Here are 25 cases of Creutzfeldt-Jakob Disease

Jan. 6, 2024 – New Glarus, WI – 63 year old Diane Wagner was diagnosed with Creutzfeldt-Jakob disease (CJD) on Jan.3, 2024, which “will soon take Diane’s life”. “Just a few weeks ago, she was healthy & living an everyday normal life.”

Jessica Aasve is organizing this fundraiser.

**Jessica Aasve**

New Glarus, WI

Created 6 hrs ago •  [Medical](#)

Hello, my name is Jessica and I am Diane Wagner's neice. It is with the heaviest heart that I share this news about Diane.

**On January 3rd, 2024, Diane was diagnosed with an incurable disease called CJD (Creutzfeldt-Jakob Disease).** CJD is a cruel and vicious degenerative brain disease that can neither be treated, nor slowed, and will soon take Diane's life. This disease is extremely rare, the odds of being diagnosed with CJD are one in a million.

Diane's family's wish is to be able to get her released from the hospital and into Hospice care for her to be able to live her remaining days in peace, surrounded by family and friends. She will require expensive, round-the-clock nursing care to keep her safe and comfortable in the short time she has left. The money raised through this Go Fund Me Campaign will be used to give her the ability to live her final days with peace, comfort and security.

**Diane is only 63 years old and just a few weeks ago, she was healthy and living an everyday normal life.** Diane is loved by so many. She is so thoughtful, funny, fun and thinks about others over herself. There are no words to describe the heartache that we are feeling right now.

[Jan. 4, 2024](#) – Fredericksburg, VA – Marcia Stinson has been diagnosed with Creutzfeldt-Jakob disease (CJD).

RAF Administration is organizing this fundraiser.

**RAF Administration**

Organizer  
Fredericksburg, VA

Created 2 d ago •  [Medical](#)

Marcia Stinson has been diagnosed with Creutzfeldt-Jakob disease. Anyone who knows her, knows that she is a wonderful and kind woman with a beautiful smile. Marcia has been with RAF as the Physician Concierge for 3 years. She is a dedicated worker, mother, and wife. This fundraiser is to help her family during a difficult time.

[Jan. 1, 2024](#) - Beach City, TX - 61 year old Aaron Aguillard was hospitalized on Nov. 11, 2023 with Creutzfeldt-Jakob disease (CJD) and died 7 weeks later on Jan. 1, 2024.

# Rare Brain Disease Devastates Family at Christmas

\$31,617 USD

217 donations

Maria Paulus is organizing this fundraiser on behalf of Laureen Aguillard.

Beach City, TX

My name is Maria and my brother, Aaron Aguillard—a life-long picture of health—was hospitalized this past November 11, 2023 (much of his time spent in the ICU) because of his sudden loss of memory and motor-skills. He STILL does not have a 100% known diagnosis. But from his lab results, MRI results, symptoms of non-responsiveness and arm-jerking, his doctors at The Texas Medical Center's Houston Methodist Hospital highly suspect Aaron has a rare and fatal degenerative brain disorder called Creutzfeldt-Jakob Disease, which is hard to diagnose prior to death. The Neurology Specialists at Houston Methodist have told us there is nothing more they can do for Aaron. He is now in hospice care and breathing only 5-10 breaths per minute.

Aaron's wife, Lauri, is struggling with the suddenness of her family situation and the mountain of difficulties weighing on her:

- Her youngest daughter recently completed six months of chemo treatment for Hodgkin's Lymphoma.

## *Aaron Keith Aguillard*

25 MAY, 1962 - 1 JANUARY, 2024

[Dec. 25, 2023](#) - Kailua, HI - Fernando Pizarro was diagnosed with CJD on Dec. 4, 2023 and died 21 days later.

## Pizarro 'Ohana

Dayna Even is organizing this fundraiser on behalf of Diane Pizarro.

Organizer  
Kailua, HI

Dear Friends and Family,

The Pizarro 'ohana received devastating news that **Fernando was diagnosed with sporadic Creutzfeldt-Jakob Disease (CJD), a very rare and quickly progressing brain disease.**

December 26th, 2023 by Dayna Even, Organizer

As many of you already know, Fernando passed away Christmas morning.

Dec. 6, 2023 - Edgewood, TX - 47 year old Texas Firefighter Jody McPherson died on Dec. 6,

2023. "He was recently diagnosed with Creutzfeldt-Jakob Disease, or CJD" Prion disease.

**EDGEWOOD** - It was a touching final farewell for a [Mesquite firefighter who died battling a rare disease](#).

Jody McPherson was laid to rest Sunday afternoon. His funeral service was held in Edgewood; 50 miles east of Dallas.

McPherson was actively involved in the school's athletics program in that community. He also served on the Edgewood Independent School District board before joining the Mesquite Fire Department in 2006.

A crowd of mourners gathered inside Edgewood High School's gymnasium to remember the firefighter for his servant's heart, his passion for his community and his dedication to his family.

McPherson was a driver/engineer at MFD Fire Station 3. The department recently noted McPherson helped walk some students to their school on their first day of class because they weren't sure how to get to campus.

McPherson was recently diagnosed with Creutzfeldt-Jakob disease. According to the Centers for Disease Control, CJD is caused by an abnormal protein in the brain.

He leaves behind a wife and three children. McPherson was 47-years-old. A [GoFundMe account](#) was set up to help his family.

[Nov. 25, 2023](#) - Lakeville, PA - 63 year old Eleanor Meilinger started having neurological symptoms on Aug. 5, 2023 and was diagnosed with CJD. She died 3.5 months later.

# Eleanor (Alaimo) Meilinger's fight with CJD

This year on August 5th (Eleanor's birthday) our mom began experiencing changes in speech, confusion, and hallucinations. After two long months of hospitalizations and extensive testing, our worst nightmare came true. She was diagnosed with an extremely rare, terminal brain disease called Creutzfeldt-Jakob Disease or CJD. It is rapidly degenerative and the life expectancy is usually no longer than a year after symptoms begins. Devastatingly, there is no cure or effective treatment. The best we can hope for is alleviating her pain and relieving as many symptoms as we can. The one thing that we do know about the disease is keeping her stress free, mentally stimulated, and comfortable is the best chance at slowing its progression.

## Eleanor Meilinger Obituary

Published by Legacy Remembers on Nov. 29, 2023.

Eleanor Meilinger (nee Alaimo) of Lakeville PA, formerly of the Bronx, NY, died on Saturday November 25, 2023 **after a short battle with a rare brain disease.** Eleanor was 63 years old. She is survived by her husband Michael Meilinger and her daughters Amanda Butler and Melanie Meilinger. Eleanor is also survived by

[Nov. 14, 2023](#) - Ebenezer, SA, Australia - 60 year old Tony Diotallevi died after a 3 month battle with CJD.

# In Memory of Tony Diotallevi 17.12.62 ~ 14.11.23

Santana Talbot is organizing this fundraiser on behalf of Samantha Lawler.

Ebenezer SA

This GoFundMe has been set up on behalf of Tony and Kiara Diotallevi. We have just lost Kiara's father, Tony, to a tragic, insidious disease- Creutzfeldt-Jakob disease. This disease took Tony's life in a short 3 months since symptoms first started. Tony leaves behind his beautiful, 23 year old daughter, Kiara, whom has special needs.

We are raising money to help fund the funeral that Tony deserves, and with what money is left- this will go towards carer assistance for Kiara, and to also donate towards CJD research, so hopefully one day there could be a cure, or at very least a treatment, for this devastating disease.

Tony is a well known and loved member of the Barossa Valley SA community - 25 years of

[Oct. 25, 2023](#) - Bonita, CA - 59 year old Rosie Mouritzen died from CJD.

**Alexandra Cervantes**  
Organizer  
Braemar Tartan Hills Parkway, VA

Hello my name is Alexandra Cervantes and my mom, **Dianith Benzaquen Sanchez De Cervantes**, recently got diagnosed with an extremely rare disease called **Creutzfeldt-Jakob disease (CJD)** in early October of 2023. CJD is a brain disorder that leads to dementia and eventually death. This disease is extremely aggressive and gave us less than a month left with her, it was extremely sudden. We did everything we could even if we were told there was no treatment or cure we still did everything we could to help her but unfortunately nothing worked. We are trying to gather some funds to pay for her memorial and the hospital bills,

[Sep. 23, 2023](#) - San Dimas, CA - 48 year old firefighter Ryan Palmer was diagnosed with CJD on Aug. 2 and died after 7 weeks on Sep. 23, 2023.

# Ryan Palmer Creutzfeldt-Jakob battle

Wendy Bernabe Palmer is organizing this fundraiser.

**Wendy Bernabe Palmer**

Organizer  
San Dimas, CA

Hi, my name is Wendy. My husband Ryan suffered a trauma to his head that revealed a severe neurological disorder. **On August 2nd we received the results of long-awaited neurological tests and it was revealed that Ryan suffers from Creutzfeldt-Jakob disease,** a fatal condition. Ryan is 48 years old and a dedicated Firefighter for US Forestry Service (private contract). While on duty, a falling tree struck him in the back of the head. This injury caused trauma which then revealed the CJD condition. Ryan needs 24-hour care for the rest of his life. He requires help with all simple day-to-day tasks and supervision at all times. Needless to say, his failing health requires expensive care the family was not prepared for. We are putting all our resources together to fund Ryan's day-to-day care, but we need your help and support. Any amount is helpful and greatly appreciated and will be put towards providing the necessary care for Ryan to carry on a comfortable and dignified life in our new reality. **UPDATE: RYAN JON PALMER died peacefully, surrounded by loved ones on 09/23/23.** Thank you all for the love, support and kind words that has helped us during this battle. Ryan rests in paradise now.

[Sep. 2, 2023](#) – Saint-Sauveur, QC, Canada – Maheux family – husband and father has been diagnosed with CJD.

Hello,

Our father is unfortunately suffering from a rare neurodegenerative disease and he only has a few months to live. We started seeing symptoms appear in April/May 2023. At first, we believed that was related to stress, because it was already experiencing a lot of tests, but the whole thing degenerated very quickly. In mid-July, other more glaring symptoms appeared. We then tried that it'll be seen quickly in order to pass an MRI, but the wait was 2-

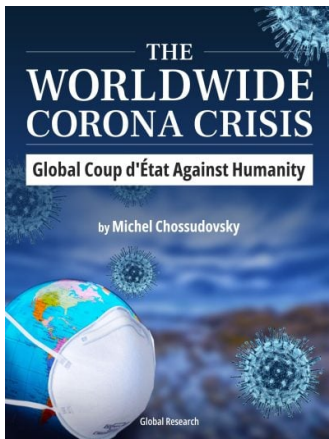

[July 25, 2023](#) - Woodstock, GA - 32 year old Cameron Pistacchio was diagnosed with CJD on July 9 and died 16 days later on July 25, 2023.

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global*

*coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
