

“Russian Invasion” - Screaming ‘Wolf!’ Strategy of Deception. Lies Repeated Umpteen Times. What is the Endgame?

“Russian Invasion” - How long is screaming ‘Wolf!’ having an impact on Western public opinion? - Until Full Spectrum Dominance has been attained?

“The separatists are backed, trained, armed, financed by Russia. Russia determined that it had to be a little more overt in what it had already been doing, but it’s not really a shift.” Obama, 29 August 2014.

“If you repeat a lie often enough, it becomes the truth.” - Joseph Goebbels (Hitler’s Propaganda Minister)

Interestingly, most of us who are seeking the truth are primarily attempting to undo the lies - lies umpteen times repeated, lies about “Russian invasions”, first proclaimed by Poroshenko, Ukraine’s oligarch leader (sic), lies of Russia “not respecting Ukraine’s sovereignty”, demonization directed against President Putin, Malaysian airliners downed by Russia - and-so-on.

The latest accusation is that JP Morgan and four other Wall Street banks have been hacked. And the culprit is.... Of, course Russia, according to the presstitute MSM.

It doesn’t matter whether what Poroshenko said and is repeated the world over was based on a translation error (according to the German Tagesschau, the German mainstream TV news) - or whether it is just a conventional lie continuously repeated until it becomes the truth à la Goebbels - the western bought propaganda machine takes full advantage of this hundreds of years old simple strategy of deception.

The interesting part, however, is that hardly anyone on that very occasion is presenting the counter-weight, so to speak, namely to what extent Kiev is assisted by US paid mercenaries, CIA military and strategic advisers and their equipment, all paid for in one way or another by the State Department, CIA, or NATO. And these are facts. Not inventions for deception.

There is enough proof about who caused the 22 February 2014 coup (Maidan) - Madame Nuland, Kerry’s assistant, bragged about it at the Washington Press club - remember the US\$ 5 billion “investment” in Ukraine’s regime change that cannot be let go down the drain because of the f....ing Europeans. She was caught hot-handed or hot-voiced on the phone with the US Ambassador in Kiev.

Ever since that infamous coup, the US / NATO and the EU have had their dirty hands in Kiev's Nazi killer junta - otherwise the Kiev thugs would have never had either the courage or the military knowledge to advance to the Donbas area of Ukraine, where they were literally ordered to kill their brothers. Some of them with some conscience defected early on; then they were accompanied under threats of life by CIA 'advisers'. Eventually they defected by the thousands because of lack of food and ammunition and the resulting low-morale.

It is actually irrelevant whether Russia has troops and armory in East Ukraine. In fact it would be well justified for Russia to defend her countrymen from savage slaughter, as many Donbas citizens are originally Russians. But - they don't, as Mr. Putin is too smart to spoil his diplomatic assets on a war that is already lost by Kiev.

Be this as it may, why do we, truth seekers, at a time of Obama's lie exclamations and countless media repetitions not present more frequently the US / NATO invasion in Ukraine and their assistance to the Kiev murderers, rather than always being on the defensive, undoing lies in defense of Russia?

The truth of what the US-NATO killing machine, its vassal EU states and its paid mercenaries are up to in Ukraine, and that they won't let go regardless of what Obama mutters to tranquilize the world - the truth is in one way or another Washington is committed to its financial and corporate elite to achieve Full Spectrum Dominance, meaning complete subjugation of the world to Washington's masters, the military-security industrial complex and the war financing monetary system - FED-Wall Street-IMF, the latter being a mere extension of the US Treasury.

The Endgame means encircling Russia and China with more NATO bases, including Ukraine and Moldova, as close as possible to Moscow's doorsteps; and, foreseen by 2015, with 60% of the US naval fleet in the South China Sea.

We should not be detracted by the day-to-day details and lies, by the fires that flare up here and there, though all horrible, killing thousands of people; we should not be confused by 'who is doing what?' - But rather focus on the Big Picture, the intentions behind the US / NATO killing machine, not so much by denying the obvious lies, but rather by describing actual facts and the long-term strategy behind them.

Obama screamed again 'wolf' today, literally shouting - 'Russia has invaded Ukraine, Russia's military and equipment are in Ukraine, Russia is funding the separatists' - then adds, 'but it's not in the cards for America to intervene now.'

Don't be fooled. Obama and his masters won't go away. He says the same about American intervention in Syria - it's not the right time, while arming and bombing (as a disguise) at the same time ISIS, created and funded in 2007 by Washington under successively different names to further confuse the public at large. At that time they came out of Turkey as Syrian Freedom Fighters, later they converted into the Al'Nusra Front of rebels, and now they are the ISIS, the Islamic State of Iraq and Syria, also called the Islamic State of the Levant.

This will do until the public needs to be again confused with a new group of Islamic terrorists to justify continuous wars on terror - to feed continuously the fat profit accounts of the eternal war lords. But only, if we the people let them confuse and deceive and divide us.

At the same time, Washington's warmonger-in-chief, encourages his EU puppets to intervene and sending their troops into Ukraine, and imposing still more 'sanctions' on Russia. Let Europe take the hit if there is war. Not for nothing are NATO bases spiked throughout Europe, convenient targets for Russian missiles. - One could wonder - are the Europeans blind or just don't care - or their leaders (sic) bought to the point where they hope to just disappear to America's paradise when Russian rockets hit their countries' NATO bases - and let their people smolder under nuclear dust?

We the 99.99% have all the powers to stop these US instigated murderous aggressions, by rejecting the continuously lying and deceiving propaganda machine, by rejecting and refusing to listen to the corporate prostitute media.

A few weeks ago there was hope that German Chancellor Merkel would see the light, would abandon the bandwagon of the 'sanctioners', because not only did she get a lot of pressure from German industrialists, but also the German people are worried about their energy supply - especially this coming winter. Germany depends by up to 40% on Russia for their energy supplies.

Unfortunately we were wrong. Madame Merkel bent over backwards to please Obama. The naked emperor convinced her not to leave his sinking ship. - What does he have up his imaginary sleeve? Anything he may have discovered by eavesdropping on her cellphone conversations? - So strong to sway her away from reason to the detriment of all of Europe? - These latest sanctions are backlashing on the EU, especially the farmers, a multiple times harder than they hit Russia. European agriculture and mostly small farmers, are losing billions of euros worth on stalled exports to Russia of meat, vegetables, fruit and other food stuff, because Russia retaliated by blocking imports from the EU. Russia is now establishing new trade routes with Latin America.

On 18 September Obama will meet at the White House with Poroshenko, to be sure he stays in line and doesn't sway Putin's way, because corrupt oligarchs tend to be not very reliable. Obama may promise him premature entry to NATO and all the fake fiat dollars that come with it.

It would not be a surprise if Obama were also to receive Abu Bakr al-Baghdadi, the leader of the 'new' ISIS caliphate, to assure him of America's continuous support, if he lets him bomb them, the ISIS troops that is, ever so often, just for show and to confuse the public mind - and, of course, as a disguise to bomb Syria to eventually topple Baschar al-Assad for - regime change.

Obama may also promise the ISIS a key role in the new Syrian government - provided he succeeds in regime change (for now unlikely) - similar as he did to the 'rebels' and other Islamic fractions of Libya. What Obama needs are not well-organized new regimes, but civil wars, fighting sections of societies to keep populations dying, and those still alive on their toes, fighting for their daily survival and fleeing across borders into refugee camps of other lands, thereby swallowing up neighboring countries resources and creating anger in the local population - the old divide to rein tactic.

The Big Picture is important. The people need to see it, the End Game - what is expecting them, if they - we, the 99.99% - are not taking actions to prevent Full Spectrum Dominance from succeeding.
