*Ed Curtin.... is a revolutionary genius, a profound thinker - who sees truth where others close their eyes. "Seeking Truth in a Country of Lies" is a visionary analysis of the falsehoods we experience on a daily basis way beyond the borders of the United States.*

*"In a dark time, the eye begins to see" - is the philosophical underpinning of this marvelous book. Ed dissects with a sharp daring scalpel of courage the coats of hypocrisy and lies until he unmaskes the tumor of deception that pervades every layer of our society. Through a universal propaganda machine, fraud permeates our lives and brains. We have become gullible, confused and start believing wrong is right and war is peace.*

Ed, like Albert Camus, is fighting a constant plague, a never-ending *Sisyphusian* rebellion towards a horizon of freedom. Ed skillfully weaves through the shams, until we begin seeing the light. As so lucidly expressed by Leonard Cohen, *"There is a crack in everything, that's how the light gets in"*.

Ed leaves us with a light of hope, eviscerating the scare of darkness, and is opening our eyes.

A Masterpiece.
