As the secretive group gears up for its annual confab in Copenhagen next week, Italian Member of the European Parliament Mario Borghezio has slammed the Bilderberg group as being “the root of all evil,” blaming the organization for Italy’s economic crisis.

Borghezio, who is a member of the Committee on Civil Liberties, Justice and Home Affairs in the European Parliament and a prominent Italian politician, [appears in a video](#) in which he denounces Bilderberg as “the root of all evil that afflicts Italy,” blaming the group for causing unemployment, poverty, and high taxes.

Borghezio is supported by Italian lawyer Alfonso Luigi Marra, who [last year requested](#) that the Public Prosecutor of Rome investigate the Bilderberg Group for its role in “criminal activity.” Marra accused the group of plotting to install Mario Monti as Prime Minister of Italy at Bilderberg’s 2011 meeting in Switzerland, labeling the organization a “unique, illegal brotherhood” of elitists who consider themselves to be “above the law.”

In the video, Borghezio, who is running in the EU Parliamentary elections, takes a swipe at Italy’s political class, asserting, “(Mario) Monti and (former Italian Prime Minister Enrico) Letta are members of the Bilderberg, while (current Prime Minister Matteo) Renzi is their puppet.”

Counter to clichés peddled by the mainstream media that Bilderberg merely represents a “talking shop,” there are innumerable examples of the clandestine group formulating the consensus for policy which is implemented soon after.

In 2010, former NATO Secretary-General and [Bilderberg member Willy Claes admitted](#) that Bilderberg attendees are mandated to implement decisions that are formulated during the annual conference of power brokers. If this is the case, it would violate laws in numerous countries that forbid politicians from being influenced by foreign agents in secret.

In 2009, Bilderberg chairman [Étienne Davignon even bragged](#) about how the Euro single currency was a brainchild of the Bilderberg Group.

Borghezio’s charge that Bilderberg had a hand in wrecking Italy’s economy is also noteworthy given that the group [conspired to set the stage for the housing market and economic collapse](#) at their 2006 meeting in Ottawa Canada, two years before the 2008 financial crisis.

In 2011, [Borghezio attempted to enter the site](#) of the Bilderberg meeting in St. Moritz,

Switzerland but was beaten and arrested by Bilderberg security.

The [2014 Bilderberg Group meeting](#) will take place at the 5 star Marriott Hotel in Copenhagen from May 29-June 1. Infowars reporters will be live on the scene throughout the week.
