*On 20 May 2024, New Zealand's Health and Disability Commission handed down its decision on **a case involving the death of a young New Zealander from myocarditis, inflicted by the Pfizer so-called vaccine, on 17 November 2021.***

The [HDC's media release](#) stated unequivocally that [Mr. Nairn's death](#) was found by the Coroner to have been directly caused by the Pfizer inoculation.

Commissioner Morag McDowell concluded that the man had not been informed of the potentially serious side effects of the "vaccine" (my quotation marks), and that "failing to provide this information was a prima facie breach of the Code of Health and Disability Services Consumers' Rights."

Despite this breach, the Commissioner also noted that

"none of the sources of official information [i.e., New Zealand's governmental authorities] explicitly **required vaccinators to disclose the risk of myocarditis as part of the informed consent process prior to vaccination.**"

The [full decision](#) is a curious and smug piece of legerdemain on the part of McDowell, that seeks at once to cover all bases, and by so covering, to dissipate any real culpability.

On the one hand, the Commissioner feels that practitioners are obliged to exercise their own critical judgment in providing appropriate warnings and advice to those who have engaged them, and on the other hand she merely slaps the wrist of the Ministry of Health for not

issuing firm and specific guidance about myocarditis in the midst of the public health crisis.

Missing from the decision, and glaringly so, is the fact that any truly adequate informed consent would have entailed communicating to recipients of the provisionally authorised Pfizer jab that safety **had not and could not have been established** given the absence of anything approaching long-term evaluation. And as to efficacy ... well, we all know by now that despite initial claims it has prevented neither infection nor transmission, thus relegating the gene-altering intervention to a species of treatment that should never have qualified it as a bona fide vaccine in the first place.

In an irony of majestic proportions those of us who dared to advise caution about the administration of this insufficiently tested agent had our medical licences suspended as a warning shot to any other uppity doctors who might have gotten it into their crazy heads that true informed consent was a pillar of their profession.

A young man, in the prime of a hopeful life, has died, quite unnecessarily, simply because a tyrannical government had an agenda to inoculate an entire population.

That same government perpetrated deceptions about the value of masks and 'social' distancing, and actively suppressed any motions in support of prevention and treatment of a pathogen they worked overtime to convince us was deadlier than the bubonic plague.

I had coffee today with a family in my environs who had held out against the persuasions to be inoculated — two elderly parents and a thriving youthful son not much older than Rory Nairn. They had all contracted covid or some flu-like illness, and they had all survived, old and young.

We sipped our drinks in solidarity to health and reason and our fundamental right to the sanctity of our bodies and souls. We rued the disingenuousness of a government that had created an apartheid state and pushed their invasive medical wares upon a naive populace.

I understand that Rory Nairn never wanted a piece of the Pfizer scam. It was the government's multi-dimensional criminality that was directly responsible for his death — in pressuring him to get the lethal agent, and in failing to inform him of its lethal potential.

No amount of mealy-mouthed bureaucratic jargon from the HDC can hide it.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
