*Followed by the visit of the U.S. House of Representatives Speaker **Nancy Pelosi** to Taiwan, the emerging situation is quite tense. Despite advance warnings, she made her visit and offended the 1.4 billion Chinese people. The anger and anxiety, of the Chinese public, are well understood. All peace-loving nations and individuals stand with China and condemned her action.*

Pakistan being the Iron Clad and closest friend of China, always stood with China at all odd times. At this moment, Pakistan reaffirms its strong commitment to the ‘One-China’ Policy and firmly supports China’s sovereignty and territorial integrity. Pakistan is deeply concerned over the evolving situation in the Taiwan Strait, which has serious implications for regional peace and stability. The world is already reeling through a critical security situation due to the Ukraine conflict, with destabilizing implications for international food and energy security. The world cannot afford another crisis that has negative consequences for global peace, security, and the economy. Pakistan strongly believes that inter-state relations should be based on mutual respect, non-interference in internal affairs, and peaceful resolution of issues by upholding principles of the UN charter, international law, and bilateral agreements. The people of Pakistan share the Chinese feelings and sentiments and support Chinese sovereignty.

On August 3, 2022, local time, on the sidelines of the series of foreign ministers’ meetings on East Asia cooperation and his visit to Cambodia, State Councilor and Foreign Minister **Wang Yi** gave an interview with reporters and elaborated on China’s solemn position on U.S. House of Representatives Speaker Nancy Pelosi’s visit to China’s Taiwan region.

Wang Yi stressed that this is an out-and-out farce. The U.S. is playing dirty tricks to encroach upon China’s sovereignty under the guise of “democracy”, and separatist forces for “Taiwan independence” like **Tsai Ing-wen** are hanging on to the U.S. coattails, turning their back on the just cause of the Chinese nation. However, these perverse actions cannot in any way change the prevailing international consensus on the One China principle, nor can they

change the irreversible historical trend of Taiwan's return to the motherland. Those who play with fire will not come to a good end. Those who offend China will surely be punished. It is hoped that the US will understand Chinese feelings and public sentiments and avoid any further confrontation. The Chinese people are genetically peace-loving and have demonstrated restraint and patience during the last four decades and have not fought any war. China believes in peaceful resolutions of all disputes and differences through diplomatic and political means and has exercised the same in the past. China is a net contributor to global stability and security throughout history. It has never invaded nor imposed war on any other country. However, if war is imposed on it, China has the right to respond appropriately. China has attained a certain level of development in all dimensions and reached a stage where it cannot be coerced so easily. World opinion supports China and believes Pelosi's action is unjustified.

The people of Pakistan understand the public sentiments in China and cannot ignore the voice of 1.4 billion Chinese friends. Both countries have a history of supporting each other in all critical moments. China always looked after Pakistan's vital national interests and raised its voice on all platforms for Pakistan, including the UN. China is currently President of the United Nations Security Council (UNSC).

It is believed that all peace-loving nations and individuals stand with China and support the Chinese stance. They will not allow spoiling the global peace and stability. The countries in the region should play a proactive role to defuse the tension and pave the way for peaceful and smooth development of the region and global economy.
