Introduction by Dr. Gary Kohls

The 28 minute video below tells the powerful story of Canadian distance-runner Shaun Muldoon, an innocent, previously healthy young victim of the not uncommon, but commonly mis-diagnosed, vaccine-induced autoimmune disorder called “VITT” (Vaccine-Induced Thrombotic Thrombocytopenia).

The VITT syndrome is known to be caused by AstraZeneca’s Covid-19 vaccine (which vaccine, in Muldoon’s case, was injected 2 weeks before his emergency small bowel resection that was followed by two additional major abdominal surgeries, which has left him to deal with the life-long serious consequences of a “short bowel syndrome”).

The Covid vaccine-caused autoimmune disorder resulted in the formation of antibodies to his own platelets (the phenomenon of “molecular mimicry”) that caused the platelets to clump and thus cause blood clots in the blood vessels leading to his bowel, lung, spleen, and who know what other organs).

The abnormal platelets (now being recognized as a foreign substance to Muldoon’s immune system) clumped excessively and clotted both small and large blood vessels anywhere in the body – including possibly the circulation to the brain (causing TIA’s [transient ischemic

attacks/stroke warnings] and completed strokes; impaired circulation to the heart (angina pectoris, heart attacks, and even cardiac arrest). (Makes one wonder about the real, overlooked cause of Buffalo Bills cornerback, Damar Hamlin's near-SADS [Sudden Adult Death Syndrome) cardiac arrest episode on Monday Night Football a couple of weeks ago.)

Note that AstraZeneca's vaccine is not an mRNA gene-altering inoculation (like the Pfizer or Moderna "vaccines") which is also well-known to cause the circulatory issues noted above.

Dr Gary G. Kohls is a retired rural family physician from Duluth, Minnesota. Since his retirement in 2008, Dr Kohls has written a weekly column, titled Duty to Warn, which has been re-published and archived at websites around the world. He is a Research Associate of the Centre for Research on Globalization (CRG).

Dr Kohls practiced holistic mental health care in Duluth for the last decade of his family practice career, primarily helping psychiatric patients who had become addicted to their cocktails of dangerous, addictive psychiatric drugs to safely go through the complex withdrawal process. His Duty to Warn columns often deal with various unappreciated health issues, including those caused by Big Pharma's over-drugging, Big Vaccine's over-vaccinating, Big Medicine's over-prescribing, over-screening, over-diagnosing and over-treating agendas and Big Food's malnourishing and sickness-promoting food industry. Those four powerful, profit-seeking entities combine to seriously affect the physical, mental, spiritual and economic health of the recipients of the prescription drugs, medical treatments, toxic vaccines and the consumers of the tasty, ubiquitous and disease-producing "FrankenFoods" - particularly when they are consumed in combinations, doses and potencies that have never been tested for safety or long-term effectiveness.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
