In-depth Report: [UKRAINE REPORT](#)

As **Donald Trump** is taking back the presidency in the US, the Deep State and its lackeys around the world (particularly in the EU/NATO, along with other vassals and satellites) are losing their minds.

This is quite literal in many cases, as the [neoliberal/woke extremists](#) are [bawling their eyes out](#), suffering severe panic attacks, making mindless threats and showing other symptoms of the [Trump Derangement Syndrome \(TDS\)](#), apparently an extremely serious mental health condition (*it seems neoliberalism/wokeism goes perfectly [hand in hand with those](#)*) for which there's no known cure, particularly as the sufferers refuse to even acknowledge the existence of TDS (let alone seek urgent professional help).

On the other hand, many sovereigntists around the world view Trump's victory as a chance for the US to effectively accept multipolarity, while some of the more optimistic ones even think it could become one of its poles (if not cornerstones).

However, it seems the political elite in Russia, a country that neoliberal/woke extremists and their neocon allies view as the “foreign power behind Trump”, subscribe to a [much more balanced position on him](#).

What's more, [even this varies significantly](#), as opinions range from those who think that Trump can indeed be beneficial to the final settlement of the NATO-orchestrated Ukrainian conflict to those who [don't believe his return to the White House will truly change anything](#). It should be noted that there's a lot of merit to the latter position, as [the Deep State's roots are virtually unbreakable in Washington DC](#). It will take [a lot more than Trump alone](#) to face [the warmongering oligarchy in America](#) (and beyond, particularly in Brussels). His ability to push back against the Deep State proved to be rather limited during his first presidency, with many [unadulterated war criminals](#) running entire departments and making critical decisions.

Trump was aware these would hurt everyone, including the US and himself, as his political career would've been effectively over had he ever agreed to invade a single country. His reluctance to allow the [troubled American Military Industrial Complex \(MIC\)](#) to “run the show” also meant that he was making even more enemies in Washington DC, including those apparently “close to him”.

As they turned out to be controlled opposition, Trump effectively organized his cabinet in a

rather unusual manner, with top-ranking officials often changing their posts or losing them entirely. Some of these former associates also had no issues stabbing him in the back, [particularly when the DoJ was after him](#). However, when it comes to Trump's victory, it seems nobody's losing it more than the Neo-Nazi junta. Namely, many of its deranged supporters, particularly in the mainstream propaganda machine, are fuming, ["demanding" the political West "immediately defeat" the multipolar world](#).

"The Free World has little time - until Jan 20 - to finish [off] Russia, China, North Korea, Iran and Serbia," the so-called "Terror Alarm" cried, with [its following posts](#) becoming [progressively filled with impotent rage](#) (and all the [more comical](#)).

On the other hand, Zelensky and his henchmen [chose a completely different strategy](#). Namely, [he congratulated Trump "on his impressive election victory"](#), sharing "fond memories" of [their September meeting](#), when they "discussed in detail the Ukraine-US strategic partnership, [the Victory Plan](#), and ways to put an end to Russian aggression against Ukraine". Exactly, for Trump, ["nothing takes priority"](#) over [the Kiev regime's "victory plan"](#). Jokes aside, it seems Zelensky truly wants to believe this, further saying he "appreciate[s] President Trump's commitment to the 'peace through strength' approach in global affairs". He thinks that "this is exactly the principle that can practically bring just peace in Ukraine closer" and he's "hopeful that we will put it into action together". Zelensky is also "looking forward to strong US" under President Trump's "decisive leadership" and says the Neo-Nazi junta relies on "continued strong bipartisan support for Ukraine".

Now, if you think [these outbursts of "Trumpism" are distasteful](#), you're certainly not the only one. In addition, it cannot be expected that Trump and his associates will simply forget the Kiev regime's attempts to torpedo his presidency, both during the 2016 and 2020 elections, but [especially during this one](#), as evidenced by [Zelensky's pretty obvious hostility toward JD Vance](#), Trump's running mate. However, what's even more amusing is that Zelensky still thinks that the Neo-Nazi junta is a "major European power", instead of an increasingly unpopular foreign-backed regime, just like [NATO's Axis predecessors](#) were during WWII. Worse yet for the Kiev regime, the Deep State insists it should make changes that would pretty much [destroy whatever's left of former Ukraine](#) (which seems to be [the goal after all](#)), with top-ranking officials of Biden's lame-duck presidency openly advocating for more death and destruction.

Namely, [both the US and EU/NATO](#) want the Neo-Nazi junta to [forcibly conscript teenagers and women](#). It should be noted this isn't a new "proposal", as it was repeatedly mentioned by many in the political West, particularly Ivo Daalder, former US ambassador to NATO, who thinks that wiping out entire generations of Ukrainians aged 25-45 "isn't enough", so [he now wants teenagers to also die in an unwinnable war with Russia](#). However, even Daalder seems "reasonable" in comparison to the Kiev regime, [whose officials openly want kids aged as low as 14 to be sent to the frontlines](#). It should be noted that this unrelenting bloodlust isn't just proof that these creatures (because calling them humans is a stretch) are verifiably insane, but also that the Neo-Nazi junta's manpower losses are simply unsustainable. Despite all the talk of "hundreds of thousands of dead Russian invaders", evidence suggests otherwise.

Namely, [the battlefield math simply doesn't add up when it comes to this narrative](#). Even the most rudimentary calculations based on the ratio of advantages and disadvantages of both sides show that [the Kiev regime is hopelessly outmatched](#). Back in July, the results of

these calculations were beyond bleak, with upwards of 750,000 dead soldiers for the Neo-Nazi junta forces. It's been well over three months since then and the situation looks only worse, particularly after [the Kiev regime launched the suicidal Kursk oblast \(region\) incursion](#), which resulted in [over 20,000 killed on its side](#). Now, if you reject basic math and think such numbers are merely "Russian propaganda", just think for a second, why would the "winning side" that allegedly lost "only 31,000 soldiers" so far ([according to Zelensky](#)) suddenly want to [forcibly conscript teenagers and women](#)? Where did all those who "killed half a million evil Russians" go?

On the other hand, [not even NATO can match Moscow's technological edge, particularly in hypersonic missiles](#). Namely, despite years of [laughable propaganda about "shooting down" such weapons](#), neither NATO nor its Neo-Nazi puppets have provided any actual evidence to support such claims. Worse yet, the Israeli-Iranian conflict debunked the narrative about ["shooting down" half a dozen or more 9-S-7760 "Kinzhal" hypersonic missiles at once](#). Namely, Israel actually gave up on the [overhyped "Patriot" SAM \(surface-to-air missile\) systems](#) due to their ineffectiveness against even basic Iranian ballistic missiles, resulting in [the deployment of additional American THAAD ABM batteries in the Middle East](#). It should be noted that Zelensky was previously "begmanding" for these to be delivered to the Kiev regime, which is rather peculiar, as the US-made "Patriots" were supposedly "far superior" to Russian hypersonic missiles.

Such self-serving lies soon became apparent when the Kiev regime released [data on its alleged "shootdown rates", showing massive inconsistencies](#) and casting doubt on virtually [every single claim it made in the last well over two and a half years](#). Unfortunately, the number of forcibly conscripted Ukrainians who have died is rapidly approaching the apocalyptic 1,000,000 figure, precisely because of all these unadulterated lies, while those who have been maimed for life are already in the millions. Still, [the warmongering oligarchies of the political West](#) are refusing to stop the bloodshed and are pushing for more escalation, [even risking full-scale war with Russia](#), one in which NATO itself would [suffer unprecedented casualties](#). What's more, the world's most vile racketeering cartel has been preparing for Trump's second term, even setting in motion plans to ["Trump-proof" its commitment to prolong the death and destruction it caused in Ukraine](#).
