

GM Crops, Pesticides, Corporate Duplicity: Bayer Has Never Been Transparent in Its Life!

Open Letter to Bayer CropScience by Rosemary Mason

Theme: [Biotechnology and GMO](#)

*“This charming company operated a factory and camp at Auschwitz during the WW2. The UK and US governments are now allowing it to control global farming methods, GM crops, so-called ‘advanced technologies’ and pesticides.” – **Rosemary Mason***

Tireless campaigner and environmentalist **Dr Rosemary Mason** has just written an open letter to **Werner Baumann**, the chief executive of Bayer CropScience. It is in direct response to Bayer CropScience’s advertisement that was placed in Politico and the Farmers’ Guardian on 19/12/2018 which reads:

“Transparency creates trust. At Bayer, we embrace our responsibility to communicate how we assess our products’ safety — and we recognize that people around the world want more information around glyphosate. This month, we published more than 300 study summaries on the safety of glyphosate on our dedicated [transparency website](#). “

Transparency in Crop Science

[Why Transparency](#) / [Safety Results](#) / [Learn More](#) / [FAQ](#) / [News](#) / [Get Connected](#) / 

[Home](#)

Mason is scathing in her response and begins her letter by saying, “Bayer CropScience has never been transparent in its life.” She makes it clear to Baumann from the outset that she considers Bayer CropScience and Monsanto “criminal corporations.”

Her letter outlines a cocktail of corporate duplicity, cover-ups and criminality which the public and the environment are paying the price for, not least in terms of the effects of glyphosate.

She has sent her letter to various mainstream media outlets. I recently received it and have placed it here, so anyone can access it in its entirety. I urge everyone to read the letter and circulate it on social media.

Seeds of Destruction: Hidden Agenda of Genetic Manipulation

Author Name: F. William Engdahl

ISBN Number: 978-0-937147-2-2

Year: 2007

Pages: 341 pages with complete index

List Price: \$25.95

Special Price: \$18.00

This skilfully researched book focuses on how a small socio-political American elite seeks to establish control over the very basis of human survival: the provision of our daily bread. "Control the food and you control the people."

This is no ordinary book about the perils of GMO. Engdahl takes the reader inside the corridors of power, into the backrooms of the science labs, behind closed doors in the corporate boardrooms.

The author cogently reveals a diabolical world of profit-driven political intrigue, government corruption and coercion, where genetic manipulation and the patenting of life forms are used to gain worldwide control over food production. If the book often reads as a crime story, that should come as no surprise. For that is what it is.
