GR editor's note:

PM Alexander Borodai has stated that the Donetsk authorities will hand over the black boxes to the international experts,

This would be a grave mistake because the black box contains the audio recordings between the pilot and air traffic control and well as other voice communications.

Western Intelligence officials will integrate the expert missions. Once the black box is in the hands of the international experts and the Ukrainian authorities including the OSCE, the data will be manipulated, with a view to distorting what happened and placing the blame on Donetsk and Moscow.
