The Storming of the Bastille occurred in Paris on the afternoon of July 14, 1789. The Bastille was a medieval armory, fortress, and political prison. It was the symbol of Royal Authority under the reign of King Louis XVI.

The French monarchy was obliged to accept the authority of the newly proclaimed National Assembly as well as endorse the fundamental rights contained in the “Declaration des Droits de l’Homme et du Citoyen” (Declaration of the Rights of Man and of the Citizen), formulated in early August 1789.[1]

More than 230 years later, these fundamental rights (Liberté, Égalité, Fraternité) are now being contravened by corrupt governments around the world on behalf of a totalitarian and illusive financial establishment.

Storming of the Bastille (By [Bibliothèque nationale de France](#), licensed under the [Public Domain](#))

Bastille 2022

Bastille 2022 pertains not only to the restoration of these fundamental rights. It seeks to reverse and disable the criminal COVID-19 agenda which in the course of more than two and a half years has triggered economic, social and political chaos worldwide in 193 member states of the United Nations, coupled with bankruptcies, unemployment, mass poverty and despair. Famines have been reported in more than 25 countries.

Starting in November 2020, an experimental mRNA vaccine launched by our governments (allegedly with a view to combating the spread of the virus) has resulted in an ascending worldwide trend of vaccine-related deaths and injuries. It's a killer vaccine. It's a crime against humanity. Bastille 2022 is not a "protest" movement, narrowly defined.

We do not seek to negotiate with corrupt government officials. We question their legitimacy. They are liars.

Our intent is to confront the powerful actors behind this criminal endeavor which is literally destroying people's lives worldwide, while creating divisions within society. The impacts on mental health on population groups worldwide are devastating.

The numerous lockdowns documented in previous chapters (stay at home of the workforce), fear campaigns, COVID-19 policy mandates imposed on approximately 193 member states of the United Nations have also contributed to undermining and destabilizing:

- the very fabric of civil society and its institutions including education, culture and the arts, social gatherings, sports, entertainment, etc.
- all public sector activities including physical and social infrastructure, social

services, law enforcement, etc.

- all major private sector activities which characterize national, regional and local economies including small, medium and large corporate enterprises, family farms, industry, wholesale and retail trade, the urban services economy, transport companies, airlines, hotel chains, etc.
- the structures of the global economy including international commodity trade, investment, import and export relations between countries, etc. The entire landscape of the global economy has been shattered.

In turn, a process of enrichment by the elite billionaires together with widening social inequalities is unfolding (see Chapter V).

The massive debts incurred by the nation-states resulting from corruption as well fiscal collapse have skyrocketed. Increasingly national governments are in a straitjacket, under the brunt of powerful creditor institutions. Mounting debts at all levels of society are the driving force (see Chapter IV).

The Creation of a Mass Movement

What is at stake is the creation of a mass movement (nationally and worldwide) which questions the legitimacy and authority of the architects of this insidious project which broadly speaking emanates from Big Money, Big Pharma, the Information Technology Conglomerates, the Security Apparatus, Intelligence, the Military Industrial Complex, Big Energy, and the Corporate Media.

Ironically, the architects of the COVID-19 “pandemic” are now actively involved in formulating the “solution”. The World Economic Forum’s Great Reset consists in installing a worldwide totalitarian regime. What is contemplated is a system of “Global Governance” predicated on depopulation (see Chapters XII and XIII).

Approximately 193 UN member states are slated to be weakened and undermined. They are under the grip of the most serious debt crisis in world history. Under the Great Reset, the institutions of parliamentary democracy and the welfare state are to be replaced by an unelected “publicprivate partnership” dominated by the upper echelons of the financial establishment.

Restoring Real Democracy

We will seek all avenues through peaceful means to disable and undermine this totalitarian project including dialogue with and within public and private institutions (students, teachers, law enforcement officials, members of the military and the judiciary, etc.)

What is required is to break down the structures of corruption, hierarchy and abusive authority, namely to pursue what might be described as:

“the democratization of decision-making within our institutions”.

The Art of Deception

We must nonetheless understand the limitations of conducting effective judicial procedures against national governments. The judges are often pressured, threatened and corrupt,

aligned with both dominant financial interests and politicians.

Moreover, inasmuch as this insidious project is enforced by national governments worldwide, the International Criminal Court (ICC) which is officially “independent” in regards to the UN Security Council, has a longstanding record of side-stepping US-NATO war crimes. The ICC is controlled by the same financial elites which control the governments.

We must also understand the complexities of this carefully designed and coordinated totalitarian project, namely the role of various fraudulent financial institutions, corporate advisory and lobby groups, consultants, “scientific advisors”, etc. acting as intermediaries on behalf of Big Pharma and the financial elites.

There is a hierarchy in the structures of authority. This complex and intricate decision-making process is used to co-opt, bribe and manipulate government officials. Almost identical policy mandates (emanating from higher authority) are implemented simultaneously in numerous countries, requiring active coordination. The same powerful lobby firms are acting at one and the same time in different countries (e.g. in North America and the European Union).

Large scale street protests will not prevail unless they are focused on effectively disabling this corrupt decision-making process.

What Are Our Priorities? Counter-Propaganda

More than 7 billion people worldwide are directly or indirectly affected by the corona crisis. Several billion people have already been vaccinated by an “unapproved” experimental mRNA “vaccine”, which has resulted in a worldwide wave of mortality and morbidity.

While this tendency is confirmed by official figures pertaining to vaccine-related deaths and adverse events, the mainstream media and the governments are in a state of denial.

The devastating health impacts of the COVID-19 vaccine are rarely acknowledged. It’s the same catchphrase (which is an outright lie) repeated ad nauseam: “the virus is far more dangerous than the vaccine”:

“We actually have more safety data on the vaccine than the virus, and already see that the virus is far more dangerous than the vaccine. (Intercare)[2]

Dr. Alan Schroeder thinks it’s very natural for parents to worry, but said for teens, the virus is more dangerous than the vaccine. (NBC)[3]

Doctors are on the lookout for it in children, but the bottom line remains that the virus is far more dangerous than the vaccine.

“The mutations in the omicron variant make it [the virus] more prolific, dangerous, and elusive”.

etc.

This propaganda consensus must be broken. With regard to the vaccine, informing people across the land regarding the data on deaths and adverse events is the first step.

The COVID crisis initiated in January 2020 is unprecedented in world history. Propaganda under Nuremberg is a crime (see Chapter XI).

Dismantling the propaganda apparatus is crucial. Counter-propaganda plays a key role in revealing the lies used to justify the policy mandates. Without persistent media disinformation, the official COVID narrative falls flat.

First and foremost, we must forcefully challenge the mainstream media, without specifically targeting mainstream journalists who have been instructed to abide by the official narrative. We should in this regard favor dialogue with individual (independent) journalists.

We must ensure that people worldwide achieve an understanding of the history and devastating impacts of the COVID crisis supported by scientific concepts, analysis, testimonies and data. This endeavor will require a parallel process at the grassroots level, of sensitizing fellow citizens and establishing dialogue on the nature of the alleged pandemic, the mRNA vaccine, the RT-PCR test, as well as the devastating economic and social impacts of the lockdowns.

While we must put an end to the fear campaign, we must nonetheless inform our fellow citizens regarding the dangers of the mRNA vaccine as well as the engineered chaos of this totalitarian agenda of “Global Governance” on the very structures of civil society.

The “fear campaign” is to be replaced by “information, concepts, analysis and data” as well as “strategies” to confront Big Pharma, corrupt officials in high office as well as their Big Money sponsors.

We must also ensure the conduct of dialogue and debate at the grassroots of society.

Putting an End to the “Killer Vaccine”

Our first task is to immediately halt and cancel the so-called COVID-19 “vaccine” which has triggered a wave of mortality and morbidity worldwide.

According to Dr. Thomas Binder:

“The gene injections are unsafe. They can cause anaphylactic reactions, thromboembolism, thrombocytopenia, disseminated intravascular coagulation, and myocarditis in the short term.[4]

There is possible immunosuppression and antibody-dependent enhancement, ADE, in the medium-term.

And in the long term there are possible autoimmune diseases, cancer and infertility, risks that have not been ruled out yet.”

According to Doctors for COVID Ethics, in the EU, UK and US, the data respectively

tabulated by EudraVigilance, MHRA (UK) and VAERS (US):

“have now recorded many more deaths and injuries from the COVID-19 “vaccine” roll-out than from all previous vaccines combined since records began.”

With regard to the mRNA “vaccine”, the catastrophic number of injection related deaths has NOT been reported by the mainstream media, despite the official figures being publicly available.

“The signal of harm is now indisputably overwhelming, and, in line with universally accepted ethical standards for clinical trials, we demand that the COVID-19 “vaccination” programme be halted immediately worldwide.

Continuation of the programme, in the full knowledge of ongoing serious harm and death to both adults and children, constitutes Crimes Against Humanity/Genocide, for which those found to be responsible or complicit will ultimately be held personally liable.”[5]

As outlined in Chapter VIII, Pfizer has a criminal record (2009) with the US Department of Justice on charges of “fraudulent marketing”. [6]

As part of the 2009 DoJ settlement, Pfizer was put on parole:

“Pfizer also has agreed to enter into an expansive corporate integrity agreement ... [which] provides for procedures and reviews to be put in place to avoid and promptly detect conduct similar to that which gave rise to this matter.”[7]

But we are no longer dealing with “fraudulent marketing”:

“Killing is good for business”: The vaccine is a multi-billion dollar operation worldwide. It’s manslaughter.

Once the “vaccine” has been halted, the criminality of Big Pharma will be fully revealed and understood. In turn, the legitimacy of the official COVID narrative based on lies and fake science will inevitably be impaired. This is the first step towards breaking the “official” COVID narrative.

The truth is an important peaceful weapon. Without propaganda and media disinformation, the architects of this project do not have a leg to stand on.

Let us break the “official” COVID-19 consensus and the propaganda apparatus which provides “legitimacy” to a criminal agenda.

Once it collapses, it will open up the road towards reversing the broader process of economic, social and political chaos generated in the course of the last two and a half years.

The Geopolitical Dimension

What is unfolding is a new and destructive phase of US imperialism. It’s a totalitarian project of economic and social engineering.

The Biden administration has endorsed the COVID agenda, which has been used to destabilize and weaken national economies (ironically, including the United States as well as

its allies and its “enemies”).

We cannot divorce our understanding of the COVID crisis from that of US foreign policy and America’s hegemonic agenda, e.g. the war in Ukraine, US-Russia relations, the enlargement and extension of NATO, the militarization of the South China Sea directed against China, Iran and the geopolitics of the Middle East, the ongoing sanctions regimes against Venezuela and Cuba, etc.

Integrating All Sectors of Society

It should be noted that organized opposition in many Western countries is weak. Why? Because “progressive forces” including left intellectuals, NGO leaders, trade union and labor leaders both in Western Europe and North America have from the outset endorsed the official COVID narrative. Many of these progressive movements are supported by corporate foundations.

The same billionaire foundations which are the unspoken architects of the “Great Reset” and “Global Governance” are also involved in (generously) financing various social movements. “They control the opposition”.

What this means is that grassroots activists are often misled and betrayed by their leaders who are routinely co-opted by their billionaire sponsors.

It is essential that these grassroots activists be integrated into the mainstay of the movement against the COVID-19 consensus.

The Road Ahead

What is required is the development of a broad-based grassroots network which confronts both the architects of this crisis as well as all levels of government (i.e. national, states, provinces, municipalities, etc.) involved in imposing the vaccine as well carrying out the lockdown and closure of economic activity.

This network would be established (nationally and internationally) at all levels of society, in towns and villages, workplaces, parishes, trade unions, farmers organizations, professional associations, business associations, student unions, and veterans associations. Church groups would be called upon to integrate this movement.

“Spreading the word” through social media and independent online media outlets will be undertaken bearing in mind that Google as well as Facebook are instruments of censorship.

Legal procedures and protests are unfolding in all major regions of the world. As part of a worldwide network of initiatives, it is important to establish mechanisms of communication, dialogue and exchange within and between countries.

The creation of such a movement, which forcefully challenges the legitimacy of the financial elites, Big Pharma, et al., as well as the structures of political authority at the national level, is no easy task. It will require a degree of solidarity, unity and commitment unparalleled in world history.

What is required is the breaking down of political and ideological barriers within society (i.e. between political parties) while acting with a single voice towards building a worldwide

consensus against tyranny.

Worldwide solidarity and human dignity is the driving force.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
