***Whoever leaked the documents provided a crystal ball that shows what could be. It is the job of the American people to make sure it never is.***

The leaking of two highly classified documents which, upon examination, appear to contain sensitive US intelligence information about Israeli military preparations for an attack on Iran, has created a storm of controversy in the United States. As US law enforcement scrambles to discover the source of the leak, very little concern is being expressed by US politicians or the American public at large over the implications not of the leaked documents, but rather the information they contained—that Israel is preparing a massive strike on Iran that could trigger a larger conflict which, realistically, could end up involving the use of nuclear weapons.

According to the leaked intelligence documents, Israel was preparing some 40 ROCKS ALBMs for a possible strike against Iran, along with 16 “Golden Horizon” ALBMs, which appear to be what is known publicly as the “Blue Sparrow” missile, an adaptation of a target missile developed by Israel to mimic the Iranian Shahab-3 ballistic missile. The ROCKS has a demonstrated range of more than 500 miles, while the “Blue Sparrow/Golden Horizon” has a range of around 1,200 miles.

### Reviews

“This book is a ‘must’ resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since ‘9-11’ against non-nuclear countries to seize their oil fields and resources under cover of ‘freedom and democracy’.”

**-John McMurtry**, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

**-Denis Halliday**, Former Assistant Secretary General of the United Nations

Michel Chossudovsky exposes the insanity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The real aims are oil, financial hegemony and global control. The price could be nuclear holocaust. When weapons become the hottest export of the world’s only superpower, and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from mass death and destruction.

**-Ellen Brown**, author of ‘Web of Debt’ and president of the Public Banking Institute
