According to news reports, police found the ID of Said Kouachi at the scene of the Charlie Hebdo shooting. Does this sound familiar? Remember, authorities claimed to have found the undamaged passport of one of the alleged 9/11 hijackers among the massive pulverized ruins of the twin towers. Once the authorities discover that the stupid Western peoples will believe any transparent lie, the authorities use the lie again and again.

The police claim to have discovered a dropped ID is an indication that the attack on Charlie Hebdo could have been an inside job and that people identified by NSA as hostile to the Western wars against Muslims are going to be framed for an inside job designed to pull France firmly back under Washington's thumb.
