It shouldn't surprise. Since the deplorable Clinton co-presidency, America has been on a slippery slope toward full-blown tyranny - notably post-the-9/11 mother of all false flags.

It was followed by an array of police state laws, new ones recently enacted, flagrant constitutional violations, media scoundrels silent on an unprecedented abuse of power.

McCarthyism is back on steroids. Truth-telling is now considered fake news and/or pro-Russian. We're perilously close to criminalizing content or advocacy for anything opposing America's deplorable agenda, its imperial wars, its high crimes against humanity at home and abroad.

Perhaps I and others like me are considered Kremlin agents for supporting Putin's anti-war, anti-imperial, anti-uni-polarity agenda, a leader supporting rule of law principles and mutual cooperation among all nations.

It's polar opposite how America operates, a rogue state like no others earlier, threatening humanity's survival like never before, a terrifying reality too few people realize.

Now there's a plot afoot to deny Trump his electoral triumph - the Clintons, their supporters and other dark forces behind it. Is their goal to turn America into an illegitimate putschist state like Ukraine, installed by Obama?

According to Politico, Hillary's top political advisor, John Podesta, wants an intelligence briefing on phony charges of Russian election hacking given Electoral College members before they vote on December 19. In a Monday statement, he said:

"Electors have a solemn responsibility under the Constitution...(O)ur campaign decried the interference of Russia in our campaign and its evident goal of hurting our campaign to aid Donald Trump."

"Despite our protestations, this matter did not receive the attention it deserved by the media in the campaign. We now know that the CIA has determined Russia's interference in our elections was for the purpose of electing Donald Trump. This should distress every American."

Reliable independent sources debunked the fabricated allegation. Not a shred of evidence supports it. None exists. Even the Office of the Director of National Intelligence (ODNI) refuses to endorse it "because of a lack of conclusive evidence." So does the FBI for the same reason.

In November congressional testimony, DNI head James Clapper said US intelligence agencies lack evidence pointing to Russian US election hacking.

Can any thinking person believe Russia cost Hillary the election? It defies logic. It's an absurdity on its face, a disgraceful Big Lie and an affront to the sensibility of everyone.

Parties trying to reverse November's electoral result should face sedition or treason charges. Their attempt confirms America's deplorable state more than ever.

The nation was never a democracy from inception. Now it's a fascist police state, waging permanent war on humanity, exceeding anything before in world history - rule of law principles out-the-window entirely.
