The most senior medical oncologist in Japan recently slammed the COVID-19 mRNA shots as "the work of evil" that has caused "essentially murder."

In an interview [published](#) April 19, Dr. Masanori Fukushima, who spearheaded the first cancer outpatient clinic at Kyoto University and launched the first course in pharmacoepidemiology there, listed a slew of problems with the COVID mRNA jabs, evidencing what he called an evil "abuse of science."

He pointed out that “turbo cancers,” a kind “previously unseen by doctors” that progress extremely quickly and are typically in stage four by the time they are diagnosed, have started to appear after the jab rollouts. These “turbo cancers” are emerging along with excess mortality due to cancer in general, which Fukushima says cannot be explained only by lost opportunities for screenings or treatment during the COVID outbreak.

As a tragic example of the fatal danger of the COVID shots, the oncologist shared the story of a 28-year-old man who was found dead by his wife when she tried to wake him in the morning, five days after he received his second Pfizer shot.

“The doctor who did the autopsy said that when he tried to remove the heart, it was soft and had disintegrated,” Fukushima said. “And even just one case like this shows how dangerous this vaccine can be.”

He pointed out that these severe harms, including death, have been afflicting people – post-jab – who have a history of good health.

“It’s serious. It’s essentially murder. In the end, I want to state clearly that this is my view,” the doctor said.

He lamented that the media, including newspapers, generally have not reported on these harms, and that in fact those who question the safety of the COVID shots – just as with the flu shots – have been characterized as anti-science “heretics.” He described the attitude of those who shut down the voices COVID “vaccine” critics, however, as far from scientific, and “more akin to faith, hysteria or even cult behavior.”

“I am now deeply concerned not only about a serious crisis in medicine but in science and democracy,” Fukushima said.

He highlighted the fact that countries that most aggressively pushed the COVID shot, such as Israel, saw the highest rates of death and infection, as shown by studies comparing Middle Eastern countries, including Jordan, Syria and Egypt. Israeli Prime Minister Benjamin Netanyahu arranged a [special deal with Pfizer](#) to use Israelis as lab rats in a national injection program with the Pfizer Covid “vaccine.”

“Israel led in early and widespread vaccination but also had the highest death and infection rates. The less aggressively vaccinated areas saw less harm,” said Fukushima, noting that “Israel was quick to halt the vaccine.”

There were problems, moreover, with the very technology used to administer the mRNA – the lipid nanoparticles – that the doctor said result in “off-target effects” on various organs, including the ovaries, brain, liver, and bone marrow.

Worse, the spike proteins produced by the mRNA have been detected in the human body more than a year after the administration of the COVID shot, noted the oncologist, indicating “a severe problem.”

The doctor took aim at the World Health Organization (WHO) for “hastily” pushing the COVID shots without proper investigation, and moreover for trying to enforce a one-size-fits-all approach in countries with widely varying “medical circumstances, habits, and systems,” calling it “somewhat absurd.”

He argued that it is “crucial” that the WHO take responsibility for the harms of the COVID shots, which he called “an abuse, a misuse of science and an evil practice of science, to be frank.”

Fukushima pointed out that the WHO is “aware” of harms from the so-called vaccines because they are compensating for these damages in certain countries, and yet they are not properly addressing the COVID shot-induced death and injury through an investigation and report.

“Imagine finding your spouse dead in the morning. It’s no joke. A vaccine that causes

such outcomes, even a single death, is unacceptable,” said Fukushima, adding that in Japan alone, the government has documented 2,134 deaths reported due to the COVID shot, which is likely a low estimate.

“There are tens of thousands of people who must see a doctor because of vaccine-related issues,” he continued, asserting that a big chunk of them – 30 percent – are “suffering from ME (myalgic encephalomyelitis) or chronic fatigue syndrome.”

This is just the beginning, according to Fukushima, because the rates of all sorts of diseases have been spiking since the COVID shot rollout, including “autoimmune disease, neurodegenerative diseases, cancer, and infections.”

“It’s as if we’ve opened Pandora’s box... We must take these damages seriously and address them earnestly. Any efforts to dismiss these damages as if they didn’t happen are frankly the work of evil. This is a quintessential example of the evil practice of science,” Fukushima said.

He called on scientific and medical institutions, led by the WHO, to directly confront these outcomes through research efforts in order to “shine the light of science” on the shots.

“We should never again use such vaccines,” he said. “This is a shame for humanity. It’s a disgrace that we did this.”

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

in this war against humanity in which we find ourselves, in this singular, irregular and messy war against liberty and the goodness of people, Chossudovsky’s book is a rock in our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.

—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom
