

More Evidence that They Know the COVID Vaccine Is Killing and Maiming People and Yet They Continue Their Death Program

By [Dr. Paul Craig Roberts](#)

Here is a doctor and chief RN in a US Department of Health & Human Services Hospital reporting that the official protocol is NOT to report adverse reactions to the vaccine, NOT to treat Covid patients with safe and effective Ivermectin, indeed, it is impermissible to do so and you are fired if you save lives with Ivermectin, and NOT to permit staff to refuse inoculation based on informed consent from seeing the deadly effects of the vaccine on patients.

In this video you can witness the doctor and nurses speaking about the evil of the Health & Human Services federal hospital intentionally killing people and preventing doctors and nurses from saving the lives of patients. This is not happening from incompetence and lack of knowledge. People are being systematically murdered, and Covid is being blamed. All adverse vaccine reactions are blamed on Covid, not on the vaccine, and this lie is used to justify not reporting the adverse event. You had better watch the brief video before it is taken down as “Covid disinformation.” It is a video of doctors and nurses on the front line discussing what they see and experience.

It has also emerged that the medical establishment arranged a “test” of HCQ’s effectiveness by waiting until patients were in the last stage of the disease before administering HCQ. They did this despite knowing that HCQ is effective in the early stages of Covid infection and arrests the progress of the infection. In the later stages of the disease, HCQ is not effective, or not nearly as effective.

Having rigged the test in this way over the dead bodies of betrayed patients, the medical establishment used the arranged failure of HCQ to prevent the use of Ivermectin, which is effective at all stages of the disease.

This is still the medical protocol in American hospitals despite the fact (1) that Ivermectin has cleared Covid from entire areas of India where it is used as a Covid preventative, (2) that the Tokyo Medical Association has recommended that Japanese doctors use Ivermectin for the prevention and cure of Covid, (3) that large areas of Africa where Ivermectin is regularly used as a preventative and treatment for River Blindness have few Covid cases, (4) and that the vast majority of Americans who are cured of Covid by treatment are not cured in hospitals but by doctors in private practice administering HCQ and Ivermectin.

The evidence is overwhelming that the US medical, political, and media establishments are perfectly comfortable knowingly enforcing unscientific and counterfactual death policies on the American people.
