I interviewed virologist Dr. Byram Bridle, Associate Professor, Department of Pathology, Guelph University, Ontario

He points out that there is no evidence of benefit. If anything, all the evidence shows the vaccines INCREASE risk of infection, hospitalization, death

According to Professor Bridle, at best, there are no benefits for the COVID vaccines.

But the data shows they make the problem worse in every metric: infections, hospitalizations, and deaths. You’ve been completely misled by the medical community about these vaccines.

There isn’t a single “expert” in the world who is willing to show Professor Bridle that he got it wrong.

Here’s [my latest interview with Professor Byram Bridle](#):

Ratings so far: 63 thumbs up; 0 thumbs down.

If you don’t have time to watch the whole thing, here’s the takeaway:

1. Byram is pissed. Pfizer’s own trial with over 40,000 participants showed NO EVIDENCE of a mortality or hospitalization benefit. If anything, it showed the reverse. (See Figure 1 below). The “benefits” were not statistically significant because the effect sizes were tiny.

2. The focus needs to be on the absolute risk reduction which is miniscule.
3. Each shot increases your risk of COVID infection (See Figure 2 below)
4. There has NEVER been a vaccine in medicine which made you more likely to be infected, yet reduced your risk of hospitalization/death. NEVER.
5. There is NO PLAUSIBLE MECHANISM OF ACTION which would enable these vaccines to reduce your risk of hospitalization and death. Why hasn't anyone explained this? Will you debate Professor Bridle? Why not?
6. In short, there are no benefits to these vaccines. You've been completely misled by the medical community about these vaccines and there isn't a single "expert" in the world who is willing to show Professor Bridle that he got it wrong.

Customized Table by Dr. Byram W. Bridle and **Ten Co-Authors:**

Differences in the Number of Efficacy and Safety Events in Eligible Populations Reported in the Six-Month Update of the BNT162b2 mRNA COVID-19 Vaccine					
Event	BNT162b2 (n)	Placebo (n)	Absolute Difference (p-value)	Absolute Risk Change (%)	Relative Risk Change (%)
Cases Adults and Adolescents 7 days after 2 nd dose	77	850	-773 (p<0.00001)	-3.7	-90.9
Any Unsolicited Treatment-Related Adverse Event Adults	5,241	1,311	+3,930 (p<0.00001)	+17.9	+299.7
Any Severe Event Adults/	390	289	+101 (p=0.0001)	+0.5	+34.9
Severe Cases in Adults 7 days after 2 nd dose	1	23	-22 (p<0.00001)	-0.1	-95.7
Unsolicited Severe Adverse Events Adults Prevents daily routine activity or requires intervention or worse	262	150	+112 (p<0.00001)	+0.5	+74.6
Serious Adverse Event Adults Requires hospitalization or results in permanent injury or death	127	116	+11 (p=0.5)	+0.05	+9.5
Deaths during placebo-controlled period [additional deaths during open-label period in vaccine recipients or placebo-only]	15 [+5]	14 [+0]	+1 [+5] (p=0.9)	+0.005	+7.1
Deaths due to cardiovascular events	9	5	+4		

Figure 1. This shows that Pfizer's own data shows that the vaccine increased your risk of severe adverse events, hospitalization, and death. This is the best case since the vaccine matched the variant.

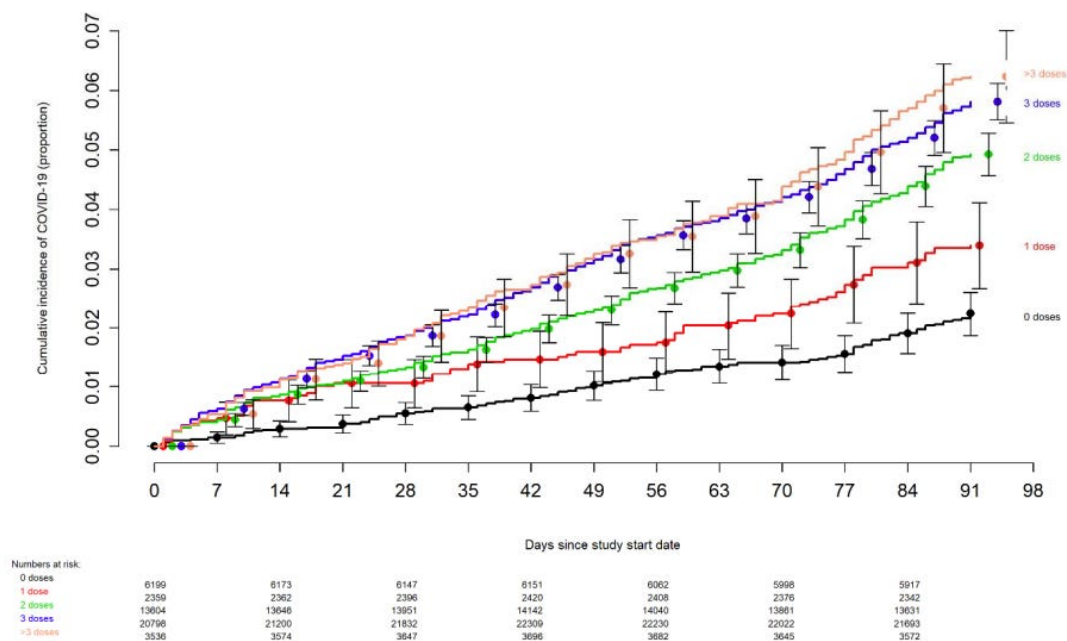

Figure 2. Simon-Makuch plot comparing the cumulative incidence of COVID-19 for subjects stratified by

Figure 2. The CDC wants you to ignore this excellent study by the Cleveland Clinic of over 51,000 participants (their employees) which clearly shows that the more shots you get, the greater the risk of infection. All participants were working age employees of the hospital. This is real-life data and the pro-vax community hopes you will never read the study.

UK doctors speak out

If you haven't yet seen this video of the UK doctors speaking out, check it out. It's consistent with the data Byram presented:

UK doctors who are not afraid to speak out. They will lose their license because they speak the truth — this is how “science” works nowadays. Speaking the truth is no longer acceptable to the medical community.

Meanwhile, the US Senate is focused on more urgent issues than saving lives: Taylor Swift ticketing problems

Most people think dying suddenly is a more important issue...

but the US Senate clearly believes that Taylor Swift tickets are much more important:

• Live Monterey Park shooting

• Live Half Moon Bay shooting

• Live Ticketmaster Senate hearing

• Live Russia's war in Ukraine

• LIVE UPDATES

Lawmakers grill ticketing industry after Taylor Swift concert fiasco

By Aditi Sangal and Brian Fung, CNN

Updated 12:21 p.m. ET, January 24, 2023

WATCH LIVE: Ticketmaster examined by Senate after Taylor Swift tickets debacle

I can't get a single US Senator (other than Ron Johnson) who is interested in exploring why so many people in the US are dying suddenly. It's really strange.

Summary

This interview with Professor Byram Bridle makes it crystal clear that the COVID vaccines make the pandemic worse; that's what the highest quality evidence shows.

There was no evidence in the gold standard trials that the vaccines decrease your risk of hospitalization or death. If anything, it's the reverse. Even with 44,000 people in the trial, the effect was too small to achieve statistical significance!

This evidence has been in plain sight for over a year. By my estimate, over 500,000 people have been killed by these vaccines in the US alone. No prominent expert anywhere in the world will debate me or any of my colleagues about this. Byram pleaded in this video for anyone to show he is wrong.

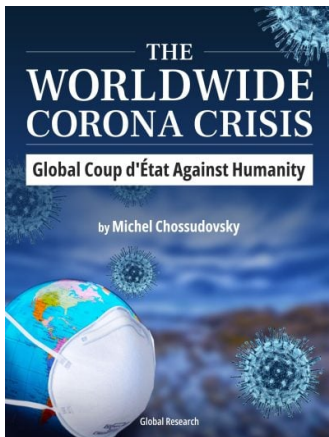

But the US Senate is focused on looking into more important issues, namely Taylor Swift concert ticketing issues.

I hope that someday, members of Congress (other than Senator Ron Johnson) will return my calls. Maybe in a couple of years, after we have the concert ticketing problems all sorted out.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
