Israel’s plan to expand into an Eretz or “Greater” state incorporating large chunks of its neighbors’ land starts with eliminating the pre-1948 inhabitants of a place once known as Palestine.

That nearly all of those who think of themselves as Palestinians must be killed or otherwise removed is perhaps reduced to an aphorism, like “Israel has a right to defend itself,” to absolve the Israeli state and its rampaging army of any guilt in the process. Indeed, Prime Minister Benjamin Netanyahu’s ability to avoid any serious consequences for his behavior is remarkable, and it generates further atrocities that might have been unimaginable when the fighting in Gaza started back in October.

Al Jazeera [has reported](#) how Netanyahu is now pushing ahead to formalize what has been referred to as the “colonial project,” whereby “the appropriation of all Palestinian Lands will follow on... the outright exclusion of the Palestinian people from their homeland.” Bibi said in a speech to supporters that

“These are the basic lines of the national government headed by me: The Jewish people have an exclusive and unquestionable right to all areas of the Land of Israel. The government will promote and develop settlement in all parts of the Land of Israel — in the Galilee, the Negev, the Golan, Judea and Samaria.”

Journalist Patrick Lawrence, [writing at Consortium News](#), recently described how “Israel’s savagery in its determination to exterminate the Palestinians of Gaza — and we had better

brace for what is next on the West Bank of the Jordan — marks a turn for all of humanity. In its descent into depravity the Zionist state drags the West altogether down with it.” Indeed, and the United States of America is the foremost great power to be reduced to the status of a wholly-owned subsidiary of the Jewish state, unable to advance its own interests when confronted by the juggernaut of the so-called Israel Lobby and associated Jewish and Zionist-Christian organizations that have corrupted and controlled American foreign as well as select domestic policies.

Witness what has occurred in the last several weeks when the international community has rallied to end the slaughter and deliberate starvation of largely defenseless Gazan civilians. First came a United Nations Security Council move by the United States, which [introduced a resolution](#) calling for, but not demanding, an immediate though possibly temporary cease fire in Gaza. When the resolution came up for a vote it was vetoed by Russia and China. There were several problems with the text as it inevitably sought to give Israel considerable flexibility in managing the situation. It included an admonition that the effort to secure a ceasefire must be “in connection with the release of all remaining hostages,” which is an Israeli demand with the willingness of Israel to participate at all very much dependent on the hostage issue. The resolution allowed the fighting to continue and it put control of the entry and distribution of urgently needed relief supplies under the “security” management of the Israeli army.

Then came a Russian and Chinese resolution, approved by all members of the council but the US which “abstained.” The US immediately declared the resolution to be “non-binding” and while the document was meant to permit a ceasefire through the end of Ramadan, it has yet to be enacted by Israel which continues to block food and medicine relief shipments and has focused its latest attacks on the few remaining hospitals, killing hundreds more Gazans. Even though the resolution demanded action on the ceasefire and access to relief supplies Israel has ignored it and so has Washington. As only the United States can compel Israel to change course the fact that it continues to fund Israel and provide it with secret shipments of planeloads weapons, without which Netanyahu would be unable to continue his war, speaks for itself in terms of who is controlling whom.

And don’t be fooled by President Joe Biden’s alleged pressure on Netanyahu to “protect civilians” even as Bibi draws up plans with his war cabinet to invade Gaza’s southernmost Rafah Region, where 1.5 million Palestinians have sought refuge and are now confronted by imminent death with no way out. Biden is responding to opinion polls in the US that indicate that more than half of Americans are [opposed to what Israel is doing in Gaza](#) and the percentage is steadily growing, so he is pretending to have humanitarian impulses and a conscience, neither of which is true, in a cynical effort to support his possible reelection.

To be sure both the White House and Congress, supported by the Jewish dominated media, are totally in Netanyahu’s pocket, something which he has admitted to publicly more than once, saying that the United States is “easily moved” by someone like him.

But if one really needed proof positive about who is in charge in the US-Israel relationship, one need only look at the recent omnibus federal government [budget bill](#) of \$1.2 trillion.

Activist Pascal Lottaz has taken the time to go through the complete 1,012 page document detailing where the money goes and discusses his findings in a 9 minute [podcast on YouTube](#). Lottaz has confirmed both the immediate cash payment of \$3.8 billion in “tribute

money” to Israel plus the already reported blocking of any federal government funding of United Nation Relief and Works Agency for Gaza (UNRWA) for at least a year. As UNRWA is the key humanitarian aid agency, the latter is a prohibition completely inconsistent with Biden’s expressed desire to confront the “surging” humanitarian aid crisis for the Gazans who are facing starvation in the context of an active genocide. The prohibition is in spite of the continuing lack of evidence to substantiate Israel’s claims of “terrorism support” leveled against the UN agency and despite the famine conditions already present in Gaza. In his review of the document, Lottaz has also discovered those and other specific benefits that involve Israel in 10 sections of the bill.

The bill also seeks to protect Israel from accountability under existing or new international law and to limit Palestinian efforts to resist or defend themselves. It requires any organization receiving US funding to show that it is actively taking steps “to combat anti-Israel bias” and it prohibits any funding to support Palestinian statehood unless it is shown that a list of specified conditions are met including satisfactory “cooperation with Israeli security organizations.” It prohibits any funding to the Palestinian Authority if Palestine is granted statehood status by the UN or any UN agency without Israel’s consent. It oddly prohibits any security support to the West Bank or Gaza unless it is shown that satisfactory steps are being taken by the Palestinian Authority to “end torture and other cruel, inhuman, and degrading treatment of detainees.” It should be noted that the Palestinians, not Israel, are required to end abuse of detainees even though it is Israel that routinely engages in those practices. The detailed sections of the bill expanding on what is blocked or prohibited are as follows:

1. The bill forbids any US funding of the UN International Commission of Inquiry investigation into Israel’s unlawful occupation of Palestinian territory: Sec. 7848(C)(2) None of the funds appropriated by this Act may be made available for the United Nations International [Commission of Inquiry](#) on the Occupied Palestinian Territory, including East Jerusalem, and Israel.
2. The bill defunds the UN Human Rights Council unless the organization drops all inquiry into human rights violations by Israel: Sec. 7048(b)(2)(c) UNITED NATIONS HUMAN RIGHTS COUNCIL. (1) None of the funds appropriated by this Act may be made available in support of the United Nations Human Rights Council unless the Secretary of State determines and reports to the appropriate congressional committees that participation in the Council is important to the national interest of the United States and that such Council is taking significant steps to remove Israel as a permanent agenda item and ensure integrity in the election of members to such Council.
3. The bill requires any international organization, department, or agency receiving US funding to show that it is taking “credible steps to combat anti-Israel bias”: SEC. 7048. (a) TRANSPARENCY AND ACCOUNTABILITY. Not later than 120 days after the date of enactment of this Act, the Secretary of State shall report to the Committees on Appropriations whether each organization, department, or agency receiving a contribution from funds appropriated by this Act under the headings “Contributions to International Organizations” and “International Organizations and Programs”:
4. The bill prohibits funding of any support to Palestinian Statehood except under US State Department confirmation that its government meets specified conditions including that it is “cooperating with appropriate Israeli and other appropriate security organizations.”

5. The bill prohibits any support to the Palestinian Broadcasting Corporation: SEC. 7038. None of the funds appropriated or otherwise made available by this Act may be used to provide equipment, technical support, consulting services, or any other form of assistance to the Palestinian Broadcasting Corporation.
6. The bill prohibits any funding to security assistance to the West Bank or Gaza unless the State Department reports on “the steps being taken by the Palestinian Authority to “end torture and other cruel, inhuman, and degrading treatment of detainees””: 7039(C)(2) SECURITY ASSISTANCE AND REPORTING REQUIREMENT. Notwithstanding any other provision of law, none of the funds made available by this or prior appropriations Acts, including funds made available by transfer, may be made available for obligation for security assistance for the West Bank and Gaza until the Secretary of State reports to the Committees on Appropriations on the steps being taken by the Palestinian Authority to end torture and other cruel, inhuman, and degrading treatment of detainees, including by bringing to justice members of Palestinian security forces who commit such crimes.
7. The bill prohibits any funding of the Palestinian Authority if Palestine achieves recognition of statehood by the UN or any UN agency without Israel’s agreement or if the Palestinians initiate an investigation of Israel in the International Criminal Court: Sec.7401(k)(2)(A)(i) None of the funds appropriated under the heading “Economic Support Fund” in this Act may be made available for assistance for the Palestinian Authority, if after the date of enactment of this Act the Palestinians obtain the same standing as member states or full membership as a state in the United Nations or any specialized agency thereof outside an agreement negotiated between Israel and the Palestinians or the Palestinians initiate an International Criminal Court (ICC) judicially authorized investigation, or actively support such an investigation, that subjects Israeli nationals to an investigation for alleged crimes against Palestinians.
8. The bill extends existing loan guarantees to Israel under the Emergency Wartime Supplemental Appropriations Act through September 30, 2029: SEC. 7034(k)(6).
9. The bill grants \$3.3 billion in “Foreign Military Financing” to Israel, to be disbursed within 30 days: 7401(d) ISRAEL.—Of the funds appropriated by this Act under the heading “Foreign Military Financing Program”, not less than \$3,300,000,000 shall be available for grants only for Israel which shall be disbursed within 30 days of enactment of this Act: *Provided*, That to the extent that the Government of Israel requests that funds be used for such purposes, grants made available for Israel under this heading shall, as agreed by the United States and Israel, be available for advanced weapons systems, of which not less than \$725,300,000 shall be available for the procurement in Israel of defense articles and defense services, including research and development.
10. The bill authorizes half a billion dollars in military aid to Israel for “Iron Dome” and other missile defense systems: SEC. 8072. Of the amounts appropriated in this Act under the headings “Procurement, Defense-Wide” and “Research, Development, Test and Evaluation, Defense-Wide, \$500,000,000 shall be for the Israeli Cooperative Programs.

The bill has passed through Congress, is written into law, and is on its way for Joe Biden’s signature. In other words, the US is willingly complicit in thousands of deaths already plus the impending deaths of some tens of thousands more innocent people. It is funding Israel’s war of extermination against the Palestinians and is opposed to any attempts by the

Palestinians to either defend themselves or their interests as a people. It is shameful and our government is behaving monstrously, controlled by a foreign power that has thoroughly corrupted it. And the rot is spreading throughout our political system to include the death of our own right to freedom of speech. Only last week Governor Greg Abbott of Texas boasted of new legislation to stamp out alleged antisemitism and as criticism of Israel or the behavior of Jews is defined as being antisemitic it is [likely that students](#) demonstrating against the Jewish state and in support of Gaza will be expelled from universities and even prosecuted. And it is also reported that the Israel Lobby in the US is busy assembling [a war chest](#) of \$100 million to fund the removal of politicians and other public figures who are critical of Israel. This is serious stuff that will affect all of us. Time to wake up America!
