Reviews

"Dr. Roberts is one of few remaining voices of truth in the West. His essays expose the systematic lies of Western mainstream media, which now provide propaganda rather than news. He explains these false narratives are designed to create a public lost in a Matrix of misinformation, which conditions people to hate and fear; the hatred of internal 'enemies' prevents social cohesion that could effectively challenge governmental authority, while external enemies are demonized to make people accept endless war.

"Most importantly, Roberts warns of the imminent danger of a nuclear holocaust, which now places us 'one nanosecond' away from nuclear Armageddon. If you want to better understand why all the things we once held sacred — family, freedom, justice and peace — are now under relentless attack by the government, media, and academia, then read this book, it will open your eyes."

— **Professor Steven Starr**, former Director at the University of Missouri's Clinical Laboratory Sciences Program

*"Paul Craig Roberts is one of the best and most-informed political commentators today. I urge everybody to read his indispensable book *The Empire of Lies*."*
