The backdrops to the Putin/Trump meeting are the aspirations of Israel and the neoconservatives. It is these aspirations that drive US foreign policy.

What is Syria about? Why is Washington so focused on overthrowing the elected president of Syria? What explains the sudden 21st century appearance of “the Muslim threat”? How is Washington’s preoccupation with “the Muslim threat” consistent with Washington’s wars against Saddam Hussein, Gaddafi, and Assad, leaders who suppressed jihadism? What explains the sudden appearance of “the Russian threat” which has been hyped into dangerous Russophobia without any basis in fact?

The Muslim threat, the Russian threat, and the lies used to destroy Iraq, Libya, and parts of Syria are all orchestrations to serve Israeli and neoconservative aspirations.

The Israel Lobby in the United States, perhaps most strongly represented in Commentary, The Weekly Standard and The New York Times, used the September 11, 2001 attacks on the World Trade Center and Pentagon to urge US **President George W. Bush** to begin “a determined effort to remove **Saddam Hussein** from Power in Iraq.”

Saddam Hussein (Source:
britannica.com)

Saddam Hussein was a secular leader whose job was to sit on the animosities of the Sunni and Shia and maintain a non-violent political stability in Iraq. He, Assad, and Gaddafi suppressed the extremism that leads to jihadism. Saddam had nothing whatsoever to do with 9/11, and under his rule Iraq constituted a ZERO threat to the US. He had been a faithful vassal and attacked Iran for Washington, which had hopes of using Iraq to overthrow the Iranian government.

Removing secular leaders is what unleashes jihadism. Washington unleashed Muslim terrorism by regime change that murdered secular leaders and left countries in chaos.

Fomenting chaos in Iraq was the beginning for spreading chaos into Syria and then Iran. Syria and Iran support Hezbollah, the militia in southern Lebanon that has twice driven out the Israeli Army sent in to occupy southern Lebanon so that Israel could appropriate the water resources.

The neoconservatives' wars against the Middle East serve to remove the governments that provide military and financial support to Hezbollah. By spreading jihadism closer to the Russian Federation, these wars coincide perfectly with the US neoconservative policy of US World Hegemony. As expressed by **Paul Wolfowitz**, US Undersecretary of Defense for Policy:

“Our first objective is to prevent the re-emergence of a new rival, either on the territory of the former Soviet Union or elsewhere, that poses a threat on the order of that posed formerly by the Soviet Union. This is a dominant consideration underlying the new regional defense strategy and requires that we endeavor to prevent any hostile power from dominating a region whose resources would, under consolidated control, be sufficient to generate global power.”

Israel wants Syria and Iran to join Iraq and Libya in American-induced chaos so that Israel can steal the water in southern Lebanon. If Syria and Iran are in chaos like Iraq and Libya, Hezbollah will not have the military and financial support to withstand the Israeli military.

The neoconservatives have broader aims than Israel's. The neoconservatives want Syria and Iran in jihadist turmoil so that the neoconservatives can send jihadism into the Russian Federation and into China. China has a Muslim province that borders Kazakhstan. By causing internal problems for Russia and China, the neoconservatives can reduce Russia and China's abilities to hinder US unilateralism.

That is what Syria is about. It is not about anything else.

The “Muslim threat” appeared suddenly with the 9/11 attack on the WTC and Pentagon. The attack was instantly blamed on Muslims. Although the US government maintained that it had no idea that such an attack was in the works, the US government knew instantly who did it. Quite clearly, it is impossible to know instantly who did an attack about which the government had no idea. In what has become the hallmark of every “terrorist attack,” IDs left at the scene conveniently identified the “terrorists.”

There are now 3,000 architects and engineers who put their reputation on the line by challenging the official story of the collapse of the WTC buildings. According to all known science, the official explanation of the destruction of the 3 highrise WTC buildings is strictly impossible. There is endless evidence online provided not by ignorant presstitutes, conspiracy theorists, and lying politicians, but by real experts. Just go to the Architects & Engineers for 9/11 Truth website, to the Firefighters and First responders for 9/11 Truth website, to the Pilots for 9/11 Truth website. Research what some foreign government officials have to say about the absurd story told by the US government. That any percentage of the US population believes the obvious false official 9/11 story is proof of the total failure of education in America. Much of the population is incapable of thought. People simply accept whatever the government tells them regardless of the absurdity of the explanation.

Where did the alleged “Muslim threat” come from? What produced it? 9/11 happened before Washington destroyed in whole or part seven Muslim countries, killing, maiming, orphaning, and displacing millions of Muslims who are now overrunning Washington’s vassal states in Europe. Such wars on innocents could produce terrorists, but 9/11 was prior to Washington’s wars against Muslims.

Osama bin Laden and Al-Qaeda were Washington’s allies against the Soviets in Afghanistan. Bin Laden and Al-Qaeda most certainly did not have the inside information and inside connections to outwit all 17 US intelligence agencies, the National Security Council, all intelligence agencies of Washington’s NATO vassals and Mossad, and airport security four times in the same hour on the same morning.

Moreover, in the last video attributed to bin Laden by independent experts, bin Laden said he had no motive for any such attack and had nothing to do with it. Generally speaking, real terrorists claim responsibility whether they did it or not in order to build the movement by showing its capability. It makes no sense that “the mastermind” allegedly determined to overthrow the West would disavow the greatest humiliation ever inflicted on a major power. The United States was completely humiliated by its impotence against a handful of Muslims with nothing but box cutters. This humiliation is a world record that will stand forever. It is impossible that the alleged terrorist, bin Laden, would repudiate such an accomplishment.

This fact alone proves that Osama bin Laden and Al-Qaeda had nothing whatsoever to do with 9/11.

Anyone who believes the official 9/11 story, like anyone who believes Oswald killed JFK, like anyone who still believes that Saddam Hussein had weapons of mass destruction and Al-Qaeda connections, that Assad used chemical weapons, who believes the Gulf of Tonkin lie, who believes that Sirhan Sirhan killed RFK, that Russia invaded Ukraine, etc., is too far gone

to ever be rescued from The Matrix in which they live.

I do not know if the insouciance and gullibility of peoples in the West extends into Latin American, Africa, and Asia. Some of the people in Venezuela, Ecuador, and Bolivia, whose governments are slated for regime change by Washington, must be aware that they are not in control of their own fate. But how widely spread is awareness of Washington's lust for world hegemony? The only signs of awareness are the initial and limited agreements between Russia and China.

To this day, not a single European government has made the connection between Washington's wars, supported by Europe, and the millions of refugees from Washington's wars that are overrunning Europe, intent on collecting welfare from European peoples while raping European women. We hear all sorts of complaints about the refugees, but never is a connection made between the refugees and Washington's European supported wars.

Washington so successfully portrayed itself during the Cold War as peace, justice, and truth astriding the white horse that the world cannot see Satan sitting in the saddle.

Now that Washington's 16 years of inhumane war against Muslim populations have destroyed the lives of millions of peoples, why aren't there 9/11s every day? Instead are there only a few alleged terror attacks carried out by individuals, which appear to many to be orchestrated false flag events, such as individuals running over people with trucks in France and England, shooting up a French deli and magazine office. But nothing in the US, "the Great Satan." Very suspicious.

The orchestrated event of 9/11 was the neoconservative's "New Pearl Harbor" that provided the excuse for wars that advanced their purpose and Israel's. It was the neoconservatives themselves who said that they needed a "new Pearl Harbor" in order to begin their wars in the Middle East.

Why don't Americans and Europeans know this? The answer is because the US and Europe do not have independent medias. They have presstitutes.

Washington created "the Russian threat" when the Obama regime's frameup of Assad on his alleged use of chemical weapons failed. The UK **PM David Cameron** pledged Great Britain's cover for Washington's invasion of Syria, but the UK Parliament voted no. No more UK coverups for Washington's war crimes, said the Parliament. Russia stepped in and said, no need for more war. We have an agreement with Syria. We are going to collect all chemical weapons and turn them over to the US for destruction. The US is probably using these chemical weapons turned over by naive Russians for the false flag chemical attacks in Syria.

Stymied in their war aims against Syria, the neoconservatives turned with fury against Russia. How dare the insignificant Russians get in the way of the exceptional, indispensable people! We will teach Russians a lesson! Washington unleashed on the democratically elected government of Ukraine the US-financed NGOs in the amount of \$5 billion according to Assistant Secretary of State neoconservative **Victoria Nuland**.

Not realizing its vulnerability, Russia was focused on the Sochi Olympics and suddenly found that Ukraine had undergone a US coup and was committing violence against the Russian populations in Ukraine. Previously in history Soviet leaders had assigned Russia provinces to the Ukrainian Soviet Socialist Republic of the USSR. These Russians faced with violence by the neo-Nazi government installed in Kiev by Washington demanded to be reunited with Russia from whence they had come.

Russia agreed to take back Crimea because of the Russian Black Sea Naval Base, but refused the other Russian areas, Donetsk and Luhansk. Hoping against all rationality to convince Europe that Russia was non-aggressive, Russia refused the Russian breakaway republics and left them to the mercy of the Kiev neo-Nazis that continue to attack them in violation of the agreements.

The Russian government's tolerance for provocations and insults makes the Russian government look like a weakling to the American neoconservatives, who continue to demonize Russia and its president and to press for more sanctions and more bases on Russia's borders. Prior to his meeting with Putin, Trump, according to the BBC, called "on Russia to stop 'destabilising' Ukraine and other countries, and 'join the community of responsible nations.'" How is that for standing truth on its head?

The Russian desire for Western acceptance could end up compromising Russia's sovereignty. Washington is figuring out how much sovereignty Russia will give up in exchange for being granted acceptance by the West.

The Russians are also endangered by their belief that Muslim terrorism is a world threat. It is a delusion for the Russian government to think they can reach an agreement with Washington to fight terrorism jointly. The Russians simply cannot accept that terrorism is Washington's weapon directed against them.

The only reason Muslim terrorism exists is that Washington created it. Washington first used jihadism against the Soviet army in Afghanistan. Then against Gaddafi in Libya. Then when

Obama's plan to invade Syria on the trumped-up chemical weapons charge was blocked by the UK Parliament and Russia, Obama sent ISIS to overthrow Assad. **General Flynn**, who was the director of the US Defense Intelligence Agency stated this matter-of-factly on Al Jazeera. Flynn said it was a "willful decision" of the Obama administration to send ISIS to overthrow Assad. This is why Russia's hopes of a common front against ISIS never made any sense.

Jihadism is Washington's best weapon with which to destabilize Russia. Why would Washington help Russia to defeat this weapon?

There is so much fake news and disinformation spread in the Western media that it even affects the Russians, perhaps even the Chinese.

Even Western analysts who reject the official Syria story still buy into the lie that Assad is a dictator.

When Putin meets with Trump, Putin will have to assess whether Trump is a real president or just another front man for the powerful interest groups that run Washington's empire.

If Putin concludes that Trump is merely a front man, then Putin has no alternative but to prepare for war.
