Doctors in Ontario are reportedly being advised to consider using psychiatric medicines on patients who refuse the vaccine.

During an interview at ‘Let Freedom Reign Tour,’ Physician and Cancer Researcher Dr. William Makis claimed that the College of Physicians and Surgeons of Ontario sent out a note to doctors implying that their unvaccinated patients may be suffering from a mental illness and should be prescribed psychiatric medicine.

“So this has come out recently out of the College of Physicians and Surgeons of Ontario. The college sent out a letter or a memo to all the doctors in Ontario suggesting to them now, so far, they’re not mandating it, they’re just suggesting it, that any of their unvaccinated patients, that they should consider that they have a mental problem and that they should be put on psychiatric medication. So far, it’s just a suggestion,” Dr. Makis told Lynn Tyler Thompson.

“But the College of Physicians and Surgeons of Ontario should not be making these kinds of suggestions. This is extremely unethical and this is a very, very slippery slope. If they’re suggesting that people who wish to have bodily autonomy and don’t want an experimental vaccine, that there may be something mentally wrong with them, that is a very, very dangerous, slippery slope that we’re on,” he continued.

Bombshell Video: Dr. William Makis states that the College of Physicians and Surgeons of Ontario is suggesting to Ontario doctors that "unvaccinated" people are mentally ill and in need of psychiatric medication.

Makis: "That is a very dangerous slippery slope that we're on."

You can watch the full interview [here](#).

The Gateway Pundit reached out to the College of Physicians and Surgeons of Ontario for comment.

This explosive expose comes after Dr. Makis spoke about the death of 93 doctors after the vaccine rollout.

It can be recalled, Dr. William Makis MD [wrote a letter](#) to the Canadian Medical Association (CMA), requesting that they look into the sudden rise in mortality among Canadian medical professionals after the implementation of mandated vaccinations for medical personnel.

On his Gettr account, Makis claimed that fact-checkers were caught lying about a Canadian doctor's sudden death.

The Gateway Pundit [previously reported](#) that three physicians at Canada's Trillium Health Partners-Mississauga Hospital died unexpectedly in the same week.

According to the nurse who shared the information, the three doctors died after the hospital started mandating the fourth Covid shot for their employees.

"Three physicians at the Mississauga hospitals have died this week," the nurse told Monique. "1st memo Monday, 2nd Tuesday, 3rd Thursday. [The] cause of death wasn't shared in the memo, but how many times have 3 doctors died in 1 week, days after the hospital started administering the 4th shot to staff."

The three physicians who died the same week were Dr. Lorne Segall (July 17), Dr. Stephen McKenzie (July 18), and Dr. Jakub Sawicki (July 21).

The hospital claimed that the social media rumor that their deaths were related to the COVID-19 vaccination is "simply not true."

The rumour circulating on social media is simply not true. Their passings were not related to the COVID-19 vaccine.

We ask to please respect their families' privacy during this difficult time.

— Trillium Health Partners (@THP_hospital) [July 27, 2022](#)

Dr. Makis claimed Dr. Lorne Segall died suddenly of a pulmonary embolism, blood clots in the lungs, not cancer, and that he was fully vaccinated when he died, according to his sources.

Dr. William Makis MD @MakisMD · Nov 14

🌟 NEWS: Fact Checkers and Toronto Star caught LYING about Canadian doctor's sudden death 🌟

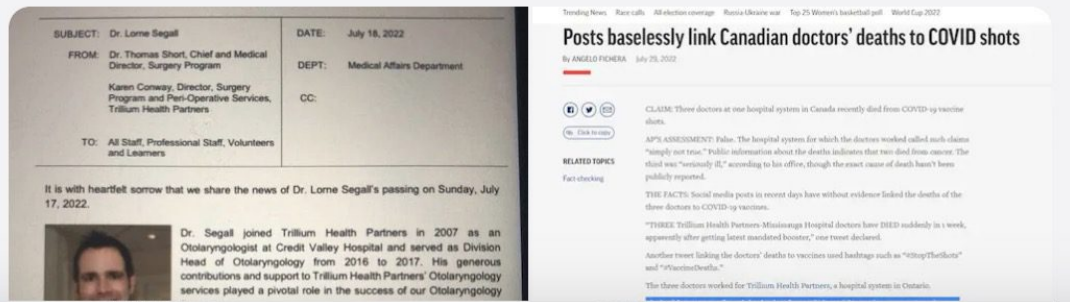

Associated Press, Reuters and Toronto Star falsely claimed that Dr. Lorne Segall, age 49, an ENT Surgeon at Trillium Health in Mississauga Ontario, died from lung cancer on July 17, 2022 and not complications from his COVID-19 vaccine.

They've finally been caught lying.

My sources have now confirmed that he died suddenly of a pulmonary embolism, blood clots in the lungs, not cancer, and that he was fully vaccinated when he died.

Sooner or later, the truth ALWAYS comes out.

Shame on Toronto Star, Timothy Caulfield and Michelle Cohen who publicly spread lies about Dr. Lorne Segall's death in order to promote Pfizer & Moderna's faulty products.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
