“Loose Change 2nd Edition” is the follow-up to the most provocative 9-11 documentary on the market today.

This film shows direct connection between the attacks of September 11, 2001 and the United States government.

Evidence is derived from news footage, scientific fact, and most important, Americans who suffered through that tragic day.

British Member of Parliament, Michael Meacher, is having the 9/11 movie, “Loose Change” shown to Parliament in Britain on June 14

This, obviously, is a major coup for the 9/11 Truth Movement. It’s hoped that by doing so, we can get the mainstream media to engage on the subject. Here’s the announcement that appeared today in UKTV:

MPs to watch cult 9/11 documentary

Dominic Schreiber 8:00am A controversial US documentary that casts doubt over the cause of the collapse of the World Trade Center during 9/11 is to be shown to MPs next month.

Made by Americans Korey Rowe and Dylan Avery on a laptop for less than \$10,000, Loose Change claims the Twin Towers were brought down in a controlled explosion.

The 90-minute film has gained a cult following and according to Labour MP Michael Meacher

- who has arranged the screening on 14 June at the Houses of Parliament - the evidence assembled proves there are major discrepancies in the official accounts of what happened, including the findings of the 9/11 Commission.

"It is an issue that clearly the media and many members of the public shy away from," he said.

"I think 9/11 is so important that as many people as possible should see this film. That's what I hope to achieve. It really deserves to get the fullest exposure." To contact Broadcast with a news story please call 020 7505 8040 or send an email to broadcastnews@emap.com

Meanwhile back at the ranch, Part 1 of a new 3-part movie, produced by a friend and associate, Sofia Shafquat, will be out in the next few weeks. "9/11 Mysteries Part 1: Demolitions" will be followed by "Part 2: Hijackers & Planes", and "Part 3: Who Benefits."

The trailer may be viewed at: www.911mysteries.com

"Part 1: Demolitions" promises visuals, graphics and analysis not seen before in the 9/11 arena. Created in movie studio/television style, the official story is laid out against real science - all the scattered bits and pieces of evidence arranged in a way that no one has yet explained. As many have argued, the case for demolitions stands alone. Part 1 of the "9/11 Mysteries" series will be a complete DVD in itself - for those familiar with the subject who prefer this angle - but it may very well seal the case for the newcomer, too.

Our goal is to penetrate the mainstream (whose isn't?) as a result of the efforts we have made to audience-test our material over a 12-month period and to use real professionals in putting the movie together. Research for the series has come from individuals all over the country; as of May, the "9/11 Mysteries" movie trailer has had 40,000 downloads.

We look forward to letting you know SOON that the first DVD is ready! Packaging will be both in slimpack and regular black case with insert. The complete series will be available in a multi-disk package.
