*Dear Editor in Chief,*

*Once a fierce and proud Democrat, I see that Democrats have become more corrupt than Republicans ever were.*

The sheer fact that the Biden administration and all of Biden’s followers are globalists — meaning, doing gradually away with sovereign rights in the US and in countries around the world towards a One World Order — shows that Democrats have abandoned their principles of social justice and sold their soul to the enemy (globalists are literally enemies of humanity).

And so did Senator **Kyrsten Sinema**. She held out against a fraudulent tax package – yes fraudulent, because the entire climate change narrative is a multi-multi-trillion dollar scam, has been brewing since the seventies, with the various “declarations” of the Club of Rome, and was finally set into an active forward drive at the first Climate Conference in Rio in 1992, the United Nations Conference on Environment and Development (UNCED), also known as the ‘Earth Summit’.

## **BREAKING NEWS**

# **Senator Kyrsten Sinema, a key holdout on Democrats' climate and tax package, said she would agree to move forward, clearing the way for votes.**

Thursday, August 4, 2022 9:55 PM ET

To win Ms. Sinema's support, Democratic leaders agreed to drop a \$14 billion tax increase on some wealthy hedge fund managers and private equity executives that she had opposed.

By today, the entire world is indoctrinated by a monster lie, except for a few scientists who have not abandoned their principles and resisted coercing - and a few World Bank insiders, who saw the fraud evolving from the very beginning.

Now another Democrat has fallen for money.

It's a shame.

Where are we going?
