A new [Reuters-Ipsos poll](#) shows that 10% of the global population believe the following statement:

The Mayan calendar, which some say 'ends' in 2012, marks the end of the world.

Of course, the Mayans [themselves didn't believe the world would end in 2012](#).

Indeed, archeologists have just found a cache of Mayan calendars which goes thousands of years *past* 2012:

I guess the flaky [new age writers](#) and [Mexican tourist agencies](#) will have to come up with another angle.
