

Protect Our Children Against the COVID Jab, Support the Constitutional Rights of Parents

Global Research, November 05, 2021

Big Pharma with the support of national governments is waging a Worldwide crusade to enforce the inoculation of our children, despite ample evidence that the Covid-19 experimental “vaccine” is resulting in a wave of injuries and deaths.

Global Research has taken the decision to initiate a donation campaign to contribute to the expenses of parents in legal actions against governments which are enforcing the vaccination of their children against their will.

To this end, we call upon our readers to contribute to this endeavor.

“Informed consent” and the constitutional rights of parents are being violated.

All donations collected this week will be channeled to protecting the Rights of our Children.
