 Team fundraiser

Jennifer Ciano and Chris Barrett are organizing this fundraiser on behalf of Joe Kowalski.

Hi, my name is Jennifer and I am Joe's sister.

I am updating the overall need for this as things have changed dramatically.

As you are all likely aware, Michelle/Lexi suffered a hemorrhagic stroke on Tuesday August 1, which in the immediate aftermath left her unable to speak or swallow, with right-sided paralysis, and a stay in the ICU at St Elizabeth's Medical Center. While she has shown steady improvement -- able to speak and eat, regaining feeling on her right side, as well as some right foot movement -- the future is still unknown regarding potential rehab, physical therapy, or even her ability to walk up the stairs to their second floor apartment. Regardless of insurance, medical bills will be high with an ambulance ride, ER, ICU stay, a myriad of tests and future therapies.

Two days after Lexi's stroke, Joe unknowingly suffered a heart attack, and kept trying to push through for 4 days until a friend brought him to the ER instead of their plan of him visiting Lexi in the ICU.

Joe's heart attack and reduced blood flow caused a hole in his cardiac septum (the wall separating the right and left sides of his heart), as well as injuries to his liver and right kidney. A cardiac catheterization revealed a nearly occluded Right Coronary Artery, and an 80% blocked Left Anterior Descending artery. Both the blockages and the septal defect need to be repaired but that cannot happen until the liver injury is managed and his blood labs normalize.

He is currently in the ICU, worried, but still cracking jokes.

DICKENS, Texas (K CBD/Gray News) - A Texas community is mourning the loss of a couple who died 12 hours apart from each other.

According to an obituary posted by the [Hudman Funeral Home](#), Cindy Guthrie died last Saturday at 66 years old surrounded by loved ones.

Her husband, Danny Guthrie, also 66, died in his sleep at their home in the Dickens area the following day.

"In death, as in life, they went together, having not spent a day of their 45 years of marriage apart," the obituary stated.

They were married in November 1978 and raised three sons: Vance Guthrie, Derek Guthrie and Brant Guthrie.

Instead of flowers, the family requests donations be made to the Ronald McDonald House, local animal rescue facilities or a charity.

Porn star Jesse Jane found dead aged 43 alongside her boyfriend

Jesse Jane, a porn star in the early 2000s, has been found dead alongside her boyfriend at a home in Oklahoma after police responded to a call for a welfare check

By Scarlett O'Toole, US Showbiz Reporter
15:08, 25 Jan 2024 | UPDATED 08:41, 26 JAN 2024

Jesse Jane has died at the age of 43 after a suspected overdose. The porn star, real name Cindy Howell, was found dead by police at a home in Moore, Oklahoma, alongside her boyfriend Brett Hasenmueller. It's been reported police were responding to a welfare check on the property when the bodies were discovered. The welfare check was requested by Brett's employer who hadn't heard from him in a few days, according to reports. It's currently unclear how long Jesse and Bret were in the house and an exact cause of death is yet to be released.

Police sources told TMZ the deaths seem to be the result of a drug overdose. An investigation is currently underway, with the Medical Examiner set to make the final determination on the cause of death. The Mirror has approached the City of Moore

The actress was reportedly found dead at a home in Moore, Okla., where cops responded to a residence on a welfare check only to discover Jane and her boyfriend, Brett Hasenmueller, dead.

Hasenmueller's employer had placed the welfare check after he went missing for several days, TMZ reported.

It's unclear how long the porn star and her boyfriend might have been dead, and the exact cause of death was not known.

Jane, whose real name is Cindy Howell, started with Digital Playground in 2002 before making appearances on Showtime's Family Business, at which time her porn career took flight.

She starred in well-known adult flicks such as the Pirates series, which included an \$8-million film that is considered one of the most expensive pornos.

Dec. 26, 2023 - Gloverton, NL, Canada - 42 year old Jason Keats died of stomach cancer on Dec. 22, 2023 and his 40 year old wife Robyn died unexpectedly on Dec. 26, 2023 from a cardiac arrest. They leave behind a 14 year old son.

CORNER BROOK, N.L. — “Memories remind us that nothing lasts forever and that ... time is precious and should not be wasted. Enjoy life and remember, don’t count the days, make the days count.”

That was the inspirational message Robyn Keats of Glovertown used as the cover photo of her Facebook profile last Feb. 19.

At the time, her family was dealing with the devastating news that her husband, Jason Keats, had been given a dire diagnosis of stomach cancer. He was told that, without treatment, he had just weeks to live, but even the medical care available to him might only give him months.

The message behind Robyn's cover photo were words Jason chose to live by, as he spent quality time with his family every day he was well enough to, especially their 14-year-old son, Simon.

While the family knew Jason's illness would cut short his time with them, losing him just before Christmas — on Dec. 22 — came somewhat unexpectedly.

Unfortunately, it was not the only tragedy the family experienced during the holidays.

While grieving her husband, Robyn fell ill, too. In the early morning hours of Boxing Day, she died from cardiac arrest.

Jason was 42 years old. Robyn was 40.

The couple met when they were small children — Robyn was eight and Jason was 10 — and they had been married for 18 years.

Hi, my name is Jenn Williamson. I am raising funds for my cousin, Christina Rene Betts. She sadly lost both of her parents in the last 3 months. Please also keep Devon, Christina's husband in your thoughts and prayers he was very close to Mark and Diane.

On August 18, 2023, her dad, Mark Gilbert, died. He was a fireman for Park Forest, an arson investigator, the Safety Manager for Ford Stamping Plant, and he taught at Prairie State College. He met my Aunt Diane while working with special needs children at Rich East High School. Mark and Diane were high school sweethearts and were together for almost 40 years.

A young couple who were found dead at their home in Devon died from different natural causes, an inquest has heard.

Aleasha Sullivan, 32, and Joshua Sandercock, 30 were both found dead on the same day at their home in Holcombe, Devon, on 21 October 2021.

On Thursday (20 April), an inquest at Plymouth Coroners Court heard that the police initially treated the couple's deaths as a potential crime scene.

That was until medical examinations on the bodies found that they had both died of natural causes that were completely independent of each other.

Home Office forensic pathologist Dr Deborah Cook found that Aleasha had died of pulmonary thromboembolism, which is a blood clot in the lungs.

A separate inquest was held for Joshua on Thursday, where it was revealed he had taken methadone, which he had not been prescribed, just hours before his death.

Though, like Aleasha, the dose was deemed not enough to be associated with fatalities.

Joshua's cause of death was confirmed to be as a result of pneumonia, with Dr Cook saying: "The methadone may have tipped the balance in a man suffering pneumonia to result in respiratory compromise that resulted in death."

In court, it was added that it is unclear whether Joshua died before Aleasha, but like his partner, no injuries were found on his body that could have been linked to his death.

Feb. 1, 2023 – Saint John, NB, Canada – Saint John Police Force said it was investigating the sudden deaths of a man and a woman who were found deceased inside a house on Red Head Road. On Wednesday, police said the autopsies have been completed, and they found no evidence that a crime has been committed.

There's no evidence to suggest the deaths of two people found in an east Saint John home were suspicious, police say.

On Monday, the Saint John Police Force said it was investigating the sudden deaths of a man and a woman who were found deceased inside a house on Red Head Road.

On Wednesday, police said the autopsies have been completed, and they found no evidence that a crime has been committed.

"There's nothing in terms of this investigation that would suggest there's a public safety concern," said police spokesperson Sean Rocca.

Rocca said the force won't release the identities of the two people or any information about how they died. This is to protect the privacy of the families, and because the coroner's office is still awaiting results of medical testing, he said.

My Take...

I have now done several substacks on couples or multiple family members getting injured or dying from COVID-19 Vaccines.

Sadly, these continue to occur more and more frequently.

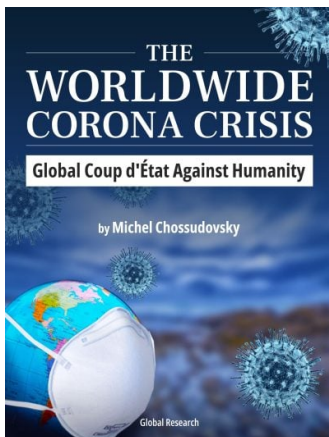

However, none of these are being investigated for COVID-19 Vaccine injury.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.
—**Peter Koenig**

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –**David Skripac**

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –**Edward Curtin**
