The full interview with Vladimir Kozin, a Russian expert at the Political-Military Studies Center, was made by Jean Toschi Marazzani Visconti at the Russia Today headquarters in Moscow.

Vladimir Kozin denounces the fact that the United States after tearing up the INF Treaty is deploying intermediate-range nuclear missiles in Europe close to Russia, in addition to the new B61-12 nuclear bombs. Regarding these bombs, he declares:

“The B61-12s are already being sent to Europe, contrary to what was announced by Politico that they will arrive in December. We have information that the bombs already arrived because a specific aircraft such as the US F-35A fighter has already been delivered to NATO member countries. Even to Finland, which has not yet become a full member of NATO but is awaiting ratification. Finland has requested 65 F-35s capable of using nuclear weapons. And recently rumors have come from Helsinki that they would like to have US nuclear weapons on Finnish soil, as Germany has them, Belgium has them like Holland has them, and also Italy and Turkey. So, Europe is becoming a nuclear powder keg”.

Vladimir Kozin calls the current situation *“much worse than it was during the Cold War, much deadlier and more dangerous”*.

He, therefore, warns that

“if our territory is attacked with nuclear weapons or weapons of mass destruction, such as chemical or biological, bacteriological and toxic weapons, as well as nuclear, we will respond”.

When asked whether Russia will strike US nuclear bases in Europe, he replies:

“Yes, that’s for sure. If we are attacked.” Kozin calls all this *“madness”*.

He warns that, if it comes to a nuclear war, *“there will be no winners or losers, everyone will lose”*.

Reviews

“This book is a ‘must’ resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since ‘9-11’ against non-nuclear countries to seize their oil fields and resources under cover of ‘freedom and democracy’.”

–John McMurtry, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

–Denis Halliday, Former Assistant Secretary General of the United Nations

Michel Chossudovsky exposes the insanity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The real aims are oil, financial hegemony and global control. The price could be nuclear holocaust. When weapons become the hottest export of the world’s only superpower, and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from mass death and destruction.

–Ellen Brown, author of ‘Web of Debt’ and president of the Public Banking Institute
