Aug. 20, 2023 - Clackamas, OR - Clackamas County Sheriff's Office Detective Jeff Burlew died suddenly on August 20, 2023 after "battling a sudden illness."

Clackamas County Sheriff's Office 21 Aug at 04:37

We are deeply saddened to announce the passing of one of our own. Detective Jeff Burlew passed away early today after battling a sudden illness. Memorial service information will be shared when it is available.

Detective Burlew joined the Sheriff's Office in 1995 as a patrol deputy. Prior to his promotion to detective in 2006, he was a Field Training Officer and was a member of the Case Management Team. As a detective, he served as a member of the Child Abuse Team, Homicide and Violent Crimes Unit, and the Inter-agency Child Exploitation Prevention Team. Detective Burlew excelled as a detective and was assigned many complex and high-profile investigations. As one of the lead detectives for the 2012 Clackamas Town Center shooting, Detective Burlew was able to share his experience to train many other law enforcement agencies around the region to help them better prepare to respond to events such as these.

We will always remember Detective Burlew for his exceptional work ethic and unwavering commitment and reliability, however these professional achievements pale in comparison to the really good human he was. Detective Burlew will be sorely missed and leaves behind a void that will be difficult to fill for his family and ours.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —**Dr. Mike Yeadon***

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —**Dr. Emanuel Garcia***

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —**Peter Koenig***

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —**David Skripac***

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
