It's been called the [end of innocence](#). The first of the [great assassinations](#) of the nineteen sixties. The first emergence of a [national tragedy in real time](#) on the media airwaves. The [end of Camelot](#).

The death of the 35th president of the United States in a motorcade travelling through Dallas marked the [end of trust](#) in the U.S. government, and the dawn of what came to be known as "[Conspiracy Theories](#)" revolving around seemingly impossible events. Did someone really kill our beloved president? How can that be?

But as listeners to this program, and patrons of Global Research know all too well, we cannot exclude criminal practices from within the ranks of governments and government servants acting nominally in our own interests.

To quote the simple statement from Walt Kelly's cartoon:

"We have met the enemy and he is us." [1]

The 60th anniversary of the death of Kennedy is approaching in a few days. There is a major conference taking place in Dallas put on by The JFK **Historical Group in collaboration with JFK Conferences, LLC, and Project JFK**. They are looking to re-examine the evidence and decades of research "with fresh eyes and New Technology." [2]

Many individuals will no doubt similarly mark the profound moment of sadness, and a resolve to get at the truth of once and for all of what happened to the man, and to America in the interests of justice and clarity. Radio show hosts like [John Young](#) and Canadian [Brent Holland](#) are two examples of researchers active in radio putting the question "Who killed Kennedy?" on the airwaves.

And the Global Research News Hour is no exception!

We have certainly had remarkable individual researchers sharing the results of their research. But as "JFK DAY" approaches in this critical year, the show plans to investigate the death from the standpoint of the present. And from vantage points not yet explored in past episodes.

Our first guest, **Jeremy Kuzmarov** of Covert Action Magazine, who plans to bring out a special article on JFK in coming days, talks about the recent refusal of both Presidents **Trump** and **Biden** to fully release all documents relating to the JFK assassination since 2017 according to the 1992 President John F. Kennedy Records Collection Act. He also explores other more recent revelations about circumstances surrounding Kennedy's death. And he dovetails into a discussion of so-called "red herrings" pursued by some researchers that led them away from more solid evidentiary ground.

In our second half hour, we speak with **Phillip F. Nelson**. He is also a JFK assassination writer who wrote the extra-ordinary 2010 book: [LBJ: The Mastermind of the JFK Assassination](#). Nelson spends the bulk of the interview detailing the man hidden in plain site as having the motive to ascend to power working in collaboration with “Deep State” forces to get the deed done, with virtually no one, including JFK director **Oliver Stone** suspecting his involvement! He also talks about the direction he thinks a new generation of researchers and activists should take to reveal the aspects of the case that should be in the foreground moving forward.

Jeremy Kuzmarov is Managing Editor of [CovertAction .Magazine](#). He is the author of four books on U.S. foreign policy, including [Obama’s Unending Wars](#) (Clarity Press, 2019) and [The Russians Are Coming, Again, with John Marciano](#) (Monthly Review Press, 2018). He also authored the December 2022 article: [Biden Protects CIA By Withholding 5,000 Critical Documents on JFK Assassination](#).

Phillip F. Nelson is the author of [LBJ: The Mastermind of the JFK Assassination](#); [Remember the Liberty! Almost Sunk by Treason on the High Seas](#); and [Who Really Killed Martin Luther King Jr.?: The Case Against Lyndon B. Johnson and J. Edgar Hoover](#), among other books. After college, a stint in the Peace Corps, and a corporate career, he began an intensive study of the JFK assassination, Johnson’s presidency, and his continuing criminal conduct. Phillip resides Greenville, South Carolina and can be reached at philfnelson@protonmail.com.
