It is a proven, indisputable scientific fact that the "vaccine" does not prevent infection and spread of the Covid virus or variants. It is also an indisputable fact that we are experiencing a pandemic of the vaccinated. Vaccination causes injurious side-effects and deaths that hospitals mislabel "Covid deaths," and the vaccine damages the human immune system, thus spreading the virus. The "vaccine" also cause variants that are used propagandistically to keep the fear hype going despite the fact that hardly any serious injuries or deaths are associated with the "Omicron variant."

So why are public authorities using extreme tyrannical methods to force people to infect themselves with a dangerous "vaccine" when, even if the "vaccine" did protect, the mortality of Covid is extremely low and does not justify the dangerous side effects of the "vaccine."

It is an established fact that there are very few "deaths from Covid." The deaths are "with Covid" among untreated infected people denied HCQ and Ivermectin who had serious comorbidities. In other words, the entire panic is orchestrated and nonsensical.

Here again are the infection fatality ratios and survival rates by age group.

Age	Median IFR (%)	Survival Rate estimate (%)
0-19	0.0027	99.9973
20-29	0.014	99.9860
30-39	0.031	99.9690
40-49	0.082	99.9180
50-59	0.27	99.7300
60-69	0.59	99.4100
70+	5.5	94.5000
