A world-renowned data expert has just issued a red alert after uncovering evidence that reveals excess deaths are continuing to skyrocket in children who received Covid mRNA “vaccines.”

According to an alarming warning from leading Wall Street data analyst Ed Dowd, excess child deaths are still accelerating and show no sign of slowing down.

Dowd is a former executive at the world’s largest investment firm [BlackRock](#) and is considered one of America’s leading data experts.

Through his expert analysis of insurance industry data, Dowd has become a prominent figure in investigations into the impact of the global Covid vaccination campaign.

Dowd is currently a founding partner with Phinance Technologies a global macro alternative investment firm.

The team at Phinance, which includes a handful of high-level scientists, data analysts, and financial experts, has been investigating surges in deaths and injuries following the Covid “vaccine” rollout.

During a new [interview](#) on “The Jimmy Dore Show,” Dowd produced shocking data showing that excess child deaths are still surging higher, long after the Covid mRNA “vaccines” were first released almost four years ago.

Dowd made the discovery while analyzing the official data from the UK government’s Office for National Statistics (ONS).

“The UK has a problem,” Dowd warns.

However, while the deaths were identified in UK data, the trend is most likely reflected in other nations with a similar mass vaccination protocol, including the United States, Canada, Australia, and much of Europe.

Dowd’s data shows that excess deaths for children aged one to fourteen have surged higher each year since the Covid mRNA “vaccines” were rolled out in 2021.

According to Dowd, excess deaths for children in this age group spiked by a staggering 22% in 2023 – the last full year of data.

Dowd notes that this trend didn't start until "the magic juice started to be issued to children later in 2021."

The data shows that deaths were actually lower than expected in 2020 but started surging in 2021.

According to Dowd's findings, each year's data shows:

- 2020: 9 percent fewer deaths than expected
- 2021: 7 percent fewer deaths than expected
- 2022: 16 percent MORE deaths than expected
- 2023: 22 percent MORE deaths than expected

As Dowd notes, while the "vaccines" were rolled out for public use in early 2021, they were authorized for children later in the year.

Although the data for 2024 isn't yet complete, Dowd reveals that, so far, the official figures show that the surging death trend has continued through this year.

"Figures from the Office for National Statistics show about 10% more deaths (across all age groups) than expected since April this year," Dowd adds.

Yet, despite the clear correlation with the mass vaccination campaign, UK health officials insist that "circulatory diseases and diabetes are ... behind the increase."

The revelation comes as Dowd and his team continue to uncover alarming data exposing the impact of the Covid mRNA "vaccines" on public health.

As Slay News previously [reported](#), Dowd recently exposed the shocking number of sudden and unexpected deaths caused by the Covid mRNA "vaccines" around the world.

Dowd revealed that up to 15 million people have now been killed by the injections globally.

During an interview with Bret Weinstein, former professor of evolutionary biology, Dowd dropped bombshell figures for the number of vaccinated people who have died suddenly and unexpectedly.

"So five billion people on the planet got a vaccine of some sort," Dowd told Weinstein.

"If you apply the range of the death rate in the US that I gave you earlier, you get a range of globally 7.3 million to 15 million died from the vaccine."

Dowd's upper-range numbers align with figures produced by leading expert Denis Rancourt, a former professor of physics at the University of Ottawa.

Rancourt estimates that 17 million people have been killed by the Covid shots.

However, despite the alarming nature of the death toll figures, Dowd revealed that the situation is far direr.

Dowd continued by detailing the number of people left injured and disabled from the injections.

“Disabilities, when you look at the ratio of four to one, you multiply the 7 million and the 15, approximately 15 million times four, you get a range of 29 to 60 million disabled globally.

“And then injuries, if you take 18% of the vaccinated, just using the Pfizer [trial data], so that again, this could be money, but we get a range of at the high end, 900 million, 500 million at the low end injured.

“500 million to 900 million who had an injury that has not disabled.”

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this

comes out in the way Covid is contextualized. —**Dr. Mike Yeadon**

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -**Dr. Emanuel Garcia**

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —**Peter Koenig**

Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -**David Skripac**

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -**Edward Curtin**
