America's deeply corrupted political system is too debauched to fix. Virtually daily, clear evidence proves it overwhelmingly.

A bipartisan criminal class runs things. Malevolent deep state power directs Washington's agenda. Fantasy democracy gives the system cover.

Simple due diligence reveals what's going on, a tyrannical nation bent on world conquest and dominance, more dangerous and ruthless than any others in history.

Humanity's fate hangs in the balance, catastrophic nuclear war virtually certain if things proceed on their present course.

According to the Wall Street Journal, the Justice Department claims it has enough evidence to charge over six Russian military and intelligence officials with hacking DNC computers before last year's US presidential election.

Fact: It has none except what it may have invented. No Russian hacking occurred. More on this below.

America's intelligence community accused Vladimir Putin of ordering a campaign to help Trump defeat Hillary.

Fact: The claim is a bald-faced lie. Not a shred of evidence of alleged Russian hacking or Putin's involvement was presented in over a year since accusations first surfaced.

Fact: Months of House, Senate and special council Robert Mueller investigations found nothing - because there's nothing to find.

Yet investigations continue, wasting time and money, part of longstanding Russia bashing,

along with distracting public attention from more pressing issues, including:

- endless US wars of aggression against nonbelligerent states – the highest of high crimes;
- other wars perhaps readying to be launched – North Korea and Iran prime targets;
- bipartisan war on social justice – heading toward eliminating it altogether;
- the unprecedented wealth transfer from ordinary people to super-rich ones;
- monied interests exploiting ordinary people – supported by presidents and Congress;
- the nation increasingly a ruler-serf society – thirdworldized, poverty the leading growth industry;
- freedom-destroying police state laws, and much more, proving America is a tyrannical plutocracy, not a democracy.

I've written numerous articles debunking the phony Russian hacking story – delegitimizing Trump for the wrong reasons and relentlessly bashing Russia, why the malicious campaign surfaced last year and continues, even though it doesn't have a leg to stand on.

Last March, former UK ambassador to Uzbekistan Craig Murray explained claims about Russian US election hacking were fabricated.

“The source of these emails and leaks has nothing to do with Russia at all,” he said.

“I discovered what the source was when I attended the Sam Adam's whistleblower award in Washington,” he explained. “The source of these emails comes from within official circles in Washington DC. You should look to Washington not to Moscow.”

“WikiLeaks has never published any material received from the Russian government or from any proxy of the Russian government. It's simply a completely untrue claim designed to divert attention from the content of the material.”

Misinformation and Big Lies repeated enough get most people to believe them – why polls show most Americans believe the phony Russian hacking story. Media scoundrels suppress vital truths exposing the ruse.

Last summer, highly respected investigative journalist Seymour Hersh revealed that the CIA is behind Russiagate.

Claims about Russian US election hacking, along with alleged improper or illegal Trump team ties to Moscow, were fabricated – a John Brennan operation.

DNC staffer Seth Rich leaked its emails. WikiLeaks published them – Rich later lethally shot in Washington.

America's intelligence community's accusation about Russian hacking is a fabricated Big Lie. No hacking occurred!

Hersh and Craig Murray exposed Russiagate, its Big Lies invented and spread by the CIA.

Russia didn't interfere in America's election or any others. Washington does it repeatedly against numerous countries.

The Wall Street Journal published fabricated accusations it should have debunked as malicious malarkey!
