranian imports, Iran's oil sales to China and financial transactions between Iran and US. Following Israel FM's lead, the Israel controlled Congress will come up with more sanctions against Iran, and place pressure on EU to declare Iran's military the Islamic Revolutionary Guard Corps (IRGC) a terrorist organization.

**Right on cue French warmonger [Macron](#) on Monday is calling for strengthening sanctions against Iran.**

Another US House resolution also seeks to defy Biden's edict and backs Israel's military retaliation against Iran. Stand with Israel or be unseeded from your lofty position atop the US government is the kind of bribery/blackmail control Israel wields over Washington DC, of course per the marching orders of the City of London planetary controllers pushing the world toward the West vs. East Armageddon scenario.

Again, all of this appears more bread and circus theater and bluster to placate the worried world that WWIII is trying to be avoided. The real terrorists – the planetary controllers well over a century ago planned their scripted Armageddon Zio vs. Islamic war currently bent on

executing their drastic depopulation agenda that's also been in the works for some time, in due time unleashing their WWII as the globalists' biggest WMD kill weapon of them all. It seems the big one is coming sooner than later, i.e., possibly prior to the election with yet another US false flag terrorist attack at home as the excuse to declare national emergency martial law to cancel the November election.

As a sidelight to this big theatrical sideshow, Israel propaganda painting Iran as the big bad eternal enemy showing its evil "true colors" displays some of Saturday's missiles fired at Israel. But the last several seconds of footage is from near a decade ago of a [Russian Grad](#) missile launch in what's being purported as a compilation of this weekend's Iranian strikes against Israel. This is just one among countless examples of how the Jewish State constantly uses deception to always over play its persecuted victim role to justify continually getting away with murderous genocide nonstop for the last three-quarters of a century during its entire existence as a nation.

Meanwhile, [Putin](#) stated this week:

**If the United States wants to come to the field to support Israel, we will not sit idle here, the smallest attack by the United States on Iranian soil will force us to support Iran.**

Iran's account of Saturday's "slap in the [Israeli] face" completely disputes the Israel claim that 99% of all the Iranian drones and missiles were successfully intercepted and failed to hit their targets. On Sunday April 14<sup>th</sup> Iran Foreign Minister [Amir-Abdollahian](#) stated:

In this operation, the armed forces of the Islamic Republic of Iran, with accurate calculations and using drones and guided missiles, targeted the military base where the Zionist regime's F-35 aircraft carried out aggression on the building of Iran's Embassy in Damascus.

The following day on Monday Iran Foreign Ministry spokesman [Nasser Kan'ani](#) stated:

Iran's action was necessary and proportionate and targeted military sites. Iran acted to defend its national security and interests given the lack of action by the UN Security Council and ensuing irresponsible behavior of the US, Britain and France.

Again, Iran's response was precise, measured and on estimate parity with the Israeli April 1<sup>st</sup> attack, although minus any IDF top brass generals assassinated, unlike the IRGC officers in Syria.

Also on Sunday, Chief of staff of the Iranian Armed Forces, **Major General Mohammad Baqeri** stated that Iran's hypersonic missiles "reached their goals," hitting Israel's Nevatim Airbase where the US made F-35s were used to carry out the terrorist attack on the Iran Consulate. These claims refute the probable lies from Netanyahu and his war cabinet that little to no damage in Israel occurred. Israel's war cabinet is discussing how it will respond to the Iran attack as again Bibi could once again defy Biden and retaliate and escalate the wider conflict further. IDF spokesman [Peter Lerner](#) told the press on Monday April 15<sup>th</sup>:

Just because we were successful in intercepting, we should not underestimate what Iran did. We are currently reviewing the options after IDF presented what it believes could

be done. [Countermeasures could involve] a strike or no strike.

Israeli national security minister [Itamar Ben-Gvir](#) urged his government to send the strong signal to its enemies, with this dangerously volatile, provocative, if not maniacal rhetoric:

Ideas of containment and moderation are the perceptions that ended on October 7. To create a deterrent in the Middle East, Israel has got to show that it is prepared to go berserk.

Meanwhile on Sunday, Iran Supreme National Security Council (SNSC) [warned](#) Israel with the statement:

Should the Israeli regime plan to continue its wicked actions against Iran, by any means or methods or at any levels, it will get a response ten times harsher.

According to Iran's [Press TV](#) in an article on Monday April 15<sup>th</sup>:

The Iranian Army Chief Commander Major General Abdolrahim Mousavi says the country will not hesitate to give a 'stormy and unified' response to any act of aggression against it.

**Brutally massacring close to 34,000 Palestinians in just over six months, mostly women and children, Israel lost this war months ago before the world court of public opinion.** Both Israel and the US are genocidal war criminal nations that will eventually be prosecuted and punished. Last Friday April 12<sup>th</sup> [Wall Street Journal](#) ran an article entitled "Israel Wins Gaza Battles but Risks Losing the War" and then the day prior last Thursday, Israel's [Haaretz](#) went even further "Saying What Can't Be Said: Israel Has Been Defeated – a Total Defeat." Writer Ron Unz makes the astute observation in his latest April 15<sup>th</sup> [Unz Review](#) article about all previous Israel wars:

Most of these previous half-dozen campaigns were fought against heavily-equipped conventional armies but their combined length totaled considerably less than the time Israel has now spent trying to defeat Gaza's lightly-armed Hamas militants.

If Biden keeps his word, refusing to join or assist Israel if it continues this deadly tit-for-tat game of chicken, and Israel follows through to strike back at Iran, the Jewish State will then allegedly be on its own to fight off Iran's reactive wrath that will ignite the full-fledge Middle East war that would almost certainly bring catastrophic consequences to not only Israel and this war-ravaged region, but perhaps entire planet. Both Israel with its Sampson option and Iran possess nuclear weapons. It appears the dreaded World War III scenario that top US Freemason [Albert Pike](#) predicted back in 1871, describing the war between the Islamic World (Iran et al backed by Eastern powers Russia, China) versus political Zionists (Rothschild et al City of London controlled Western powers Israel, US, NATO, EU) has at least temporarily been averted. But Israel vows revenge. Meanwhile, Israeli war cabinet meets again today to mull over how and when it will [respond](#) to Iran's weekend attack, with the world teetering on the edge.
