Dr. Ryan Cole is the CEO and Medical Director of Cole Diagnostics, one of the largest independent labs in the State of Idaho. Dr. Cole is a Mayo Clinic trained Board Certified Pathologist.

He is Board Certified in anatomic and clinical pathology. He has expertise in immunology and virology and also has subspecialty expertise in skin pathology.

He has seen over 350,000 patients in his career, and has done over 100,000 Covid tests in the past year.

He recently was invited to speak at the “Capitol Clarity” event in Idaho, apparently sponsored by the Lt. Governor’s office, where he discussed successful outpatient treatments for COVID, and to offer his views on the new COVID “vaccines.”

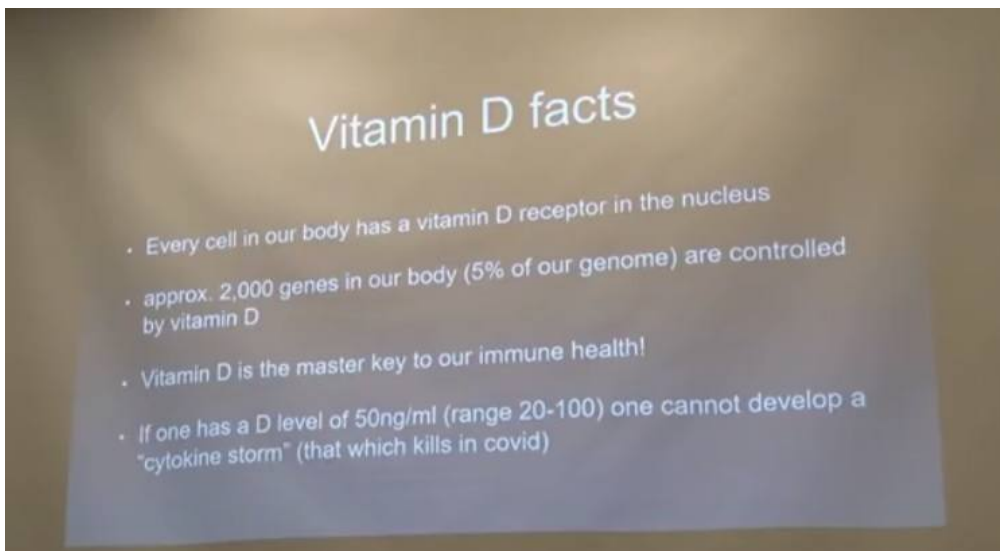

Dr. Cole begins by showing statistics that prove Idaho is no longer in a “pandemic,” but an “endemic.” He states that the highest risk factors for contracting COVID are advanced age, obesity, and low Vitamin D levels.

He also explains that coronaviruses have historically always followed a 6-9 month life cycle. He gives previous examples such as SARS-1, MERS, etc.

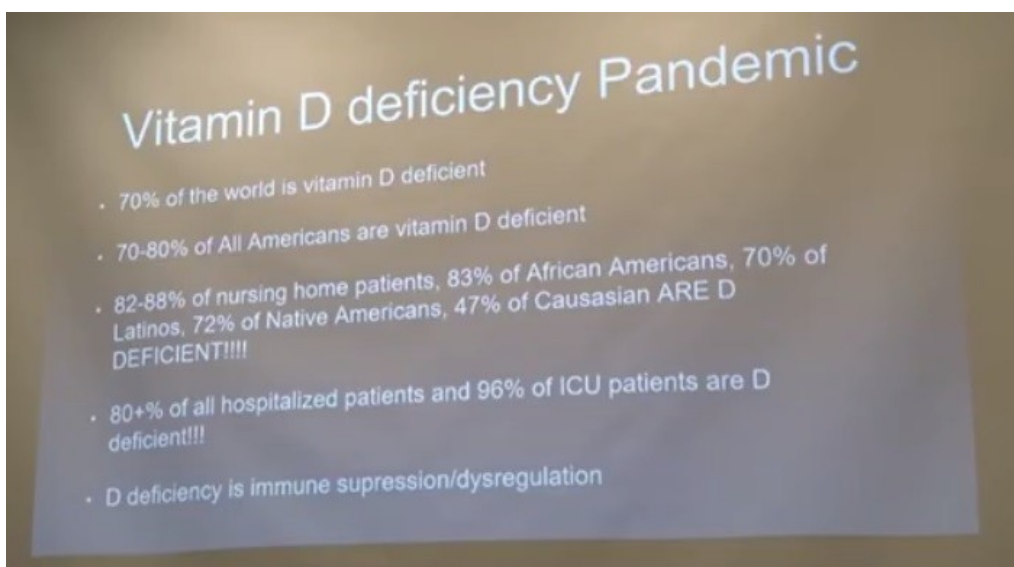

One very interesting statistic that he pointed out is that in the U.S. the average annual age of death is 78.6 years old, and the average age of death during COVID has also been 78.6 years old.

Dr. Cole is very adamant that proper levels of Vitamin D are essential to fight coronaviruses. He states:

There is no such thing as “flu and cold season,” only low Vitamin D season.

Dr. Cole then goes on to explain that by law, the government cannot use experimental vaccines on the population if there are already effective treatments.

So all of the current experimental COVID "vaccines," which Dr. Cole himself admits do NOT meet the legal definition of a "vaccine" to begin with, are all illegal because there are therapies, such as Vitamin D, that are effective in treating COVID patients, as well as older already FDA-approved drugs like Ivermectin.

He points out that the NIH (the National Institute of Health), which is a U.S. government agency involved with approving drugs, holds patents on the Moderna experimental COVID "vaccine," which is like asking the fox to guard the hen house.

This is also the agency that Anthony Fauci works for, and has been employed there for over 30 years and is one the highest paid politicians in the U.S., making more money than even the President of the United States. (Go ahead and fact check this for yourself.)
