Dear Global Research Member and Newsletter Subscriber

We are at the crossroads of the most serious economic crisis in World history.

Last Saturday, November 15, World leaders convened in Washington under the auspices of the G-20 Financial Summit.

What policy “solutions” are contemplated by the G-20? According to Global Research writers, this historic meeting of heads of state, heads of government, finance ministers, central bank governors, etc. has created a policy vacuum. The broader causes, not to mention the devastating social consequences of the meltdown of financial markets have barely been addressed.

This issue of the CRG E-Newsletter contains a critical assessment of the Washington Financial Summit as well as a review of Obama’s Cabinet appointments.

What are the prospects under a Barack Obama administration?

It is our hope that our endeavors will contribute to curbing the tide of media disinformation, ultimately with a view to eradicating poverty, restoring social justice and establishing an enduring peace in the Middle East.

It is, therefore, important that the articles published by Global Research reach a broad readership.

While Global Research operates on a shoe string budget compared with the well-endowed establishment think tanks, we have more readers than the powerful [Council on Foreign Relations \(CFR\)](#) ([see graph](#))

The response from our readers has been tremendous and we thank you for your feedback and encouragement. However, with increasing numbers turning to Global Research as their choice for alternative news, *we ask that you make a donation of your choice* so that we may continue to deliver the information that matters to you.

Consider the following:

-Globalresearch.ca received over *1.5 million visits* last month (more than 50,000 visits a day);

-We have surpassed many mainstream media sites in total numbers of readers;

-Our daily newsletter now reaches over *12,500 subscribers*.

Please keep in mind that Global Research remains *fully independent* by not accepting money from public or private foundations.

If you unable to make a donation, you can help us by cross-posting and/or forwarding Global Research articles, sending them to your friends on your e-mail lists, posting them on internet blogs., etc. This will help us reach a broad readership.
