Ok, there is a lot to go through with this story, which is going to end up being one of the biggest embarrassments for BuzzFeed, the CIA, and old man McCain ever.

First let's go over what happened, in reference to the pseudo intelligence report aka 'dossier' published by the high level retards over at BuzzFeed.

How it happened:

I know this appears to be unbelievable, but it's all verifiable.

The neocon skill of a reporter from BuzzFeed, Rick Wilson, was catfished by some autist from the "Hitler loving 4chan" message boards and made to believe Trump enjoyed getting urinated on and all sorts of outlandish stuff.

Truly, this is incredible. Let me post some screen shots.

They are. I was surprised the idiots here picked it up. It helped some fatass on RCP wrote an article and started tweeting about it (his own idea) - it's already too late for CTR to stop the disinformation at this point, it's organic.

You'll see on Friday when nothing happens and the shilling goes into overdrive.

Yes he was. If you recall, several months back a particularly autistic anon was posting guides for how to make twitter sockpuppets and pose as various personas (Hillbot, Black bernie supporter, etc) and make it believable. From what I can tell, that same had been running a phony hillbot account for months and convinced Rick Wilson he had inside info about a new trump tape. He preyed on Rick Wilson's wishful thinking.

I don't know any of this for sure but this is what he claimed happened and it looks that way from the twitter timeline.

So they took what I told Rick Wilson and added a Russian spy angle to it.

They still believe it. Guys, they're truly fucking desperate - there's no remaining Trump scandal that's credible.

Because I told them the source was the GOP coup. I never even hinted at where they had gotten from.

The Russian spy shit is 100% organic extra layered bullshit they themselves thought up.

I still can't believe how retarded these people are.

Here's the note I sent to @buzzfeednews staff this evening

to news, Purple, Headsup

As you have probably seen, this evening we [published](#) a secret dossier making explosive and unverified allegations about Donald Trump and Russia. I wanted to briefly explain to you how we made the decision to publish it.

We published the dossier, which Ken Bensinger obtained through his characteristically ferocious reporting, so that, as we wrote, "Americans can make up their own minds about allegations about the president-elect that have circulated at the highest levels of the US government."

Our presumption is to be transparent in our journalism and to share what we have with our readers. We have always erred on the side of publishing. In this case, the document was in wide circulation at the highest levels of American government and media. It seems to lie behind a set of vague allegations from the Senate Majority Leader to the director of the FBI and a report that intelligence agencies have delivered to the president and president-elect.

As we noted in our story, there is serious reason to doubt the allegations. We have been chasing specific claims in this document for weeks, and will continue to.

Publishing this document was not an easy or simple call, and people of good will may disagree with our choice. But publishing this dossier reflects how we see the job of reporters in 2017.

That right there is the head of BuzzFeed explaining why he published a dodgy report of utter nonsense that was, apparently, fished around to other news agencies and summarily rejected — because it's retard level was too high even for The NY Times.

Since the 4chan ruse was revealed, Rick Wilson has been made out to be a top moron with a propeller helmet, laughed at and derided as a person of very low standing. The heat is, apparently, getting to him.

An excerpt from the pseudo "intelligence report" "leaked" to BuzzFeed, who published it, ahead of Trump's press conference on Wednesday.

6. Finally, regarding TRUMP's claimed minimal investment profile in Russia, a separate source with direct knowledge said this had not been for want of trying. TRUMP's previous efforts had included exploring the real estate sector in St Petersburg as well as Moscow but in the end TRUMP had had to settle for the use of extensive sexual services there from local prostitutes rather than business success.

What sort of nonsense is in this top secret dossier? How about this?

46. Witnesses spotted Donald J. Trump holding a plate full of chicken tenders and pointing at his daughter Ivanka while screaming "If you don't respond to this post your mother will die in a horrible accident tonight."

And now to the curious case of John McCain, war shill, neocon lover of death of agony.

Source: Guardian:

Senator John McCain passed documents to the FBI director, James Comey, last month alleging secret contacts between the Trump campaign and Moscow and that Russian intelligence had personally compromising material on the president-elect himself.

The material, which has been seen by the Guardian, is a series of reports on Trump's relationship with Moscow. They were drawn up by a former western counter-intelligence official, now working as a private consultant. BuzzFeed on Tuesday published the documents, which it said were "unverified and potentially unverifiable".

The Guardian has not been able to confirm the veracity of the documents' contents, and the Trump team has consistently denied any hidden contacts with the Russian government.

The media ran with the 'explosive news' and will now get to enjoy its explosion — as they hold it near their tiny little hearts.

However, there were other aspects to TRUMP's engagement with the Russian authorities. One which had borne fruit for them was to exploit TRUMP's personal obsessions and sexual perversion in order to obtain suitable 'kompromat' (compromising material) on him. According to Source D, where s/he had been present, TRUMP's (perverted) conduct in Moscow included hiring the presidential suite of the Ritz Carlton Hotel, where he knew President and Mrs OBAMA (whom he hated) had stayed on one of their official trips to Russia, and defiling the bed where they had slept by employing a number of prostitutes to perform a 'golden showers' (urination) show in front of him. The hotel was known to be under FSB control with microphones and concealed cameras in all the main rooms to record anything they wanted to.
