An Israeli whistleblower was indicted by the Biden administration days after detailing extraordinary allegations against the Biden family.

Dr. Gal Luft, the "missing witness" from the Biden corruption investigation, told the [NY Post](#) last week that he was arrested in Cyprus to stop him from testifying in front of the House Oversight Committee that the Biden family received payments from individuals linked to Chinese military intelligence, and that they had an FBI mole who shared classified information with the Biden benefactors from the China-controlled energy company CEFC.

"I told the DOJ that Hunter was associated with a very senior retired FBI official who had a distinct physical characteristic—he had one eye," Luft said.

That FBI official is widely believed to be [former FBI Director Louis Freeh](#), who gave \$100,000 to a trust for two of then-Vice President Joe Biden's grandchildren in 2016 shortly before telling Hunter, "I would be delighted to do future work with you."

Now, Biden's DOJ has charged Luft with failing to register under the Foreign Agents Act (FARA), as well as Iranian sanctions violations. He's [alleged](#) to have conspired with others to act in China's interest, including recruiting and paying a former high ranking U.S. government official to support policies beneficial to China.

One of the charges against Gal Luft is for foreign agent violations. Same charge the Hunter Biden was investigated for but which federal prosecutors declined to bring.

Luft was also charged with conspiracy to illegally sell weapons to Chinese individuals and companies, as well as aerial bombs and rockets to the UAE, Chinese weapons to Kenya, and Iranian oil to other countries in violation of sanctions.

He was initially arrested Feb. 17 in Cyprus, but fled after being released on bail. He faces up to 100 years in prison if [convicted](#).

I've been arrested in Cyprus on a politically motivated extradition request by the US.

The US, claiming I'm an arms dealer. It would be funny if it weren't tragic.

I've never been an arms dealer.

DOJ is trying to bury me to protect Joe,Jim&Hunter Biden.

Shall I name names?

“As alleged, the defendant engaged in multiple schemes to evade sanctions and laws intended to protect our national security,” said FBI Acting Assistant Director in Charge, Christie m. Curtis.

As the [Epoch Times](#) notes:

Mr. Luft had been an advisor to CEFC China Energy, and told FBI prosecutors in Brussels in 2019 that CEFC had given Mr. Hunter Biden and his uncle James Biden monthly payments of \$100,000 and \$65,000 in exchange for using their names to promote Chinese business interests, [according](#) to the Post.

Sen. Ron Johnson (R-Wisc.) said on Fox News recently that Mr. Luft should have the opportunity to [testify](#) on this case before Congress.

“He’s an important witness,” Mr. Johnson said.

Is DOJ trying to silence Dr. Gal Luft from publicly exposing Biden family corruption?

The American people deserve the truth and Dr. Luft must have the chance to testify before Congress. pic.twitter.com/7bTv6R8inE

House Republicans have been probing the financial dealings of the Biden family amid allegations [cited](#) by House Oversight and Accountability Committee Chairman James Comer that Mr. Hunter Biden received at least \$15 million from foreign nationals.

The House Ways and Means Committee Chairman Jason Smith [says](#) Mr. Hunter Biden is alleged to have received more than \$17 million from sources in Ukraine, Romania, and

China.

Luft almost certainly has insight into what CEFC wanted from Biden. He traveled frequently with CEFC's Patrick Ho, who Hunter represented as part of his bribery case. CEFC's Ye Jianping (Hunter's paymaster) was a trustee at Luft's think tank.

Earlier this year, an Internal Revenue Service (IRS) [whistleblower](#) came forth with allegations of government abuse from the Justice Department and IRS, showing preferential treatment for the U.S. President's son.

Apparently *everyone* involved in the Biden family's foreign dealings was a criminal except the Bidens themselves. Funny how that works.

U.S. Attorney for the District of Delaware David Weiss and Attorney General Merrick Garland have [denied](#) these claims.

Mr. Hunter Biden is also [involved](#) in an ongoing lawsuit and countersuit involving the laptop he abandoned in a Delaware computer repair shop.

John Paul Mac Isaac, the repairman, sued Mr. Hunter Biden last year for \$1.5 million in damages, alleging defamation.

Mr. Mac Isaac says Mr. Hunter Biden's claims that the laptop had been stolen or hacked included a narrative that Mr. Mac Isaac was party to a Russian disinformation campaign.

And of course, look at who's helping the Biden regime:

MSNBC's Joe Scarborough laughs at Rep. James Comer for losing the FBI's informant in the Biden's family alleged "influence peddling."

When the government indicts a whistleblower, the assumption of guilt has to be on the government.

The truth might be different, but government corruption has to be your working assumption until and unless events show otherwise.
