The Canadian Independent sat down with Sean Hartman's dad, Dan Hartman, for his first-ever in-person interview to hear his son's tragic story. Sean's story has garnered international attention and resulted in a lawsuit being filed against Pfizer and the Canadian government.

Sean was a normal, typical, perfectly healthy 17-year-old from a quaint little town in Beeton, Ontario. He was deeply passionate about playing hockey, spending countless hours on the ice honing his skills and dreaming of a bright future. With his whole life ahead of him, filled with hopes, dreams, and aspirations, Sean's sudden and tragic passing has left his dad with many unanswered questions.

[Click here to watch the video](#)

As the 2021 fall hockey season approached, Sean found himself facing a mandatory vaccination requirement from the Ontario Minor Hockey Association to participate in the sport. On August 25, 2021, Sean received his first and only dose of the Pfizer-BioNTech COVID-19 mRNA vaccine.

Four days later after Sean's first Pfizer shot his dad says he developed "brown circles around his eyes, a rash, vomiting, an extremely sore shoulder, opposite to his injection shoulder" and was taken to the emergency department. According to Dan the doctor at the emergency department did not do any blood work, a D-dimer or troponin test and says his son was just given a pain reliever for his shoulder and sent home.

Thirty-three days after Sean's first Pfizer shot, he was found dead on the floor beside his bed. An autopsy was performed, and the pathologist determined that Sean's cause of death was "unascertained," meaning an inability to determine a specific cause.

Dan eventually filed a claim with Canada's Vaccine Injury Support Program (VISP), introduced as Canada's first-ever vaccine injury program in 2021, but the claim was denied within a month due to insufficient evidence.

Following the VISP denial, Dan sought a second opinion from U.S. pathologist Dr. Ryan Cole, who determined that Sean's cause of death was from spike protein from the Covid-19 vaccine in his adrenal glands.

Dan has since filed an appeal with the Vaccine Injury Support Program providing them with the pathology report from Dr. Cole. The VISP has yet to respond to the appeal.

Dan then started a GiveSendGo fundraising campaign, hired a lawyer and filed two separate lawsuits one against Pfizer and another against the Attorney General of Canada, the Department of Health Canada and former Minister of Health Patty Hajdu suing them for millions of dollars in damages for malfeasance in public office, deceit fraud, negligence, and more.

Recently, the Canadian government made Dan an offer, which he describes as “a bullshit offer,” and he has declined it. The government’s offer to Dan was that if he withdrew his case against them immediately, they wouldn’t pursue any legal or court-related fees against him going forward.

Dan insists that he is fully committed and not backing down; he wants his day in court and is determined to pursue it relentlessly until that day arrives.

A top cardiologist, Dr. Peter McCullough from the United States, has been secured and has agreed to fly to Canada to testify in court on behalf of Dan. Dr. McCullough is an internist, cardiologist, and epidemiologist with degrees from Baylor University, University of Texas Southwestern Medical School, University of Michigan, and Southern Methodist University.

The Canadian Independent will continue to monitor this story and bring any new developments as they come.

If you want to support Dan with his upcoming legal battle you can do so by purchasing t-shirts and hoodies or by donating directly to his GiveSendGo fundraising campaign at the links below.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In his science-based chapters, Michel traces the false covid pandemic, the WHO’s 24/7 fear campaign, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.

—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin

ISBN: 978-0-9879389-3-0, Year: 2022, PDF Ebook, Pages: 164, 15 Chapters

Price: ~~\$11.50~~ FREE COPY! [Click here \(docsend\) and download.](#)
